One. Report to Shareholders

I. Operating results for the previous year (2023)

(I) 2023 Business Report Implementation Result:

The Company's consolidated operating revenue in 2023 totaled NT\$478,477 thousand, an increase of 6798.46% from the consolidated operating revenue of NT\$6,936 thousand in 2022. The consolidated net profit after tax in 2023 was NT\$28,916 thousand, an increase of 307.82% from the consolidated net loss after tax of NT\$13,914 thousand in 2022. The earnings per share was NT\$0.14. The business operation result is described in the following:

1. Consolidated Profit or Loss

Unit: NT\$ thousand

Item	Amount in 2023	Amount in 2022	Increase/decrease amount	Change in percentage %
Operating revenue	478,477	6,936	471,541	6798.46
Operating costs	380,978	1,725	379,253	21985.68
Operating profit	97,499	5,211	92,288	1771.02
Operating expenses	63,850	57,771	6,079	10.52
Operating income (loss)	33,649	(52,560)	86,209	164.02
Non-operating revenue and (expenditures)	17,194	34,955	(17,761)	(50.81)
Net income before tax	50,843	(17,605)	68,448	388.80
Income tax benefit (expense)	(21,927)	3,691	25,618	(694.07)
Net profit (loss) for the period	28,916	(13,914)	42,830	307.82
Earnings per share (NT\$)	0.14	(0.07)		

2. Parent Only Profit/Loss

Unit: NT\$ thousand

Item	Amount in 2023	Amount in 2022	Increase/decrease amount	Change in percentage %
Operating revenue	478,597	7,056	471,541	6682.84
Operating costs	327,783	1,725	326,058	18901.91
Operating profit	150,814	5,331	145,483	(2729.00)
Operating expenses	50,966	42,896	8,070	18.81
Operating income (loss)	99,848	(37,565)	137,413	365.80
Non-operating revenue and (expenditures)	(48,986)	19,966	(68,952)	(345.35)
Net income before tax	50,862	(17,599)	68,461	389.01
Income tax benefit (expense)	(21,927)	3,691	25,618	(694.07)
Net profit (loss) for the period	28,935	(13,908)	42,843	308.05
Earnings per share (NT\$)	0.14	(0.07)		

- (II) Budget implementation: The Company does not disclose financial forecasts.
 (III) Analysis of receipts, expenditures, and profitability

1. Liquidity analysis

(1) Consolidated liquidity analysis

Item	Year		Increase/decrease percentage (%)
	2023.12.31	2022.12.31	
Cash flow ratio (%)	(9.61)	(26.88)	17.27
Cash flow adequacy ratio (%)	(12.13)	(18.96)	6.83
Cash reinvestment ratio (%)	(8.18)	(18.61)	10.43

Analysis of changes in the increase/decrease percentage: Increase/decrease percentage less than 20%.

(2) Parent Only Liquidity Analysis

Item	Year		Increase/decrease percentage (%)
	2023.12.31	2022.12.31	
Cash flow ratio (%)	(3.94)	(24.60)	20.66
Cash flow adequacy ratio (%)	0.71	(13.83)	14.54
Cash reinvestment ratio (%)	(3.20)	(16.96)	13.76

Analysis of changes in the increase/decrease percentage:

Cash flow ratio increased by 20.66%, mainly due to the slowdown in the increase in inventories and the decrease in cash outflow from operating activities, resulting in an increase in the cash flow ratio.

2. Profitability analysis

(1) Consolidated profitability analysis

Item	Year		Increase/decrease rate (%)	
	2023	2022		
Return on assets (%)	0.60	(0.29)	0.89	
Shareholder return on equity (%)	1.03	(0.50)	1.53	
Percentage to paid-in capital (%)	Operating income	1.56	(2.43)	3.99
	Net income before tax	2.35	(0.81)	3.16
Net profit rate (%)	6.04	(200.61)	206.65	
Earnings per share (NT\$)	0.14	(0.07)		

(2) Parent Only Profitability Analysis

Item \ Year		2023	2022	Increase/decrease rate (%)
Return on assets (%)		0.58	(0.31)	0.89
Shareholder return on equity (%)		1.03	(0.50)	1.53
Percentage to paid-in capital (%)	Operating income	4.62	(1.74)	6.36
	Net income before tax	2.35	(0.81)	3.16
Net profit rate (%)		6.05	(197.11)	203.16
Earnings per share (NT\$)		0.14	(0.07)	

(IV) Research and development (R&D) status

1. R&D expenditures and results for the most recent fiscal year

- (1) Through applications for incentives for urban renewal and unsafe and old buildings, as well as jointly developing and building quality mixed residential and commercial buildings in old communities with landowners, we are able to keep land acquisition costs down to generate more profits.
- (2) We are proactively seeking desirable locations with reasonable land prices to promote quality residences for steady sales. With a strategy that focuses on small volumes but a large number of projects, we hope to build our company brand in the public awareness.
- (3) Our product design and planning take into account the requirements of building coverage ratio and floor area ratio in order to fully utilize the buildable area. Moreover, we aim to design and construct tall buildings with deep foundations and high floors, imbuing them with vitality so that they are reasonable, practical, humanized and refined, and meeting market demand.
- (4) We select first-rate vendors through evaluation of their information sheets and final reports, while strengthening budget management and improving schedule control to reduce costs, elevating operational efficiency.
- (5) Construction projects completed in recent years, including “Feng Hua Hui,” “Wen Ding Hui,” “Di Yi Hui,” “The Twin Cities,” “City Meeting Point,” and construction projects currently under construction, including “Baosheng Emperor Memorial Hall,” “Yun Ji,” “Sun Fon AIT” and “Yun Di,” have received high praise by customers in terms of both the design and construction quality.

2. Future R&D plans

- (1) Strengthening land development ability by adopting the strategy of purchasing land and joint construction to ensure the acquisition of land resources.

- (2) Adopting new construction methods and collecting information on new building materials to keep track of construction progress cost and quality.
- (3) Promoting full institutionalized management by strengthening authorization and fostering labor division. By doing this, our labor resources can be put into full practice to enhance the Company's work quality and highly efficient operations.
- (4) Promoting all businesses to improve computerized operations and enhance work efficiency. This enables us to provide the best service to customers, build product reputation and increase brand awareness, and achieve the goal of sustainable business.
- (5) As we primarily provide land development and construction services, R&D investment is not applicable.

(V) Conclusion

First of all, I would like to thank you for your long-term support and encouragement of Sunfon Construction. The progress of our development and construction projects in 2023 is hereby reported. In 2023, the “City Meeting Point” was successfully delivered; the “Baosheng Emperor Memorial Hall” at Chongqing North Road Section 3 is expected to be delivered in 2024; the construction of “Yun Ji” at Minsheng West Road is under construction and expected to be completed and delivered in 2026; the “Yun Di” at the corner of Guisuijie on Minle Street is under construction, which was sold out in 2023 for a total sales amount of NT\$1586.62 million and is scheduled to be delivered in 2025; the “Sun Fon AIT” on Section 1 of Kangning Road in Neihu was pre-sold in 2023, achieving a sales rate of 99%, with only one unit remaining unsold, and a total sales amount of NT\$56.862 million; the “Yun Du”, located at 1 Chengde Road, is under construction and is scheduled to be delivered in 2027; the construction project at “Nanchang Road” is scheduled to begin in February 2024 due to a change in the construction license, and is scheduled to be delivered in 2026; a construction license was obtained for the construction project at “Section 2, Huanshan Road” on September 12, 2023, with a base area of 269.53 pings, and 11 levels above ground and 3 levels underground, the floor area is 1,660.56 pings (after the Lunar New Year this year, the demolition and construction began, and is scheduled to be delivered in 2026).

The active promotion of development projects in this year include: urban renewal project “No. 101, Chang’an West”, with a base area of 669.13 ping; publicly planned urban renewal project “Changji Street”, with a base area of 664.59 pings, urban renewal project “Yansan Night Market” at Section 3 of Yanping North Road, with a base area of 665.75 pings; publicly planned urban renewal project “No. 31-1, Section 3, Chongqing North Road”, with a base area of 464.94 pings.

Looking forward to 2024, despite the pressure of inflation and lack of work, and the need for low-carbon and environmental protection, the cost of construction may be pushed higher, making it more difficult for housing prices to fall. However, the Company adheres to the concept of sustainable operation: “Loyalty and dedication, increase income and minimize expenditure, and put the customer first and create a better future together.” We look forward to the Company’s breakthroughs, robust growth and stability. Once again, thank you for your continued support and encouragement. Finally, I wish you good health and all the best!

II. Business plan for this year (2024)

(I) Management policy

We adhere to the business motto of “sustainable management and steady growth” and create reasonable profits, which are given back to society and shared with employees and shareholders. As a means to put the motto into practice, our management policy includes:

1. Strengthening land development ability by adopting the strategy of purchasing land and joint construction to ensure the acquisition of land resources.
2. Using market demand as a guide to plan quality products that are user-friendly so as to facilitate sales and reduce the inventory of houses.
3. Emphasizing construction quality and after-sales service to build a sound corporate image and reputation, while increasing the trust and recognition of customers.
4. Properly planning and utilizing human resources and placing importance on employee education and training as well as the welfare system to enhance work efficiency.
5. Improving the financial structure and strictly controlling budgets and audits to ensure our profitability and operating performance.

(II) Expected sales volume and its basis

1. The base for the “City Meeting Point” project located at Chang’an West Road is 119.14 ping (393.8 m²), with 49 residential units planned. The sales rate was 100%, with delivery completed in 2023.
2. The base for the “Baosheng Emperor Memorial Hall” project located at No. 138, Section 3, Chongqing North Road is 108.6 ping (359 m²), planned to be built as a social and educational facility building, which was 100% sold out at the end of 2020.
3. The base for the “Yun Ji” project located near Minsheng West Road and Chongqing North Road and Ningxia Night Market is 668.83 ping (2,211 m²), with 5 general shops and 207 residential units planned. The project was launched in the third quarter of 2021 and the sales rate is expected to reach 100% by the end of 2024.
4. The base for the “Yun Di” project located at Guisui Street and Minle Street is 346.67 ping (1,146 m²), with 8 general shops and 104 residential units planned. The project was launched in the third quarter of 2022 and the sales rate at the end of 2023 already reached 100%.
5. The base for the “Sunfon AIT” project located at Lane 175, Section 1, Kangning Road, Neihu District is 215.03 ping (711 m²), with 1 general shop and 36 residential units planned. The project was launched in the first quarter of 2023 and the sales rate is expected to reach 100% by the end of 2024.

6. The base for the “Yun Cheng” project located at Section 3, Chengde Road, Datong District is 188.46 ping (623 m²), with 3 general shops and 40 residential units planned. The project is to be launched in the first quarter of 2024 and the sales rate is expected to reach 100% by the end of 2024.
 7. The base for the No. 81, Section 2, Huanshan Road Project, Datong District is 269.53 ping (891 m²), with 1 general shop planned on the ground floor and 40 residential units. The project is to be launched in the second half of 2024 and the sales rate expected to reach 80% by the end of 2024.
 8. The estimated sales volume for 2024 is based on the expectation that the construction industry will decline slightly in 2024.
- (III) Important production and sales policies
1. Production strategy:
 - (1) Develop marketable land and work with landlords to build quality mixed residential and commercial buildings in old communities. This reduces land acquisition costs and generates more profits.
 - (2) Our product design and planning take the requirements of building coverage ratio and floor area ratio into account in order to fully utilize the buildable area. Moreover, we aim to design and construct high buildings with deep foundations to build reasonable, practical, humanized and refined buildings, meeting the market demand.
 - (3) We select first-rate vendors through evaluation of their information sheets and final reports, while strengthening budget management and improving schedule control to reduce costs, elevating operations management efficiency.
 2. Sales strategy:
 - (1) Adopt sensible operating principles by means of pre-sales and selling while building or selling after building completion depending on market trends, and launch sales at the best time chosen.
 - (2) Entrust reliable and professional proxies to reach the objective of expected sales targets through diversified media design and strong advertising planning ability in conjunction with the bank’s generous loan terms.
 - (3) Enhance the training of customer sales service to improve the quality of professional and comprehensive after-sales services in order to increase the satisfaction and trust of customers.
 - (4) Build customer brand recognition of the Company and improve the corporate image through the visibility of the Company’s listed stock and past project performances.

III. Future company development strategy

- (I) To reduce risks, the main area for our future land development will still be Greater Taipei.
- (II) We have long been dedicated to the research of urban renewal and carrying out land integration. Our main development direction is to renew old communities to improve the quality of living.
- (III) To ensure the acquisition of land materials for sustainable management and development, not only do we continue with the business of joint construction and urban renewal as our specialty, but we also assess suitable land in New Taipei City, Taoyuan and even Taichung for purchase and construction. This will strengthen the Company's business volume and profitability.

IV. The effect of external competition, the legal environment, and the overall business environment.

In 2023, the world continued to be affected by the Russo-Ukrainian War, which pushed up the production cost of enterprises and the cost of private purchases. As a result, the revenue and solvency of enterprises were also severely affected. Even if the U.S. economy was in a recession, interest rates continued to rise. Central banks also resorted to tightening policies. In the second half of the year, the global economy showed that the market's consumption momentum was still weak. In addition, the U.S. FED suspended interest rate hikes to cool off inflation, the European Central Bank continued to tighten monetary policy due to high inflation pressure, and the People's Bank of China lowered its key policy rates to revitalize the economy.

The outlook for the global economy was weak, and many economies were preparing for the upcoming recession. This sluggish market environment was particularly evident in the construction industry, where the entire industry expected to experience slow growth. In the industry, residential construction in particular has declined seriously. The main reason is that rising interest rates, high inflation and increased input costs have reduced the demand for new construction, and labor shortages have squeezed construction business profits. The construction industry faces the risk of permanently rising development costs.

In view of the domestic housing market, the government is launching a strong crackdown on housing prices, coupled with the labor shortage and high material costs, which are likely to remain high and will not return to the previous trend. For the construction industry, the continued increase in input costs not only increases financial pressures, it may also impact or limit the number of viable construction projects that can be developed.

Looking to the future, in terms of economic growth forecast, the central bank has cut the economic growth rate mainly because the world's major central banks continue to tighten monetary policies. Coupled with the slowdown of demand and investment, along with other factors, and although inflationary pressures are gradually being eased, the performance of the international situation and the domestic economy, as well as the price level, will have an impact on the construction industry.

Two. Company Profile

I. Date of establishment: January 21, 1988

II. Company History

- ◎ January 1988 Approved for establishment with a capital of NT\$50 million; the Company was established at 6F-5, No. 31, Section 2, Chang'an East Road, Taipei City.
- ◎ June 1989 The extraordinary general meeting resolved to approve an increase in capital by NT\$125 million in cash, increasing the paid-in capital to NT\$175 million.

1. Please explain the policy, system, standards and structure by which remuneration to independent directors is paid, and the association between the amount paid and independent directors' responsibilities, risks and time committed. The policy, system, standards and structure by which remuneration to independent directors is paid and the association between the amount paid is the same as those for general directors; please refer to (V).

2. Remuneration to directors for rendering services (such as consultants of parent company/all companies in the financial report/investees to non-employees) in the most recent fiscal year other than the disclosures in the above table: None.

- Note 1: Names of directors are presented separately (for institutional shareholders, the name of the institutional shareholder and its representatives are stated separately), whereas the amount of benefits and allowances for general directors and independent directors are disclosed in aggregate. Any directors who also serve as president or vice president are disclosed in this table and the following table (3).
- Note 2: Refers to remuneration of directors in the most recent fiscal year (including directors' salaries, allowances, severance pay, various bonuses and incentives, etc.).
- Note 3: Represents the amount of remuneration distributed to directors approved by the Board meeting in the most recent fiscal year.
- Note 4: Refers to remuneration to directors for services rendered (including business travel allowances, special expenses, various allowances, accommodation, corporate vehicle and other in-kind benefits) for the most recent fiscal year. Where housing, cars, vehicles, or personal allowances were provided, the nature and cost of assets, the rental rates calculated based on actual or fair value, cost of petrol and other subsidies are also disclosed. Where a personal driver was allocated, please add a note explaining the amount of salary paid to the driver, but do not count it as part of the remuneration.
- Note 5: Refers to any salaries, allowances, severance pay, bonuses, incentives, business travel allowances, special allowances, subsidies, accommodation, vehicles and other in-kind benefits that the director received in the most recent fiscal year for assuming the role of a company employee (such as president, vice president, other managerial officers or employees). Where housing, cars, vehicles, or personal allowances were provided, the nature and cost of assets, the rental rates calculated based on actual or fair value, cost of petrol and other subsidies are also disclosed. Where a personal driver was allocated, please add a note explaining the amount of salary paid to the driver, but do not count it as part of the remuneration. Part of the salary expense was recognized according to IFRS2 "Share-based Payment." Amounts including the acquisition of employee stock options, new restricted employee shares and subscription of new shares for raising capital are treated as remuneration.
- Note 6: Refers to any remuneration that the director has received (in cash or in shares) in the last year for assuming the role of an employee (such as president, vice president, other managerial officers or employees). The amount of employee remuneration proposed by the Board of Directors in the most recent fiscal year should be disclosed. Where the amount cannot be estimated, a calculation should be made based on last year's payout ratio, and Attachment 1-3 should also be completed for reference.
- Note 7: The total amount of remuneration paid to the Company's directors by all companies in the consolidated report (including the Company) should be disclosed.
- Note 8: The total amount of remuneration paid to directors and their names are disclosed in remuneration ranges.

Note 9: The total amount of remuneration paid to the Company's directors by all companies in the consolidated report (including the Company) should be disclosed, with the names of the directors disclosed in remuneration ranges.

Note 10: Net income after tax is the after-tax profit in the parent only or individual financial reports in the most recent fiscal year.

Note 11: a. This column should clearly represent all forms of remuneration that directors received from invested businesses other than subsidiaries or from the parent company.

b. For directors who received remuneration from investment businesses other than subsidiaries or from the parent company, amounts received from these invested businesses or from the parent company should be added to column I of the remuneration brackets table. In this case, column I should be renamed "Parent Company and all Invested Businesses."

c. Remuneration refers to any returns, remuneration (including remuneration received as an employee, director and supervisor) and professional service fees which the parent company's director received for serving as director, supervisor or managerial officer in invested businesses other than subsidiaries or in the parent company.

* The basis of remuneration disclosed in the table is different from the basis of the Income Tax Act; hence the table has been prepared solely for information disclosure and not for tax purpose.

(II) Remuneration to the president and vice presidents

Unit: NT\$ thousand

Title	Name	Salary (A) (Note 2)		Pension (B)		Bonuses and special allowances (C) (Note 3)		Amount of remuneration to employees (D) (Note 4)				The sum of A, B, C and D and its percentage over the net income after tax (%) (Note 8)		Remuneration from investment business other than subsidiaries or parent company (Note 9)

Note: (1) The actual amount of pension payment was NT\$2,142 for 2023, and the amount contributed to retirement pension expense was NT\$3,248 thousand.

(2) President Lan, Li-Hua took office on September 26, 2023.

(III) Names of managerial officers who received employee remuneration and the distribution situation

Names of managerial officers who received employee remuneration and the distribution situation

December 31, 2023 Unit: NT\$ thousand

	Title	Name	Stock amount	Cash amount	Total	Total amount as a percentage of net income after tax (%)
Managerial officer	President	Lan, Li-Hua	0	146	0	0.50%
	Chief Strategy Officer	Hung, Min-Fu				
	Vice President	Huang, Kuo-Chin				
	Assistant general manager of the Finance Department	Shih, Shu-Ying				

(IV) Describe total remuneration, as a percentage of net income after tax stated in the parent only financial reports and consolidated financial statements, as paid by the Company and by each company included in the consolidated financial statements during the past 2 fiscal years to directors, supervisors, presidents, and assistant general managers:

Item \ Year	2023				2022			
	The Company	Percentage of net income after tax	Consolidated statements	Percentage of net income after tax	The Company	Percentage of net income after tax	Consolidated statements	Percentage of net income after tax
Director	1,030	3.56%	1,030	3.56%	2,159	15.52%	2,159	15.51%
President and vice president	8,186	28.29%	8,186	28.31%	3,323	23.89%	3,323	23.88%

Describe remuneration policies, standards, and packages, the procedure for determining remuneration, and its linkage to operating performance and future risk exposure:

(I) Policies, standards, and packages of remuneration

Directors (including independent directors):

1. Business travel allowance of NT\$10,000 for each attendance.
2. Remuneration of directors: As stipulated in the Company's Articles of Incorporation, the remuneration allocated to directors shall be based on the net income before tax and shall not exceed 1%. However, if the Company still has accumulated losses, the Company should first make up for losses before allocating remuneration to directors in the proportion described above.
3. The chairperson's monthly salary and year-end bonus.

President and vice presidents:

1. Monthly salary and year-end bonus.
2. Remuneration to employees: As stipulated in the Company's Articles of Incorporation, the remuneration allocated to employees shall be based on the net income before tax and shall not be less than 1%. However, if the Company still has accumulated losses, the Company should first make up for losses before allocating remuneration to employees in the proportion described above.

(II) The procedure for determining remuneration:

Remuneration to directors is determined based on the net income before tax of the year as well as on the proportion stipulated in the

Articles of Incorporation followed by the resolution of the Board of Directors.

Salaries and bonuses of the president and vice presidents are determined on the basis of the Company's employee salary and bonus standards. Remuneration to the president and vice presidents is determined based on the net income before tax of the year as well as the proportion stipulated in the Articles of Incorporation followed by the resolution of the Board of Directors.

The remuneration mentioned above has been submitted to the Salary and Remuneration Committee for discussion followed by the resolution of the Board of Directors since 2012.

(III) Linkage to operating performance and future risk exposure:

The remuneration to directors, president and vice presidents is based on their degree of participation in the operations of the Company, as well as their contribution and loyalty and the value of their responsibilities, while also taking full account of the Company's operating performance.

IV. The state of the Company's implementation of corporate governance:

(I) The state of operations of the Board of Directors:

The Board of Directors held 6 meetings (A) in the most recent fiscal year; the attendance for each director and supervisor is as follows:

Title	Name	Actual attendance B	Number of proxy attendances	Percentage of actual attendance (in non-voting capacity) (%) [B/A]	Remark
Chairperson	Representative of Don Tai Development Co., Ltd.: Hung, Ping-Yao	2	0	100	Appointed on August 9, 2023
Director	Representative of Don Tai Development Co., Ltd.: Lin, Yi-Wei	6	0	100	
Director	Representative of Yo-Li Investment Co., Ltd.: Chuang, Yu-Te	5	1	83	
Director	Representative of Yo-Li Investment Co., Ltd.: Jean, Jyi-Dean	6	0	100	
Director	Representative of Golden Plaza Cultural & Education Foundation: Huang, Cheng-Yuan	6	0	100	
Director	Chen, Tsung-Jen	6	0	100	
Independent Director	Huang, Tse-Jen	6	0	100	
Independent Director	Lin, Wen-Fang	6	0	100	
Independent Director	Wu, Chen-Chi	6	0	100	
Chairperson	Representative of Don Tai Development Co., Ltd.: Hung, Min-Fu	3	1	75	Resigned on August 8, 2023

Any other matters that require reporting:

I. For Board of Directors' meetings that meet any of the following descriptions, it is necessary to state the date, session, the motion discussed, independent directors' opinions and how the Company has responded to such opinions: For the operation status of the Board of Directors' meeting, please refer to page 46.

(I) Matters listed in Article 14-3 of the Securities and Exchange Act.

(II) Any other documented objections or qualified opinions raised by independent directors against Board resolutions in relation to matters other than those described above.

II. Execution status of recusal of directors due to conflicts of interest (name of independent directors, proposal content, reasons of recusal and participation in voting shall be described): The Company is not subject to proposals requiring recusal of directors for conflict of interest.

III. TWSE/TPEX Listed Companies should disclose information including the evaluation

cycle and period, evaluation scope, method and evaluation content of the board's self (or peer) evaluation:

Evaluation cycle	Evaluation period	Evaluation scope	Evaluation method	Evaluation content
Execute once a year	2023.01.01 - 2023.12.31	Board of Directors	Board of Directors' performance self-evaluation	<ol style="list-style-type: none"> 1. Participation level in the operation of the company 2. Improvement of the quality of the Board of Directors' decision making 3. Composition and structure of the Board of Directors 4. Election and continuing education of directors 5. Internal control
Execute once a year	2023.01.01 - 2023.12.31	Director	Board member performance self-evaluation	<ol style="list-style-type: none"> 1. Alignment of the goals and mission of the company 2. Awareness of the duties of a director 3. Participation level in the operation of the company 4. Management of internal relationship and communications 5. Director's professionalism and continuing education 6. Internal control
		Functional committee (audit committee/ salary and remuneration committee)	Functional committee performance self-evaluation	<ol style="list-style-type: none"> 1. Participation level in the operation of the company 2. Awareness of the duties of the functional committee 3. Improvement of quality of decisions made by the functional committee. 4. Composition of the functional committee and election of its members 5. Internal control

IV. Goals for strengthening the functions of the Board of Directors (e.g. setting up an Audit Committee or enhancing information transparency) for the year and the most recent fiscal year and the evaluation of the implementation state: At the first meeting of the 12th Board held on July 23, 2021, the Company elected the members for the 5th Salary and Remuneration Committee. The appointment of Huang, Tse-Jen, Lin, Wen-Fang and Wu, Chen-Chi as Salary and Remuneration Committee members was unanimously approved by all directors present. At the first meeting of the 5th Salary and Remuneration Committee held on November 9, 2021, Huang, Tse-Jen was elected as the convener and chair of the Salary and Remuneration Committee. We regularly update the financial information on our website for shareholders. Our directors perform their duties in a professional manner and they strive to act in the best interests of all shareholders.

(II) Audit Committee Implementation Status Information:

There were 5 (A) Audit Committee meetings convened in the most recent year, and the attendance status of the Audit Committee members is as follows:

Title	Name	Actual attendance B	Number of proxy attendances	Percentage of actual attendance (in non-voting capacity) (%) [B/A]	Remark
Independent Director	Huang, Tse-Jen	5	0	100	
Independent Director	Lin, Wen-Fang	5	0	100	
Independent Director	Wu, Chen-Chi	5	0	100	

Any other matters that require reporting:

- I. The "Audit Committee" was established on July 23, 2021 to replace the responsibilities and authorities of supervisors and the annual work focus includes:
1. Adoption or amendment of the internal control system pursuant to Article 14-1 of the Securities and Exchange Act.
 2. Review on the effectiveness of the internal control system.
 3. Adoption or amendment, pursuant to Article 36-1 of the Securities and Exchange Act, of any handling procedures for material financial or business transactions, such as the acquisition or disposal of assets, derivatives trading, loans of funds to others, and endorsements or guarantees for others.
 4. Matters bearing on the personal interest of a director.
 5. Material asset or derivatives transaction.
 6. Material monetary loan, endorsement, or provision of a guarantee.
 7. The offering, issuance, or private placement of equity-type securities.
 8. The hiring, discharge, or compensation of an attesting CPA.
 9. The appointment or discharge of a financial, accounting, or chief internal auditor.
 10. Annual financial statements signed or sealed by the Chairperson, managerial officer and accounting officer and Q2 financial statements requiring audit by CPAs.
 11. Any other material matter so required by the Company or competent authority.
 - (1) Review financial statements

The Board of Directors has prepared the Company's 2023 financial statements,

which have been audited and certified by CPA Yang, Chih-Hui and CPA Hsu, Hsin-Min of Ernst & Young, Taiwan, and an audit report related thereto has been issued. In addition, the business report and proposal for distribution of earnings have been reviewed by the Audit Committee to comply with the laws and regulations.

(2) Review on the effectiveness of the internal control system

2023 Internal control system self-evaluation (referred to as “internal self-evaluation”) operation has been completed. According to the internal self-evaluation result, an internal control declaration is issued, which has been approved by the Audit Committee and reported to the Board of Directors for approval.

II. Where the operation of the Audit Committee is subject to one of the following, the board meeting date, session, proposal content, dissenting opinion of independent directors, reserved opinions or major recommendation item content, resolution result of the Audit Committee meeting and the Company’s handling of opinions of the Audit Committee.

(I) Matters specified in Article 14-5 of Securities and Exchange Act:

Date	The 1st term of Audit Committee	Summary of motion	Resolution result of Audit Committee	Handling of opinions of Audit Committee
2023.01.17	8th meeting	<ol style="list-style-type: none"> 1. Review and approval of the joint construction project of Section 3, Yenping North Road. 2. Approved the house demolition outsourcing case of the Lane 128, Section 3, Chengde Road Project. 3. Approval of the Chengde I Project construction budget and outsourcing price revision. 	Agreed	None
2023.03.07	9th meeting	<ol style="list-style-type: none"> 1. Review of the recognition of the 2022 business report and financial statements. 2. Review of the 2022 Earnings Distribution Table. 3. (III) The state of corporate governance implementation and variation from the Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies, and the reason for such variation:

Evaluation item	Implementation status			Variation from the Corporate Governance Best-Practice Principles for TWSE/TPEX Listed Companies, and the reason for such variation
	Yes	No	Summary	
I. Has the company established and disclosed its rules of corporate governance in accordance with the Corporate Governance Best-Practice Principles for TWSE/TPEX Listed Companies?	✓		The 7th meeting of the 12th term of board of directors of the Company approved the establishment of the Corporate Governance Best Practice Principles on November 8, 2022, and the Company's operation also complies with relevant regulations. The Company has disclosed these Principles on the Market Observation Post System (MOPS) website and the Company's website sunfon.com.tw.	There are no major discrepancies with the Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies.
II. Equity structure and shareholders' equity				
(I) Has the company established internal procedures to handle shareholders' suggestions, doubts, disputes, and litigation matters, and have the procedures been implemented accordingly?	✓		(I) The Company has established the spokesperson system to handle matters related to shareholders' recommendations, concerns, disputes and litigations. In addition, the Company has also set up the stakeholders section and contact channel on the Company's website, in order to allow shareholders to submit recommendations or questions.	(I) No major difference
(II) Does the company possess a list of the company's major shareholders and a list of the ultimate controllers of the major shareholders?	✓		(II) The Company possesses a list of major shareholders provided by the stock agent, and keeps close contact with major shareholders.	(II) No major difference
(III) Has the company established and implemented risk control and firewall mechanisms with its affiliates?	✓		(III) The assets and financial accounting of affiliates are independent operations. The Company has established the "Regulations Governing the Financial Operations between the Company and Affiliates" to avoid risks resulting from malpractice of affiliates.	(III) No major difference
(IV) Has the company set up internal norms to prohibit insiders from using undisclosed information to trade securities?	✓		(IV) The Company has set up the "Preventive Measures of Insider Trading Management" to prohibit insiders from trading marketable securities using undisclosed information in the market.	(IV) No major difference
III. Composition and duties of the Board of Directors				
(I) Has the Board of Directors established a diversity policy and	✓		(I) The board members of the Company consist of professionals	

Evaluation item	Implementation status		Variation from the Corporate Governance Best-Practice Principles for TWSE/TPEx Listed Companies, and the reason for such variation
	Yes	No	
specific management objectives and has such policy and objectives been implemented properly?			
(II) Aside from setting up the Salary and Remuneration Committee and Audit Committee as required by the law, has the company voluntarily set up other functional committees?	✓		(II) Other various functional committees will be further established depending upon the actual operation status and business needs of the Company in the future.
(III) Has the company established Regulations Governing the Board Performance Evaluation and its evaluation methods, and does the company perform a regular performance evaluation each year and submit the results of performance evaluations to the Board of Directors and use them as a reference in determining salary and remuneration for each individual director, their nomination, and reappointment?	✓		(III) No major difference

Evaluation item	Implementation status		Variation from the Corporate Governance Best-Practice Principles for TWSE/TPEX Listed Companies, and the reason for such variation
	Yes	No	
(IV) Does the company regularly assess the independence of CPAs?	✓		<p>I. The self-evaluation score of the board of directors' performance was: 97.1 (total of 100 points)</p> <p>II. The board members' self-evaluation overall score: 97.6 (total of 100 points)</p> <p>According to the 2023 board of directors' performance evaluation result, the overall operation of the board of directors of the Company was considered proper.</p> <p>(IV) The Company assesses the independence of CPAs once a year in terms of the aspects of financial interests, financing and guarantees, business relationships, family and personal relationships, employment relationships, gifts and special benefits, the rotation of CPAs and non-audit business, while also obtaining an independence statement issued by the accounting firm. In addition, according to the Audit Quality Indicators (AQIs), the competency of CPAs is assessed in terms of the aspects of professionalism, quality control, independence, supervision and innovative capability. On March 5, 2024 the approval of the Audit Committee was obtained and the Board of Directors passed the CPAs' independence and competency assessment and the result did not indicate any matters that may affect the independence of the CPAs.</p> <p>(IV) No major difference</p>
IV. Has the company designated an appropriate number of corporate governance personnel and designated a chief corporate governance officer that are responsible for corporate governance affairs (including but not limited to providing directors/supervisors with the information needed to perform their duties, assist directors and supervisors in complying with laws and regulations, convening board meetings and shareholders' meetings	✓		<p>The Company has established the Corporate Governance Officer, Assistant Vice President Shih of the Financial Department, to be in charge of handling corporate governance related affairs. The main responsibilities of such dedicated staff include handling matters related to the board of directors' meeting and shareholders' meeting according to the law, preparing meeting minutes of the board of directors' meetings and shareholders' meetings, assisting with</p> <p>No major difference</p>

(II) Functions of the Company's Salary and Remuneration Committee

1. Establishing and periodically reviewing the performance assessment standards, annual and long-term performance goals, and the policies, systems, standards, and structure for the remuneration of the directors, supervisors, and managerial officers of the Company.
2. Periodically assessing the degree to which the performance goals of the directors, supervisors, and managerial officers of the Company have been achieved, setting the types and amounts of their individual remuneration based on the results of the reviews conducted in accordance with the performance

assessment standards. The annual report should disclose the results of the individual performance assessments of the directors, supervisors and managerial officers and the connection between and reasonableness of the contents and amounts of their individual remuneration and performance assessment results.

Any other matters that require reporting:

- I. If the Board of Directors declines to adopt or modify a recommendation of the Salary and Remuneration Committee, the date, session, motion discussed and the resolution of the Board meeting and handling of the resolution of the Remuneration Committee shall be specified (if the remuneration package approved by the Board is better than the recommendation made by the committee, please specify the variation and the reason): None.
- II. As to the resolutions of the Salary and Remuneration Committee, if a member expresses any objection or reservation, either by recorded statement or in writing, the date, session and topic discussed of the committee meeting, all members' opinions and handling of members' opinions shall be specified: None.

(V) Execution status of promotion of sustainable development and discrepancies with the Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies and reasons:

Implementation item	Execution status		Discrepancies with the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies and reasons	
	Yes	No		
I. Has the company established the governance structure for promotion of sustainable development, and set up a unit specialized (or involved) in the promotion of sustainable development? Is such unit run by senior management authorized by the Board of Directors, and does it report its supervision status to the Board of Directors?		✓	The Company has stipulated the Sustainable Development Best Practice Principles of the Company on November 8, 2022 and has established the Sustainable Development Committee. For the Committee, the Chairman acts as the committee chairperson and the President acts as the vice committee chairperson, in order to promote the sustainable development of the Company. In 2023, a total of four Sustainable Development Committee meetings were convened, with progress on greenhouse gas inventory reported to the board quarterly.	No difference
II. In accordance with the materiality principle, has the company conducted risk assessments of environmental, social and corporate governance issues pertaining to company operations, and established a relevant risk management policy or strategy?		✓	The boundary of the present risk assessment information disclosure includes the Company and the subsidiary Jinyuan Construction Co., Ltd. Environmental impact and management: The Company monitors the trend of economic environmental changes at all times, identifies the long-term risks and opportunities and adjusts management strategies appropriately, in order to achieve the objective of sustainable operations and long-term operation performance. Accordingly, each risk management team collects relevant domestic and foreign information, evaluates the potential risk items of long-term operations and adopts the survey questionnaire method or senior manager meeting evaluation method, in order to determine the issues that may have the highest possible impact in the future, followed by discussion on methods for impact mitigation and response strategy, and reporting to the risk management promotion center for resolutions such that they can be used as important references for the establishment of future management strategies. Occupational safety: The Company organizes fire drill or industrial safety	No difference

			<p>education and training or health seminars annually, in order to improve employee abilities for emergency response, safety, and health management.</p> <p>Corporate governance: The Company has established the corporate governance organization and implements internal control mechanisms in order to ensure that all personnel and operations of the Company comply with relevant laws and regulations.</p> <p>Director function enhancement: The Company plans relevant continuing education topics for directors and applies liability insurance for directors, in order to protect them from lawsuits or claims.</p> <p>Stakeholder communication: The Company analyzes its key stakeholders and important issues of concern every year and establishes communication channels for stakeholders . For relevant information, please refer to the Company's ESG Report (sunfon.com.tw)</p>	
<p>III. Environmental issues</p> <p>(I) Has the company established an appropriate environmental management system in accordance with the nature of the industry it is in?</p>	✓		<p>(I) There are site directors at each construction site and our safety and health inspection personnel pays attention to site safety maintenance at all times. Greening, water and soil conservation, garbage pollution reduction, air pollution and noise reduction as well as energy conservation and carbon reduction have all been listed as key points for safety and health inspection at the construction site. All partners are also urged to comply with these rules. All construction site wastes are outsourced to professional and legitimate environmental protection companies for recycling and treatment completely, in order to prevent impacts on the environment. As the Company is not a manufacturing company, ISO 14001 is not applicable.</p>	No difference

(II) Is the company committed to enhancing the utilization of efficiency energy and using renewable materials with a lower impact on the environment?	✓		(II) The Company is engaged in real estate investment and the construction of residential and commercial buildings and has always valued the importance of environmental protection. In recent years, we have been working hard on researching and developing environmentally friendly products, including using Low-e glass, environmentally friendly paint, energy-saving lighting, airtight windows, water-saving toilet, open space greening, sky gardens and rainwater recovery.
(III) Has the company assessed the potential risks and opportunities for business operations now and in the future regarding climate change, and adopted climate-related countermeasures?	✓		(III) Given the fact that climate change is increasingly contributing to environmental problems around the world, the Company strives to reduce environmental pollution by green building design and tree planting to reduce carbon emissions. Office areas use energy-saving lighting fixtures completely, in order to reduce greenhouse gas emissions. The electricity consumption in 2023 increased by 121.76% from 2022, which was mainly due to the increase of the number of projects in 2023 such that the total electricity consumption increased. The Company's climate change risks and opportunities have been disclosed in the ESG Report. (sunfon.com.tw)
(IV) Has the company calculated the greenhouse gas (GHG) emissions, water consumption, and total weight of waste in the past two years, and formulated policies on energy conservation and carbon reduction, greenhouse gas reduction, water consumption, or other waste management?	✓		(IV) The Company promotes digitization to reduce the amount of paper used for documents as well as using the reverse side of waste paper. We continue to urge our employees to save water and electricity and to sort and reduce waste. The main sources of emissions of the Company for the most recent two years (information covering Scope 1 and Scope 2 of the Company and subsidiaries) refers to the externally purchased electricity accounting

health or labor human rights? What is the implementation status?			materials and construction processes. In addition to carefully selecting outstanding vendors, the Company also fulfills CSR. In the event a vendor is involved in a breach of CSR, the Company may terminate or cancel the contract at any time.	
V. Has the company referred to internationally accepted reporting standards or guidance when preparing sustainability reports to disclose non-financial information? Has the company obtained assurance or guarantee from a third-party verification institution?		✓	The Company established the “Corporate Sustainable Development Best Practice Principles” and the “Procedures for Preparation and Verification of Sustainability Reports” on November 8, 2022, and also prepared the 2023 ESG Report in 2024.	No difference
VI. If the Company has established its own sustainability development principles in accordance with “Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies” please describe its current practices and any discrepancies from the Best Practice Principles: The Company established the Corporate Social Responsibility Best Practice Principles on November 8, 2022, and has also established the Sustainable Development Committee in order to promote corporate social responsibility. Up to the present day, there has been no difference from the Best Practice Principles since the implementation.				
VII. Other important information to facilitate the understanding of the status of promotion of sustainable development: We provide high quality employment opportunities, and have set up an Employee Welfare Committee. We also place importance on harmonious labor-management relations by implementing a retirement fund system, taking out employee personal injury insurance, and arranging regular health examinations.				

(VI) Climate-related information for TWSE/TPEX-listed companies

1. Implementation of climate-related information:

Item	Execution status
(1) Describe the monitoring and governance of climate-related risks and opportunities by the Board of Directors and management.	<p>The Board of Directors is directly responsible for the supervision of climate-related risks and opportunities. For the sustainable development of the Company, the Company's Board of Directors has established a "Sustainability Committee" in addition to the existing "Audit Committee" and "Remuneration Committee". Each committee reports their activities and resolutions to the Board of Directors on a regular basis.</p> <p>The Board of Directors reviews, supervises, and guides the management of sustainability goals. For example, the Board of Directors decides the schedule and progress of corporate carbon inspections, and requires partners to implement social responsibility commitments in the contract. The Audit Committee convenes quarterly meetings for discussion, and regularly listens to the internal audit supervisor's reports on the design of the internal audit department for various risks, the effectiveness of the implementation of the internal control system, and the audit findings. The Remuneration Committee convenes a meeting every six months to evaluate and review the performance and remuneration of managers, and plan to link the remuneration system with the results of climate change management to achieve the Company's sustainability goals.</p> <p>The Sustainability Committee is responsible for the policies and actions of the Company's sustainability. Currently, the Committee is composed of the Chairman, President and other managers. The Committee is responsible for the implementation of corporate social responsibility, sustainable development, and energy conservation and carbon reduction-related issues, and is convened at least once a year.</p>
(2) Describe how the identified climate risks and opportunities affect the Company's business, strategy and finance (short-, medium-, and long-term).	<p>In terms of short-term physical risk, extreme climate change, such as frequent droughts and floods, will put the Company at risk, resulting in suspension of construction projects and damage to projects; in the medium term, the Company is exposed to changes in weather patterns (droughts) which may cause supply chain interruption. In the long term, higher average temperatures will lead to higher electricity consumption by operating facilities, increasing carbon emissions and operating costs.</p> <p>In terms of opportunities, the Company has invested in product design and innovation such as green buildings, smart buildings, and earthquake-resistant buildings. Although the increase in construction costs will affect the Company's overall profitability in the short term, the Company will strengthen the implementation of energy and water saving, and carbon reduction for related facilities to improve the efficiency of resource use, which will have an impact in the medium term. The Company is committed to meeting the expectations of stakeholders with respect to the environment and climate change, and can improve the Company's reputation and establish a good corporate image, which will have a long-term impact. See 5. Sustainable Environment of the Company's "2022 ESG Report" on P. 62-66</p>
(3) Describe the financial impact of extreme climate events and transformation actions.	<p>The Company's transformation actions will involve the product design of green buildings, smart buildings and earthquake-resistant buildings. Although the operating costs will increase, the sales amount will also increase, and revenue will grow. The sales rate of low-carbon products will also improve, which is in line with the trend of energy saving and</p>

	<p>carbon reduction. Our transformation actions can improve the corporate image, while at the same time improving the availability of funds and reducing the cost of capital.</p> <p>See 5. Sustainable Environment of the Company's "2022 ESG Report" on P. 62-66</p>
<p>(4) Describe how climate risk identification, assessment, and management processes are integrated into the overall risk management system.</p>	<p>We assess, categorize and prioritize the substantial risks to the Company's assets in response to climate change, and establish response strategies, precise and rigorous preventive measures and emergency response plans. In the event of a crisis or disaster, the most appropriate response measures and recovery measures are immediately proposed to reduce the possible impact of disaster damage and instability.</p> <p>Include climate risk in the overall risk management system, and ensure that the corresponding risk management measures receive appropriate attention. We also make an effort to make sure that policies, processes and guidelines related to climate risk are incorporated into the risk management framework. See 2.9.2 Types of Risks, Potential Operational Impacts and Adaptation Approaches of the Company's "2022 ESG Report" on P.29</p>
<p>(5) If a scenario analysis is used to assess the resilience to climate change risks, the scenarios, parameters, assumptions, analysis factors, and main financial impacts used shall be described.</p>	<p>Scenario analysis has not yet been used to evaluate the resilience of climate change risks. In the future, climate data will be collected, such as temperature, rainfall, wind speed, and other factors to evaluate the possible risks buildings may face. At the same time, we will assess the disaster resilience and adaptability of existing buildings, including their structures, equipment and systems. We will ensure that potential risks and vulnerabilities have been identified, and propose corresponding improvement measures and analyze their major financial impacts. See 5. Sustainable Environment of the "2022 ESG Report" on P. 62-66</p>
<p>(6) If there is a transformation plan in place to manage climate-related risks, specify the content of the plan, and the indicators and targets used to identify and manage physical risks and transformation risks.</p>	<p>No transformation plan for managing climate-related risks has been established so far. However, a few customers have requested that the products of green buildings and smart buildings can integrate renewable energy (such as solar and wind energy) and energy-saving technologies in the future to reduce energy consumption and improve the efficiency of buildings. We are committed to reducing reliance on natural resources and environmental impact by adopting sustainable building designs and materials. See 5. Sustainable Environment of the Company's "2022 ESG Report" on P. 62-66</p>
<p>(7) If internal carbon pricing is used as a planning tool, the basis for setting the pricing shall be stated.</p>	<p>No internal carbon pricing is used as a planning tool to date.</p>
<p>(8) If climate-related goals have been set, specify the activities covered, the scope of GHG emissions, the planned schedule, and the progress made in each year. If carbon credits or renewable energy certificates (RECs) are used to achieve the relevant targets, the</p>	<p>Currently, there is no plan to set the target of climate-related carbon offsets or renewable energy certificates (RECs). However, we will aim to achieve the goal of energy management and conservation according to the regulations of the Bureau of Energy, Ministry of Economic Affairs, "annual reduction of fuel/electricity consumption by 1%."</p>

<p>source and quantity of carbon credits to be offset or the quantity of renewable energy certificates (RECs) shall be specified.</p>	
<p>(9) Greenhouse gas inventory and assurance status, as well as reduction goals, strategies, and concrete action plans</p>	<p>According to the Roadmap for the Sustainable Development of Listed Companies, the Company is in the third stage: Inventory will be completed in 2026 and verified in 2028. Only GHG inventory information of the Company in 2022 and 2023 (please refer to Table 1-1-1) is disclosed, and the information has not been assured.</p>

1-1 GHG inventory and assurance for the most recent two years.

1-1-1 GHG Inventory Information

Describe the GHG emission volume (metric tons CO ₂ e), intensity (metric tons CO ₂ e/NTD million), and data coverage for the most recent two years.			
Unit: Tons CO ₂ e			
By company	Item	2022	2023
The Company	Scope 1	4.72	5.20
	Scope 2	25.67	27.68
	Subtotal	30.39	32.88
Subsidiary	Scope 1	1.12	1.40
	Scope 2	44.58	128.12
	Subtotal	45.70	129.52
Total		76.09	162.40
Intensity (Turnover in millions)		10.97	0.34
Data Coverage		100%	100%

1-1-2 Greenhouse Gas Assurance Information

A description of the assurance status for the most recent two years as of the publication date of the annual report, including the scope of assurance, institutions of assurance, criteria of assurance, and opinions of assurance.
According to the Roadmap for the Sustainable Development of Listed Companies, the Company is in the third stage: Inventory will be completed in 2026 and verified in 2028. Therefore, as of the date of publication of the annual report, there is no information on assurance.

1-2 Greenhouse gas reduction goals, strategies and concrete action plans

Describe the GHG reduction base year and its data, reduction targets, strategies, and concrete action plans, and achievement of the reduction targets.
According to the Roadmap for the Sustainable Development of Listed Companies, the Company is in the third stage: Inventory will be completed in 2026 and verified in 2028. Therefore, there is no information on GHG reduction goals, strategies or concrete action plans.

(VII) The state of the performance in the area of ethical corporate management, any variation from the Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies, and the reason for such variation:

Evaluation item	Implementation status			Variation from the Ethical Corporate Management Best Practice Principles for TWSE/TPEX Listed Companies, and the reason for such variation
	Yes	No	Summary	
I. Formulation of ethical management policies and action plans				
(I) Has the company established an ethical management policy that has been passed by its Board of Directors, and clearly specified in its rules and external documents the ethical corporate management policies and the commitment by the Board of Directors and senior management on rigorous and thorough implementation of such policies and methods?	✓		(I) The Company formulated the “Procedures for Ethical Management and Guidelines for Conduct” on March 10, 2020. The board of directors and senior management proactively implement the Guidelines during internal management and external business activities, and also uphold the principle of ethics, in order to establish an environment of sustainable operation.	No difference
(II) Has the company established a risk assessment mechanism against unethical behavior, analyzed and assessed business activities within its business scope on a regular basis which have a higher risk of unethical behavior, and established prevention programs that at least cover the preventive measures specified in Article 7, Paragraph 2 of the “Ethical Corporate Management Best-Practice Principles for TWSE/TPEX Listed Companies”?	✓		(II) The “Procedures for Ethical Management and Guidelines for Conduct” established by the Company explicitly specify that any unethical conducts of bribery action and receipt of bribe, provision or acceptance of illegal benefits, provision or promise of facilitation payment, provision of illegal political contribution, improper charity donation or sponsorship, any unfair competition action, disclosure of trade secret and damage of rights and interests of stakeholders are prohibited. In addition, preventive measures and educational promotion are also implemented to comply with the ethical management policy. As a means to building a sustainable	No difference

Evaluation item	Implementation status		Variation from the Ethical Corporate Management Best Practice Principles for TWSE/TPEX Listed Companies, and the reason for such variation	
	Yes	No		Summary
(III) Has the company specified operational procedures, behavioral guidelines, disciplining of violations, and an appeal system in the program against unethical conduct, and implemented such programs, and reviewed and revised the aforementioned programs on a regular basis?	✓		(III) The Company formulated the “Procedures for Ethical Management and Guidelines for Conduct” on March 10, 2020. Also, the Company has set up a section dedicated to stakeholders on its website. The Company has smooth communication channels with stakeholders and implements ethical management to avoid fraudulent conduct.	No difference
II. Implementation of ethical management				
(I) Has the company evaluated the integrity of all counterparties with whom it has business dealings? Are there any integrity terms in the agreements it enters into with business partners?	✓		(I) In addition to carefully selecting outstanding vendors the Company strives for fair and transparent conduct, while also complying with the ethical management policy. If a vendor is involved in unethical conduct, the Company may terminate or cancel the contract at any time.	No difference
(II) Has the company set up a dedicated responsible unit to promote corporate ethical management under the Board of Directors, and has such unit reported its implementation of ethical management policy and preventive action plans against unethical conduct and the supervision status to the Board of Directors on a regular basis (at least once a year)?	✓		(II) The Company has stipulated the “Procedures for Ethical Management and Guidelines for Conduct” on March 10, 2020, and has designated the Audit Office as the responsible unit. In addition, the stakeholders section has been set up on the Company’s website. In 2023, the number of valid cases of external reports and	No difference

(X) The company’s internal control system

1. Declaration of Internal Control

Sunfon Construction Co., Ltd.
Declaration of Internal Control System

Date: March 5, 2024

Based on the findings of a self-assessment, the Company states the following with regard to its internal control system during the year 2023:

- I. The Company understands it is the responsibility of the Company’s Board of Directors and management to establish, enforce, and maintain an internal control system. Its purpose is to provide reasonable assurance on the achievement of operating effectiveness and efficiency (including profits, performance, and assets safeguarding), reporting matters with reliability, timeliness, and transparency, and compliance with relevant laws and regulations.
- II. Internal control systems are prone to limitations. No matter how robustly designed, an effective internal control system merely provides reasonable assurance of the achievements of the three goals above. Furthermore, environmental and situational changes may affect the effectiveness of the internal control system. Nevertheless, the internal control system of the Company contains self-monitoring mechanisms, and corrective action is taken whenever a deficiency is identified.
- III. The Company determines the effectiveness of the design and implementation of the internal control system on the basis of the criteria for the effectiveness of internal control systems stipulated in the “Regulations Governing the Establishment of Internal Control System by Public Companies” (hereinafter referred to as the “Regulations”). The criteria introduced by the “Regulations” consist of five major elements, each representing a different stage of internal control: 1. Control environment, 2. Risk evaluation and response, 3. Procedural control, 4. Information and communication, and 5. Supervision. Each element further contains several items. Please refer to the “Regulations” for the details of the said items.
- IV. The Company has adopted the above criteria of internal control systems to assess the effectiveness of the design and implementation of the internal control system.
- V. Based on the findings of the evaluation, the Company believes that, as of December 31, 2023, its internal control system (including the supervision and management of subsidiaries), including the monitoring of the achievement of its objectives concerning operational effectiveness and efficiency, the reliability, and timeliness and transparency of the reporting and compliance with applicable laws and regulations, is effective in design and implementation, and can reasonably assure the achievement of the above-mentioned objectives.
- VI. This Declaration of Internal Control is the content of our annual report and prospectus for the information of the public. For any forgery and concealment of the aforementioned information to the public, we will be held responsible by law in accordance with Article 20, Article 32, Article 171 and Article 174 of the Securities and Exchange Act.
- VII. The Declaration has been passed by the Board meeting held on March 5, 2024, with all nine attending directors affirming and zero directors opposing the content of the Declaration.

Sunfon Construction Co., Ltd.
Chairperson: Hung, Ping-Yao Signature

President: Lan, Li-Hua Signature

2. If a CPA has been entrusted to audit the internal control system, the CPA’s audit report shall be disclosed: None.

(V) Share prices, net worth per share, earnings per share, dividends per share, and related information for the two most recent fiscal years

Item		Year		
		2023	2022	
Price per share (Note 1)	Highest	20.95	21.55	
	Lowest	17.20	15.00	
	Average	19.50	19.14	
Net value per share (Note 2)	Before distribution	13.89	13.12	
	After distribution (Note 8)	13.89	13.12	
Earnings per share	Weighted average number of shares	216,225,530	216,225,530	
	Earnings per share before adjustment	0.14	-0.07	
	Earnings per share after adjustment (Note 3)	0.13	-0.07	
Dividend per share	Cash dividends	0.0	0.0	
	Bonus shares	Stock dividend from retained earnings	0.5	0.0
		Stock from capital surplus	0.0	0.0
	Accumulated unpaid dividends (Note 4)	0	0	
Analysis of return on investment	Price/earnings ratio (Note 5) (Note 8)	139	273	
	Price/dividend ratio (Note 6) (Note 8)	-	-	
	Cash dividend yield (Note 7) (Note 8)	-	-	

* If there is a surplus or capital reserve transferred to increase capital for distributing shares, the market price and cash dividend information adjusted retrospectively based on the number of shares to be issued shall be disclosed.

Note 1: The highest and lowest market prices of common stocks for each year are listed, and are calculated on the basis of the annual transaction value and volume.

Note 2: Please fill in the number of shares issued at the end of the year and the distribution according to the resolutions of the Board of Directors' meeting of the next annual general meeting.

Note 3: If there is a retroactive adjustment from distribution of bonus shares, the pre-adjustment and adjusted surplus per share shall be listed.

Note 4: Dividends that have not been issued in the current year are accrued to the issuer of the annual surplus; the accumulated undistributed dividends of the current year should be disclosed separately.

Note 5: Price/earnings ratio = Average closing price for the year / earnings per share.

Note 6: Price/dividend ratio = Average closing price for the year / cash dividends per share.

Note 7: Cash dividend yield = Cash dividends per share / average closing price for the year.

Note 8: The proposal for 2023 earnings distribution has not yet been approved by the shareholders' meeting; therefore, the value after the distribution is listed according to the resolution of the Board of Directors' meeting.

(VI) Company's dividend policy and implementation:

1. The Company's dividend policy:

The Company shall first make up for accumulated losses using its profit for the year, then set aside 10% as the legal reserve and allocate or reverse the special reserve as required by law. After adding the previous year's accumulated undistributed earnings to the remaining balance, 30% or more shall be allocated as shareholder dividends. However, the above rates for earnings distribution and cash dividends to shareholders are adjusted by resolution of the shareholders' meeting depending on the actual profit of the year and the Company's state of capital.

The cash dividends may not be less than 10% of the total dividends; however, if the cash dividends are less than NT\$0.1 per share or there is a plan for significant capital expenditure for the year, dividends may be distributed in the form of shares.

If the profit for the year is less than NT\$0.5 per share, dividends for shareholders pursuant to the preceding paragraph may be retained.

If there is a reduction in accumulated shareholders' equity from the previous year or incurred in the current year but there is not sufficient net income to provide for the reduction, a special reserve of the same amount should be set aside from the accumulated undistributed earnings of the previous year and deducted prior to the provision for distribution.

The motion for the above distribution of earnings is prepared by the Board of Directors and submitted to the shareholders' meeting for resolution.

2. Dividend distribution proposed at this shareholders' meeting:

On March 5, 2024日, the Board of Directors resolved to pass the Company's net loss after tax of NT\$28,934,869 for 2023. As stipulated in Article 25 of the Company's Articles of Incorporation, NT10,548,203 shall be set aside as legal reserve, NT\$108,112,770 as stock dividends (NT\$0.5 per share, i.e. 50 shares per thousand shares).

3. Significant changes in the Company's dividend policy are not expected.

(VII) Effect upon business performance and earnings per share of any stock dividend distribution proposed or adopted at the most recent shareholders' meeting:

Item	Year	2024 (distribution of 2023 earnings)
Opening paid-in capital		2,162,255,300
Distribution of dividends for the year	Cash dividends per share	0
	Distribution of surplus transferred to capital increase per share	0.5
	Distribution of capital reserve transferred to capital increase per share	0
Changes in operating results	Operating income	No disclosed financial forecasts
	Operating income increased (decreased) from the same period last year, %	
	Net income after tax	
	Net income after tax increased (decreased) from the same period last year, %	
	Earnings per share	
	Earnings per share after tax increased (decreased) from the same period last year, %	
	Annual average return on investment (reciprocal annual average P/E ratio)	
Pro forma earnings per share and price/earnings ratio	Capitalization of earnings changed to distribution of cash dividend in full	Pro forma earnings per share
		Pro forma annual average return on investment
	If capital surplus is not transferred to capital	Pro forma earnings per share
		Pro forma annual average return on investment
	If capital surplus is not recognized and earnings transferred to capital were distributed as cash dividends	Pro forma earnings per share
		Pro forma annual average return on investment

Chairperson:
Hung, Ping-Yao

Managerial officer:
Lan, Li-Hua

Chief Accounting Officer:
Shih, Shu-Ying

(VIII) Remuneration to employees, directors and supervisors:

1. The percentages or ranges with respect to employee, director, and supervisor remuneration, as set forth in the company's articles of incorporation:

As stipulated in Article 25 in the Company's Articles of Incorporation, if the Company has a profit for the year, the remuneration allocated to employees shall be based on the net income before tax and shall not be less than 1% and remuneration allocated to directors and supervisors shall not exceed 1%. Employee remuneration is distributed to employees of subordinate companies meeting certain specific requirements. Distribution of remuneration to employees and directors/supervisors shall be reported to the shareholders' meeting. However, if the Company still has accumulated losses, the Company should first make up for losses before allocating remuneration to employees and directors/supervisors in the proportion described above.

2. The basis for estimating the amount of employee, director, and supervisor remuneration, for calculating the number of shares to be distributed as employee remuneration, and the accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated figure, for the current period:

The basis for estimating the amount of employee, director, and supervisor remuneration takes profit before tax into account and the estimated amount is allocated to operating expenses and operating costs. If there is a subsequent significant change resolved by the Board of Directors, the change will be adjusted to expenses for the year.

3. Information on any approval by the Board of Directors of distribution of remuneration:
 - (1) The distribution of remuneration to employees of NT\$519,006 in cash and NT\$519,006 to directors. There was no difference in remuneration in the financial reports for 2023.
 - (2) The distribution of employee bonus in shares was NT\$0, accounting for 0% of the total profit after tax and total remuneration to employees in the parent only financial reports for the period.
4. In the previous year (2022), the distribution of remuneration to employees totaled NT\$0 and NT\$0 to directors/supervisors. There was no difference in remuneration recognized in the financial reports for 2022.

(IX) Status of the company repurchasing its own shares: None.

II. Corporate bonds, preferred shares, global depositary receipts, employee stock warrants, new restricted employee shares, and any merger and acquisition activities (including mergers, acquisitions, and demergers)

- (I) Corporate bonds: None.
- (II) Preferred shares: None.
- (III) Global depositary receipts: None.
- (IV) Employee stock warrants: None.
- (V) New restricted employee shares: None.
- (VI) New shares issued upon merger or acquisition or acquisition of another company's shares: None.

III. Implementation of the company's capital allocation plans

- (I) Description of the plans: For the period as of the quarter preceding the date of publication of the annual report, with respect to each uncompleted public issue or private placement of securities, and to such issues and placements that were completed in the most recent three years but have not yet fully yielded the planned benefits: None.
- (II) Status of implementation: Not applicable.

Five. Business Operations

I. Description of business

(I) Scope of business

1. The Company's major lines of business

(1) Contracted construction company to build public housing and commercial buildings for lease and sale.

(2) Introduction of domestic and foreign housing rentals and sales.

2. Relative weight of each business

The Company primarily contracts construction companies to build public housing and commercial buildings for lease and sale, supplemented by the development of related businesses.

(II) Current products, and new products planned for development

1. The Company's current products

(1) Premium residential buildings.

(2) Financial and commercial buildings.

2. New products planned for development:

In the future, we will continue to launch storefronts and collective housing in primary locations in Taipei City and urban areas in New Taipei City based on existing urban renewal and market bases.

(III) Industry overview:

1. Current status and development of the industry

In 2023, global economic activities slowed down due to factors such as rising interest rates, inflation, the government's intensification of housing sales, and China's post-pandemic economy not performing as expected. In addition to the ongoing Russo-Ukrainian War and cross-strait geopolitical factors, not only was Taiwan's export to China is affected, the operating results of various industries are also impacted.

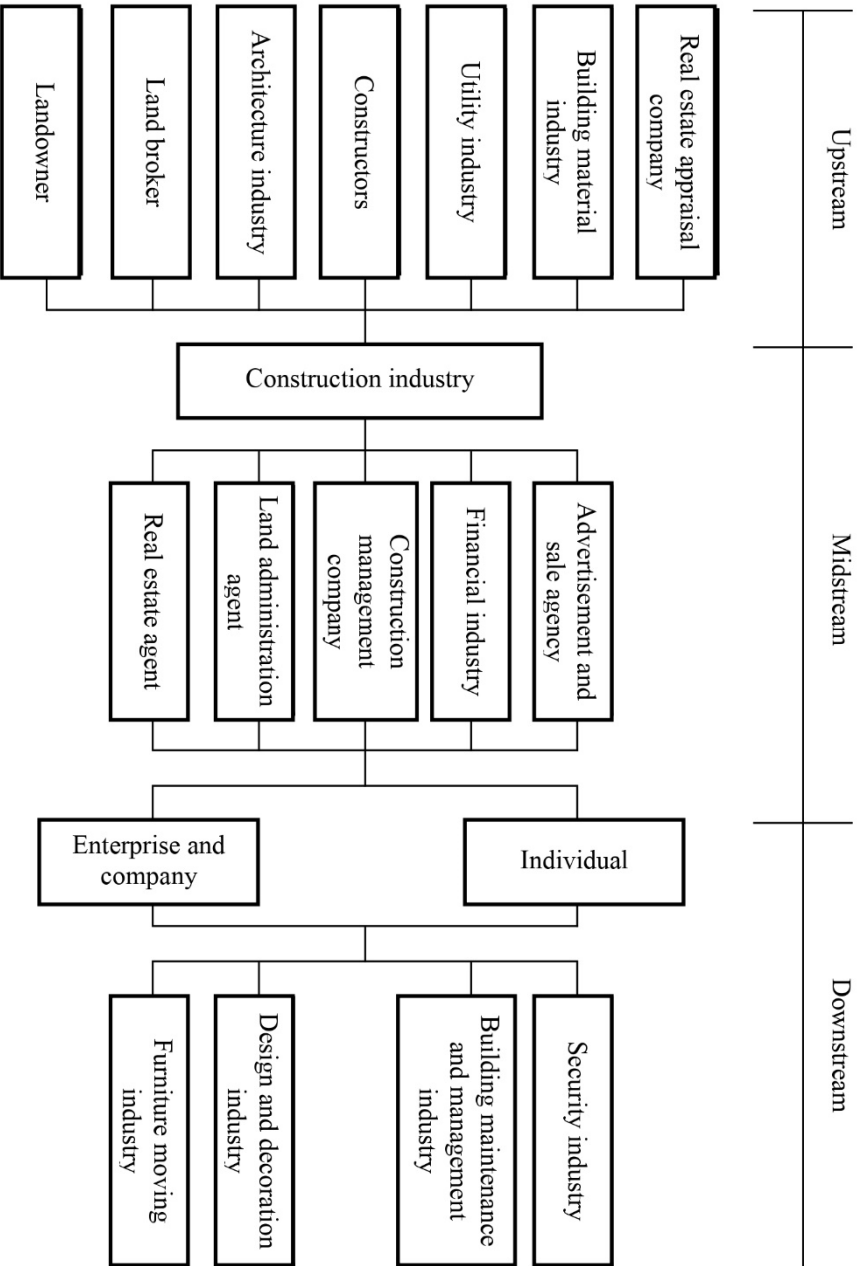

However, raw material prices are one of the economic indicators that enterprises care about the most. As the international raw material price cycle has been affected by factors such as the pandemic and the Russo-Ukrainian war in recent years, it is difficult for manufacturers to determine the future trend. Therefore, raw material prices have become one of the uncertainties affecting Taiwan's economy in 2024.

Although the real estate market will face severe challenges, we are not pessimistic about the future. The government's youth transaction program will help boost buying interest in the real estate market and provide good support

for the real estate market. The housing market is expected to look up in the future.

2. Links between the upstream, midstream, and downstream segments of the industry supply chain

The process of property investment and development as well as construction and marketing is related to a variety of industries, including construction, building materials, water and electricity and plumbing, advertising, finance, land administration, decoration and building management and maintenance. The construction sector plays a role of coordination and integration that co-exists with its upstream and downstream partners.

3. Product development trends

As real estate transaction laws and regulations are becoming more comprehensive, making it more difficult to acquire land, the housing construction sector often buys out land or develops projects by jointly building houses with landowners. In the future, land development can be planned in diverse directions, such as establishment of superficies, land trusts, joint development, participating in urban renewal schemes and public housing incentives as well as tendering to acquire the required reserve land released by state-owned land policies. Meanwhile, with the increasing emphasis on living quality, upon purchasing a house, buyers take into account the planning of the house and the utilization of space. Moreover, given that the quality of construction is the key to building a positive reputation, the customer's satisfaction has become an important indicator to measure company competitiveness. As a result, refined and practical housing will be the future development trend and competitive advantage of housing products.

4. Competition

We specialize in the Greater Taipei area and adhere to outstanding location and refined modeling characteristics. Although the real estate market has taken a downturn for more than a decade, we have managed to maintain profits. It is our belief that only a professional management team with a sound financial framework that is able to acquire superior land lots can survive the harsh real estate market in Taiwan.

(IV) Technology and research and development overview

1. Strengthening the overall capabilities of the organization and improving the quality of manpower.
2. Researching new work methods to improve construction quality and efficiency.
3. Serving customers in a passionate manner and understand their needs to satisfy their living quality.
4. Research and development work to be carried out in the future, and further expenditures expected for research and development work: As we primarily provide land development, construction services, and housing sales, R&D investment is not applicable.

- (V) The company's long- and short-term business development plans
 The Company's future short-term, medium-term and long-term business development plans in the aspects of customers, products and markets:

Business development	Short-term plans	Medium-term and long-term plans
Customer aspect	* Provide customers with comprehensive information, technology and value-added after-sales services.	* Strive for reducing production costs and assist midstream and downstream vendors to increase competitiveness, achieving the goal of profit sharing.
Product aspect	* Continue with the objective of increasing product quality * Effectively master the progress of construction projects	* Innovate work methods to improve construction technology standards * Enhance housing planning and design to meet the needs of home buyers
Market aspect	* Continue to develop in Greater Taipei and grasp the market trends of different areas to expand market share * Strengthen full-set services to meet the needs of home buyers	* Develop old communities to enhance living functions * To improve competitiveness and sound corporate image, construct a close after-sales service management mechanism based on the concept of mutual trust and mutual benefit with customers

II. Market and production/sales overview

(I) Market analysis

1. Sales area of primary products

Year	Project name	Use	Sales area
2010	Ding Ji	Residential and commercial building	Intersection of Minsheng West Road and Chongqing North Road, Taipei City
2012	Jiu Ding	Residential and commercial building	Intersection of Section 2, Yanping North Road and Gangu Street, Taipei City
2014	Guo Yan	Residential and commercial building	Guangfu South Road, Taipei City
2017	The Twin Cities	Residential building	Jingping Road, Zhonghe District, New Taipei City
	Wen Ding Hui	Residential and commercial building	Intersection of Nanjing West Road and Yanping North Road, Taipei City
	Feng Hua Hui	Residential and commercial building	Section 2, Chongqing North Road, Taipei City
	Di Yi Hui	Residential and commercial building	Section 3, Chongqing North Road, Taipei City
2019	City Meeting Point	Residential and commercial building	No. 107, Chang'an West Road, Taipei City
2020	Baosheng Emperor Memorial Hall	Office building	No. 138, Section 3, Chongqing North Road, Taipei City
2021	Yun Ji	Residential and commercial building	No. 253, Minsheng West Road, Taipei City
2022-2023	Yun Di	Residential and commercial building	Intersection of Guisui Street and Minle Street Taipei City
	Sun Fon AIT	Residential building	Lane 175, Section 1, Kangning Road, Taipei City
2024	Yun Cheng	Residential and commercial building	No. 128, Section 3, Chengde Road, Taipei City
	Section 2, Huanshan Road Project	Residential and commercial building	No. 81, Section 2, Huanshan Road, Taipei City

2. Market share

According to data from Wei Xin Weekly (2023.01.01–2023.12.31), the total project value launched in Greater Taipei in 2023 was NT\$213.25 billion (including pre-sales and finished homes). Based on the data, the Company's market share for 2023 is estimated at 1.03%.

3. Future market supply and demand conditions and growth potential

① Supply:

The number of issued building permits is a leading indicator of housing construction activities. Changes in the indicator are enough to reflect the future development trend of Taiwan's construction industry and housing supply conditions.

According to the number of building construction licenses (see the table below) issued by the Building and Construction Department, the area of construction licenses issued in 2023 decreased significantly, by 18.29%. This shows that many developers have suspended construction due to rising construction costs and pressure from the government's tightening of civil engineering and construction, and the pressure of limited development. It is expected that the rate of increase in the number of user licenses (i.e. to be issued upon completion of the building) will slow down.

Statistics on Building Permits Issued in Taiwan in Past Years

Unit: piece, thousand square meters

Time	Total		Residential building		Increase/dec rease Floor area	Growth rate %
	No. of projects	Total floor area	No. of houses	Total floor area		
Past 12 years						
2012	31,237	32,883	94,354	18,334	-1,265	-3.70
2013	33,531	39,760	129,307	24,516	6,877	20.91
2014	31,994	38,635	121,378	21,488	-1,125	-2.83
2015	27,643	32,596	103,755	17,395	-6,039	-15.63
2016	22,511	26,235	78,392	12,946	-6,361	-19.51
2017	25,035	29,884	91,253	15,056	3,649	13.91
2018	27,344	33,984	120,880	18,448	4,100	13.72
2019	27,143	36,928	147,798	21,737	2,944	8.66
2020	25,980	41,521	159,286	22,992	4,593	12.44
2021	26,089	43,425	165,651	24,647	1,904	4.59
2022	23,257	45,827	179,958	24,983	2,402	5.53
2023	18,542	37,443	145,553	19,341	-8,384	-18.29

Source: Statistics from the Construction and Planning Agency, M.O.I.

② Demand:

According to the 2023 statistics of the Ministry of the Interior, the balance of mortgage loans at the 4th quarter of 2023 was NT\$10,003.7686 billion, up by 2.84% from the previous quarter and up by 7.04% from the same quarter of last year. This suggests that domestic monetary conditions will remain extremely accommodative in the short term. Moreover, the low-cost funding environment helps maintain demand in terms of real estate investment, while providing support for house prices. However, due to the factors of the COVID-19 pandemic, and an increase in construction costs and shortage of labor, the global economy has been affected and the overall future economic and capital environment uncertainty has increased.

Typically, house buying demand can be categorized into owner-occupied and investment. The demand for self-owned housing is due to population increase, change of house or new home purchase, affected by the total population and the total number of households. Investment in house purchases can be categorized into: 1. Regarding property as an investment tool and buying houses as mid-long term investment targets to enjoy rent or increase income; 2. Holding property for a short time during a real estate boom for speculative demand, which is affected by national income and market interest rates.

Number of households and population in Taiwan in the past five years

Year	No. of houses	Population
2019	8,832,745	23,603,121
2020	8,933,814	23,561,236
2021	9,006,580	23,375,314
2022	9,089,450	23,264,640
2023	9,240,823	23,420,442

Source: Statistics from the Department of Household Registration, M.O.I.; 2023/12/31

4. Competitive niche

We specialize in urban renewal cooperative development projects within older communities in Taipei city and share our development achievements with landowners. The advantages of this are: (1) No land costs, reducing financial

burden. (2) Pressure is reduced on sales, reducing the accumulation of unsold houses. (3) Profit is greater than the cost of purchasing the land.

The Company utilizes an urban renewal scheme and adopts the strategy of the reconstruction of old communities to create a unique style for itself in the highly competitive real estate market of Taipei. As a result of our ambition, we do not back down in the face of a recession, and create more profit when the market is thriving.

5. Positive and negative factors for future development, and countermeasures

Affected by	Positive factors	Negative factors
Economic aspect	The U.S. economy recovers with an increase in the employment rate, and the U.S. Fed adopts the shrinking balance and active increase of interest rates for the purpose of suppressing inflation in the market and maintaining the stability of the financial environment.	<ol style="list-style-type: none"> 1. As the threat of virus variance increases, the risk of global economic and trading uncertainty also increases. 2. The war between Russia and Ukraine affects global economic growth.
Political aspects	A close relationship between Taiwan and China will create a positive impact on mid-long term economic development.	<ol style="list-style-type: none"> 1. Domestic political instability hurts the stability of political economy. 2. The tension between Taiwan and China will harm economic growth. 3. The war between Russia and Ukraine has caused further increase of raw material prices.
Market aspect	<ol style="list-style-type: none"> 1. Promote suitable housing to drive economic growth. 2. Relax the restriction for Chinese investors to buy property in Taiwan to stimulate the housing market. 3. Taoyuan Aerotropolis project will help drive the housing market. 4. The MRT “three rings and three lines” plan will drive the recovery of real estate around New Taipei City. 5. Eight major renewal projects attract business, driving economic momentum. 6. The U.S.–China trade war has prompted Taiwanese businessmen to return to Taiwan to buy land, driving industrial land demand. 	<ol style="list-style-type: none"> 1. Increase interest loans on the wealthy to curb housing prices. 2. The central bank requests banks to strengthen the risk control for mortgage loans to avoid speculators and curb housing prices. 3. Build suitable housing to expand supply and curb housing prices. 4. The government intends to promote urban renewal and self-built public housing to expand supply and curb housing prices. 5. The Executive Yuan passed the Joint Property Tax System 2.0 to avoid speculation of pre-sale houses, resulting in slow sales. 6. Construction cost remains high and shortage of labor continues, leading to an increase in construction costs.
Capital aspect	<ol style="list-style-type: none"> 1. The current financial policy remains relaxed and housing prices can be maintained. 2. The return of Taiwanese businessmen investing in real estate. 	All banks have strengthened their mortgage risk control, leaving people less willing to buy a house.

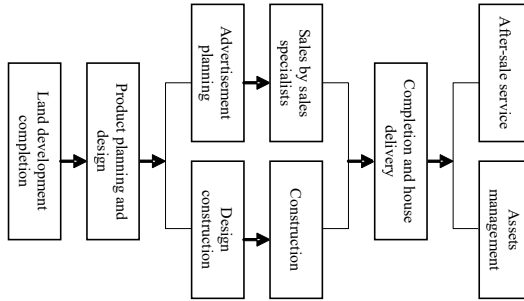

Policy aspect	<ol style="list-style-type: none"> 1. The government expects to invest NT\$18.46 billion in the next four years for the promotion of the Urban Renewal Industry Action Plan. 2. The Taipei City government's promotion of ten new major construction projects helps revitalize the general economy. 3. The acceleration of old house renewal facilitates integration for construction companies. 4. The government's Youth Families 2.0 program favorably drives first-time buyers. 	<ol style="list-style-type: none"> 1. Increase in housing tax and land premium tax makes people less willing to buy a house. 2. Real price registration, to avoid speculation. 3. Implementation of residential justice prevents speculation. 4. Capacity transfer reform results in cost increases for construction companies 5. Government's policy on suppression of real estate market and high house prices continues, and the mortgage and credit are rigorously controlled, leading to a decrease in the general public's interest in house purchases.
---------------	---	--

Countermeasures

- A. The market supply status in the area must be carefully evaluated prior to launching a project in order to plan the design and sales strategy for the project.
- B. Avoid areas with heavy project load, or be the first to launch projects in heavy project load areas.
- C. Research projects with special features to differentiate the market.
- D. Fully grasp opportunities and preferential measures of the government.
- E. Strictly control construction quality and safety with respect to incoming materials and construction process to strengthen the quality of outsourced construction work.
- F. Reduce land costs and acquire better land in prime locations for construction based on profit-sharing joint construction plans.
- G. Older community reconstruction, urban renewal schemes, agricultural land release policy and the acquisition of lower cost land.

(II) Important usage and manufacturing processes for the company's main products

1. Important usage for the Company's main products
 - A. Residential buildings: High-end residential buildings and apartments.
 - B. Commercial buildings: Commercial complexes and office buildings.
 - C. Residential and commercial buildings: residential and shops.
2. Manufacturing processes

(III) Supply situation for the company's major raw materials

Our main raw materials are categorized into land and construction projects and our supply sources are stable.

1. Land:
 - (1) Selection of area: We center on Taipei City, followed by the Greater Taipei Metropolis and surrounding cities.
 - (2) Planned products: We primarily focus on collective residential and commercial buildings and office buildings.
 - (3) Acquisition method: Self-built on own land, joint construction and allocation of housing units, and joint-investment construction.
 - (4) Location choice:
 - A. Superior locations where the access road is connected to the outer road for easy access.
 - B. New redevelopment zones.
 - C. Locations with convenient transportation.
 - D. Areas with good living functions.
 - E. Areas with scenic views.
2. Construction: As a means to provide consumers with a full set of services, we have implemented a unified policy, which allows our invested company, Jinyuan Construction Co., Ltd., to grasp and control the entire construction project progress to ensure quality.

(IV) A list of any suppliers and clients accounting for 10% or more of the company's total procurement amount in either of the two most recent fiscal years

Note: The production volume refers to the number of households completed in the year, while the production value is calculated based on the house costs invested in the year.

(VI) Sales volume for the two most recent fiscal years

Unit: NT\$ thousand

Main products	Year	2022				2023			
		Domestic sales		Export		Domestic sales		Export	
		Volume (in households)	Value	Volume (in households)	Value	Volume (in households)	Value	Volume (in households)	Value
City Meeting Point	-	-	-	-	20	471,202	-	-	
He Ti	-	571	-	-	-	-	-	-	
Zhulin Section	-	-	-	-	-	894	-	-	
Rental income	-	6,365	-	-	-	6,381	-	-	
Total	-	6,936	-	-	-	478,477	-	-	

Note: The sales volume refers to the number of households delivered in the year, while sales value refers to the actual amount recorded for the year.

III. Information on employees

The number of employees for the two most recent fiscal years, and during the current fiscal year up to the date of publication of the annual report

March 31, 2024

Year		2022	2023	Current year as of March 31, 2024
No. of employees	Employee	34	39	38
	Technician	0	0	0
	Other	0	0	0
	Total	34	39	38
Average age		51.2	49.9	49.9
Average years of service		12.8	10.8	10.5
Educational background distribution percentage	Master's degree	11.8%	7.7%	5.3%
	College	79.4%	76.9%	78.9%
	Senior high school	8.8%	15.4%	15.8%

IV. Disbursements for environmental protection

- (I) Any losses suffered by the company in the most recent fiscal year and up to the annual report publication date due to environmental pollution incidents (including any compensation paid) and the total amount of disposal:

None.

- (II) Possible expenses that could be incurred currently and in the future and measures being or to be taken:

We have not suffered any losses due to environmental pollution as our line of business does not have environmental pollution issues; there are no expected significant environmental protection capital expenses in the future.

- (III) RoHS-related information: We are not subject to Restriction of Certain Hazardous Substances anchored in the EU Directive.

V. Labor relations

- (I) List any employee benefit plans, continuing education, training, retirement systems, and the status of their implementation, and the status of labor-management agreements and measures for preserving employee rights and interests.

1. Employee benefit plans:

- (1) When our employees join the Company, they are enrolled in labor insurance, and, as required by the government, employees and their dependents are enrolled in national health insurance and employee personal injury insurance.
- (2) Benefits provided:
Wedding gifts for employees, funeral subsidies, disability allowances, maternity allowances, funeral subsidies for employees' parents or children, and wedding gifts for employees' children.
- (3) Uniform: Suits are occasionally tailored for employees.
- (4) Year-end bonuses are provided each year during the spring festival (depending on the Company's operating conditions and the employee's performance)
- (5) Remuneration to employees: Remuneration is allocated and distributed in accordance with the Company's Articles of Incorporation.

2. Continuing education and training for employees:

Name	Date	Organizer	Course name	Time
Huang, Kuo-Chin Hung, I-Ching Shih, Shu-Ying Liu, Hun-Ting Pan, Ping-Hung	9/19 10/17	Competitive Corporate Management Consulting, Ltd.	Difference Between the Old and the New Version of the ESG Report and the Development Trend of ESG	6 hours
Liu, Hun-Ting	7/26	Securities and Futures Institute	Corporate Governance Practices and Case Studies	6 hours

Wang, Chin-Ching Lin, Chia-Yen Tu, Sheng-Hsun Wang, Chin-Hsiu Tseng, Hsien-Ya Chen, Ssu-Ting	6/28		Recent Transactions and Tax Regulations From the Perspective of Construction	3 hours

Name	Date	Organizer	Course name	Time
Vice President Huang Wang, Chin- Ching Lin, Chia-Yen Tu, Sheng- Hsun Wang, Chin- Hsiu Chen, Ssu- Ting	9/12 9/13	Department of Construction, Urban Development Bureau, Taipei City Government	2023 Urban and Construction Law for Taipei City Seminar	14 hours
Shih, Shu- Ying Chuang, Hui- Ling	12/12	OTC	Seminar for promotion of adoption of International Financial Reporting Standards (IFRS) in our nation	3 hours
Wang, Chin- Ching Lin, Chia-Yen Tu, Sheng- Hsun Wang, Chin- Hsiu Chen, Ssu- Ting	12/13	The Real Estate Development Association of Taipei	The Amendments to The Statute for Expediting Reconstruction of Urban Unsafe and Old Buildings and the Interpretation of the Letter of the Recent Regulations Concerning Urban Unsafe and Old Buildings	2 hours

3. Retirement system:

The Company has formulated the “Employee Retirement Measures” as required by the “Labor Standards Act.” Since January 1993, the Company has been making monthly contributions of 4% of the employee’s monthly salary to the “Pension Fund.” With the enforcement of the new system that came into effect on July 1, 2005, if the employee opts for the new system, the Company contributes 6% of the employee’s monthly salary to the employee’s personal account at the Bureau of Labor Insurance, Ministry of Labor.

4. Employee Code of Conduct and Ethics:

All our employees must comply with the laws and regulations as well as the Company’s internal control system. They must also adhere to personal integrity and social ethics standards in order to protect the Company’s assets, rights and interests, and image. Management of the Company must establish sound examples that emphasize ethical practices. Under the supervision of the Board of Directors, management discloses complete financial information to the competent authorities and investors in a fair manner. All employees of the Company must abide by: (1) the protection of confidential information (2) the prohibition on engaging in self-interest deals (3) not soliciting improper benefits (4) the strict prohibition on insider trading (5) fair trade regulations.

5. Work environment and employee safety protection measures:

The Company strives for providing employees with a safe, healthy and comfortable workplace. All employees are covered by personal injury insurance and receive health examinations in order to prevent occupational injuries and diseases and to maintain their physical and mental health. The operation for the Company’s environmental protection, safety and health management is detailed as follows:

⊙ Environmental protection

The Company is engaged in real estate investment and the construction of residential and commercial buildings and has always valued the importance of environmental protection. In recent years, we have been working hard on researching and developing environmentally friendly products, including using Low-e glass, environmentally friendly paint, energy-saving lighting, airtight windows, open space greening, sky gardens and rainwater recovery. Health and safety inspection key points for work sites include greening, soil and water conservation, garbage pollution reduction, air pollution and noise reduction, as well as energy conservation and carbon reduction. All partners are also urged to comply with these rules. We promote digitization to reduce the amount of paper used for documents as well as using the reverse side of waste paper. We continue to urge our employees to save water and electricity

to sort and reduce waste.

⊙ Safety and health

There are site directors in place at each construction site and our safety and health inspection personnel pay attention to site safety maintenance at all times. Moreover, safety and health-related laws are complied with and equipment status is regularly checked at the site, and an annual safety inspection report for fire equipment is also reported. Not only are our employees covered with labor insurance and national health insurance, we also take out personal injury insurance and medical insurance for our employees.

6. The status of labor-management agreements and measures for preserving employee rights and interests:

As the relationship between employees and management has always been harmonious, no disputes have occurred.

(II) List any losses suffered by the company in the most recent fiscal year and up to the annual report publication date due to labor disputes:

As the relationship between employees and management has always been harmonious, no losses were suffered due to labor disputes. It is expected that no significant labor disputes will occur in the future.

(III) There is a section dedicated to stakeholders on the Company's website.

VI. Cyber security management

- (I) Cyber security risk management structure, cyber security policy, specific management plans and investment of resources in cyber security management:
 1. Cyber security risk management structure:

The responsible unit for information security of the Company is the Management Department, which is responsible for the planning, execution and promotion of information security management affairs, and also responsible for the promotion of information security awareness.

The Audit Office of the Company is the audit unit for information security supervision. In cases where a deficiency is found during audit, the Office then requests the audited unit to submit a relevant improvement plan for submission to the Board of Directors, and also implements periodic tracking of improvement outcomes, in order to reduce internal security risks.
 2. Cyber security policy:
 - (1) Maintain sustainable operation of all information systems.
 - (2) Prevent intrusion and damage by hackers and viruses.
 - (3) Prevent improper human intention and illegal use.
 - (4) Prevent confidential information disclosure.
 - (5) Prevent accidents due to personnel negligence.
 - (6) Maintain physical environment security.
 3. Specific management plan:
 - (1) Computer equipment security management
Computer equipment is maintained periodically by specialized information contractor, in order to ensure proper operation of computer equipment.
 - (2) Network security management
The terminal computer equipment of staff is installed with protection software which is updated automatically, in order to ensure that the latest viruses are blocked and isolated. In addition, it is able to detect and prevent installation of system execution files with potential threats.
 - (3) Ensure sustainable operation of systems
 - A. System backup: A backup system is established, and a daily mechanism is adopted, in order to ensure system and data security.
 - B. Periodic drill for system recovery: The recovery date base point is selected, and the backup media is restored back to the system host machine, following which the use unit then confirms the accuracy of the restored data, in order to ensure the accuracy and effectiveness of the backup media.
 - (4) Information security promotion and educational training:
 - A. Educational promotion: Staff are required to periodically change their system password, in order to maintain account security.
 - B. Information security education: Information security case study documents are provided to the staff for reference.
 4. Investment of resources for cyber security management:

The Company periodically updates the protection software and entrusts professional information contractors to perform system and computer equipment maintenance periodically. In the future, the Company will also update obsolete operating systems, in order to prevent software

- vulnerabilities, thereby ensuring information security effectively.
- (II) For the most recent year and up to the printing date of the annual report, losses due to major cyber security events, possible impacts and countermeasures:
For the year of 2023 and up to the printing date of the annual report of the Company, there has been no loss due to a major cyber security event.
Countermeasure: Not applicable.

VII. Important contracts: (important contracts either still effective as of the date of publication of the annual report, or expired in the most recent fiscal year)

Nature of the contract	Party	Commencement date of the contract	Main content	Restricted terms
Construction contract	Jinyuan Construction Co., Ltd.	2020.4.21 – start of construction completed in 950 days	Contractor agreement for the construction project “City Meeting Point” in Taipei City	None
		2022.3.16 – start of construction completed in 950 days	Contractor agreement for the construction project “Baosheng Emperor Memorial Hall” in Taipei City	None
		2022.8.11 – start of construction completed in 1,840 days	Contractor agreement for the construction project “Yun Ji” in Taipei City	None
		2022.8.11 – start of construction completed in 1,460 days	Contractor agreement for the construction project “Yun Di” in Taipei City	None
		2022.11.11 – start of construction completed in 1,840 days	Contractor agreement for the construction project “Sunfon AIT” in Taipei City	None
Joint development contract	15 people including Huang, ○-Jen	2006.9.23 – joint construction and delivery completion date	Jointly built “Di Yi Hui”	None
	11 people at the Xin ○ trading company	2017.11.7 – joint construction and delivery completion date	Jointly built “City Meeting Point”	None
	53 people including Chen, ○-Hua	2014.6.17 – joint construction and delivery completion date	Jointly built “Yun Ji”	None
	21 people including Chen, ○-Kuel	2019.7.27 – joint construction and delivery completion date	Jointly built “Yun Di”	None
	12 people including Chen, ○-Chen	2020.1.6 – joint construction and delivery completion date	Jointly built “No.16, Section 1, Nanchang Road Project”	None

	Quick ratio (%)	109.55	88.71	78.44	54.99	50.65	
	Times interest earned (times)	6,155	5,477	11	-2,008	2,856	
Operating capacity	Turnover of receivables (per time)	0	0	0	0	0	
	Average collection days for receivables	0	0	0	0	0	
	Inventory turnover (per time)	0.54	0.27	0	0	0.14	
	Payables turnover (per time)	18	11	0	0	4	
	Average days for sale	676	1,352	0	0	2,607	
	Turnover of property, plant, and equipment (per time)	3.93	1.96	0.02	0.02	1.43	
	Total assets turnover (per time)	0.39	0.20	0	0	0.10	
Profitability	Return on assets (%)	10.22	6.25	-0.13	-0.29	0.60	
	Return on equity (%)	14.10	7.62	-0.26	-0.50	1.03	
	As a percentage of paid-in capital	Operating income	21.45	10.85	-2.14	-2.43	1.56
		Net income before tax	23.15	12.99	-0.13	-0.81	2.35
	Net profit rate (%)	26.08	30.69	-130.30	-200.61	6.04	
Cash flows	Earnings per share (NT\$)	1.82	1.10	-0.04	-0.07	0.14	
	Cash flow ratio (%)	124.05	-10.38	-11.88	-26.88	-9.61	
	Cash flow adequacy ratio (%)	-36.59	-12.07	-7.06	-18.96	-12.13	
Leverage	Cash reinvestment ratio (%)	26.77	-5.18	-9.35	-18.61	-8.18	
	Operating leverage	1.01	1.01	0.95	0.96	1.07	
	Financial leverage	1.02	1.02	0.94	0.98	1.06	
Changes in financial ratios over the past two fiscal years (analysis is not required if changes are less than 20%)							
1. The long-term capital to property, plant and equipment ratio increased by 51.58%, and it was mainly due to the increase of valuation adjustment of the investments in equity instruments measured at fair value through other comprehensive income.							
2. The net profit margin increased by 206.65%, mainly due to the increase in net profit margin as compared to the previous period as a result of the recognition of revenue after the completion and delivery of City Meeting Point.							

Note 1: The financial information for each year has been audited and attested by CPAs.

Note 2: The information for each year is based on the data in the consolidated financial report after IFRS were adopted.

(II) Parent only financial analysis under IFRS

Unit: NT\$ thousand

Analysis items		Year					
		Financial analyses for the past five fiscal years (Note 2)					
		2019	2020	2021	2022	2023	
Financial structure (%)	Debt to assets ratio (%)	20.65	16.77	34.17	41.25	45.26	
	Long-term capital to property, plant and equipment ratio	955.70	969.56	1,020.49	980.55	1,044.81

	Return on equity (%)	14.10	7.62	-0.26	-0.50	1.03	
	As a percentage of paid-in capital	Operating income	22.51	12.09	-1.79	-1.74	4.62
		Net income before tax	23.15	12.99	-0.13	-0.81	2.35
	Net profit rate (%)	26.08	30.68	-127.57	-197.11	6.05	
	Earnings per share (NT\$)	1.82	1.10	-0.04	-0.07	0.14	
Cash flows	Cash flow ratio (%)	129.11	-8.45	-10.96	-24.60	-3.94	
	Cash flow adequacy ratio (%)	-30.52	-9.66	-4.33	-13.83	0.71	
	Cash reinvestment ratio (%)	27.11	-4.83	-8.91	-16.96	-3.20	
Leverage	Operating leverage	1.00	1.01	0.95	0.95	1.02	
	Financial leverage	1.02	1.02	0.93	1.00	1.00	
Changes in financial ratios over the past two fiscal years (analysis is not required if changes are less than 20%)							
1. The long-term capital to property, plant and equipment ratio increased by 64.26%, and it was mainly due to the increase of valuation adjustment of the investments in equity instruments measured at fair value through other comprehensive income.							
2. The net profit margin increased by 203.16%, mainly due to the increase in net profit margin as compared to the previous period as a result of the recognition of revenue after the completion and delivery of City Meeting Point.							
3. Cash flow ratio increased by 20.66%, mainly due to the slowdown in the increase in inventories and the decrease in cash outflow from operating activities, resulting in an increase in the cash flow ratio.							

Note 1: The financial information for each year has been audited and attested by CPAs.

Note 2: The information for each year is based on the data in the parent only financial report after IFRS were adopted.

Note 3:

1. Financial structure

(1) Debt-to-asset ratio = Total liabilities / total assets.

(2) Ratio of long-term funds to property, plant, and equipment = (Total equity + non-current liabilities) / net worth of property, plant, and equipment.

2. Solvency

(1) Liquidity ratio = Current assets / current liabilities.

(2) Quick ratio = (Current assets - inventory - prepaid expenses) / current liabilities.

(3) Times interest earned = Income before income tax and interest expenses / current interest expenses.

3. Operating capacity

(1) Receivables (including accounts receivable and notes receivable arising from business operations) turnover rate = Net sales amount / average receivables (including accounts receivable and notes receivable arising from business operations) for each period.

(2) Average collection days for receivables = 365 / turnover of receivables.

(3) Inventory turnover = cost of goods sold / average inventory.

(4) Payables (including accounts payable and notes payable arising from business operations) turnover rate = Cost of goods sold / average payables (including accounts payable and notes payable arising from business operations) for each period.

(5) Average days of sale = 365 / inventory turnover.

(6) Turnover of property, plant, and equipment = Net sales amount / average net worth of property, plant, and equipment.

(7) Total assets turnover = Net sales amount / average total assets.

4. Profitability

(1) Return on assets = [Net income + interest expenses x (1 - tax rate)] / average total assets.

(2) Return on equity = Net income / average total equity.

(3) Net profit margin = Net income / net sales.

(4) Earnings per share = (Profit and loss attributable to owners of the parent - dividends on preferred shares) / weighted average number of issued shares.

5. Cash flows

(1) Cash flow ratio = Net cash flow from operating activities / current liabilities.

(2) Net cash flow adequacy ratio = Net cash flow from operating activities for the most recent five years / (capital expenditures + inventory increase + cash dividends) for the most recent five years.

(3) Cash re-investment ratio = (Net cash flow from operating activities – cash dividends) / (gross property, plant, and equipment value + long-term investment + other non-current assets + working capital).

6. Leverage

(1) Operating leverage = (Net operating revenue - variable operating costs and expenses) / operating income.

(2) Financial leverage = Operating income / (Operating income - interest expenses).

Note 4: For the above formula for calculating earnings per share, special attention should be paid to the following when measuring:

1. Based on the weighted average number of ordinary shares, rather than the number of shares issued at the end of the year.
2. Where there is a cash replenishment or treasury stock trading, the weighted average number of shares shall be calculated during the period of circulation.
3. Where there is a surplus to capital increase or capital surplus to capital increase, the calculation of the earnings per share for the previous year and half year should be adjusted by the proportion of capital increase, rather than the period the capital increase is issued.
4. If the preferred shares are non-convertible accumulative shares, their annual dividend

(whether or not it is issued) shall be deducted from the net income after tax or added to net loss after tax. If the preferred shares are non-cumulative, then in the case of having a net profit after tax, the preferred dividend should be deducted from the net profit after tax; in the case of loss, no adjustments are required.

Note 5: Special attention should be paid to the following when analyzing cash flows:

1. Net cash flow from operating activities refers to the net cash inflow from operating activities in the cash flow statement.
2. Capital expenditure refers to the annual cash outflow of capital flows.
3. The increase in inventories shall only be credited when the balance at the end of the period is greater than their balance at the beginning of the period. If the inventory is reduced at the end of the year, then the inventory amount should be accounted at zero.
4. Cash dividends include cash dividends for common stock and special shares.
5. Gross property, plant, and equipment value means the total amount of property, plant and equipment before deducting accumulated depreciation.

Note 6: The issuer shall distinguish between the operating costs and operating expenses being fixed or variables. When estimation or subjective judgments are involved, one should pay attention to their rationality and consistency.

Note 7: If the Company's shares are no par or not in a denomination of NT\$10 per share, the calculation of the ratio of the paid in capital shall be calculated based on the equity ratio of the balance sheet attributable to the owners of the parent company.

III. Audit Committee's review report for the most recent year's financial statement

Sunfon Construction Co., Ltd. Audit Committee Review Report

Please approve

The Board of Directors has prepared the Company's 2023 Business Report, Financial Statements (including consolidated and parent only statements), and proposal for distribution of earnings. The Company's Financial Statements have been audited and certified by CPA Yang, Chih-Hui and CPA Hsu, Hsin-Min of Ernst & Young, Taiwan, and an audit report related thereto has been issued. The aforementioned report and statements have been reviewed and considered to be compliant with relevant rules by the undersigned, the Audit Committee of the Company. Pursuant to Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, we hereby submit this report for review.

Submitted to

The Company's 2024 Annual General Meeting

Audit Committee Convener: Huang, Tse-Jen

March 5, 2024

- IV. Consolidated financial statements of the most recent year: Please refer to page 132 to page 201.**
- V. Parent only financial statements of the most recent year: Please refer to page 202 to page 270.**
- VI. If the company or its affiliates have experienced financial difficulties in the most recent fiscal year and up to the date of publication of the annual report, the impact on the financial position of the company: None.**

Seven. Review and Analysis of Financial Position and Financial Performance and Risks

I. Financial position

Comparative analysis of financial position

Unit: NT\$ thousand

Item \ Year	2022	2023	Difference	
			Amount	%
Current assets	\$3,502,339	\$4,272,417	\$770,078	21.99
Financial assets measured at fair value through other comprehensive income – non-current	808,236	759,574	(48,662)	(6.02)
Property, plant and equipment	43,846	43,650	(196)	(0.45)
Investment property	291,884	290,306	(1,578)	(0.54)
Intangible assets	355	740	385	108.45
Other non-current assets	11,563	26,655	15,095	130.58
Total assets	4,658,223	5,393,342	735,122	15.78
Current liabilities	1,928,585	2,505,885	577,300	29.93
Other non-current liabilities	5,850	3,778	(2,072)	(35.42)
Total liabilities	1,934,435	2,509,663	575,228	29.74
Share capital	2,162,255	2,162,255	0	0.00
Additional paid-in capital	1,346	1,346	0	0.00
Retained earnings	396,963	502,446	105,483	26.57
Treasury stocks	(23,393)	(23,395)	(2)	(0.01)
Other equity	186,575	241,000	54,425	29.17
Non-controlling interests	39	27	(12)	(30.77)
Total equity	2,723,785	2,883,679	159,894	5.87

If the amount difference reaches 20% or more or the change in amount reaches NT\$10,000 thousand, see below:

1. The increases in current assets, current liabilities, and total liabilities were mainly due to the increase in inventories from the investment in construction in progress, as well as the increase in bank borrowings and the number of contracts, resulting in an increase in contract liabilities.
2. The increase in other non-current assets was mainly a result of the increase in City Meeting Point's bonus capacity reward for the unsafe and old buildings.
3. The increase in retained earnings was mainly due to the recording of the completion and delivery of City Meeting Point and an increase in gain on disposal of financial assets at fair value through other comprehensive income, resulting in the increase in retained earnings.
4. The increase in other equity was mainly due to the increase in unrealized gain or loss on financial instrument investment measured at fair value through other comprehensive income.

II. Financial performance

Comparative analysis of operating results

Unit: NT\$ thousand

Subject	2022 Amount	2023 Amount	Increase/decrease amount	Change in percentage %
Net operating revenue	\$6,936	\$478,477	\$471,541	6798.46
Operating costs	1,725	380,978	379,253	21985.68
Operating profit	5,211	97,499	92,288	1771.02
Operating expenses	57,771	63,850	6,079	10.52
Operating profit or loss	(52,560)	33,649	86,209	164.02
Non-operating revenue and expenditures	34,955	17,194	(17,761)	(50.81)
Net profit (loss) before income tax	(17,605)	50,843	68,448	388.80
Income tax (expense) benefit	3,691	(21,927)	25,618	(694.07)
Profit or loss for the period	(13,914)	28,916	42,830	307.82
Other comprehensive income for the period	(115,817)	130,978	246,795	213.09
Total comprehensive income for the period	(129,731)	159,894	289,625	223.25

Note 1. Analysis of changes in the increase/decrease percentage:

1. The increase in operating revenue, gross profit, operating profit or loss, and profit or loss in the current period was mainly due to the increase in profit or loss after the completion and handover of City Meeting Point and the increase in profit and loss after the recognition of related costs and expenses for the period.
2. The increase of other comprehensive income was mainly due to the increase of adjustment of unrealized gain or loss from stock investments in the current period.

Note 2. Reasons for the change of the Company's primary business: Not applicable.

Note 3. Expected sales volumes for the coming year and its basis, and key factors affecting the company's ability to continue growth or decline in expected sales volume:

1. The base for the "City Meeting Point" project located at Chang'an West Road is 119.14 ping (393.8 m²), with 49 residential units planned. The sales rate was 100%, with delivery completed in 2023.
2. The base for the "Baosheng Emperor Memorial Hall" project located at No. 138, Section 3, Chongqing North Road is 108.6 ping (359 m²), planned to be built as a social and educational facility building, which was 100% sold out at the end of 2020.
3. The base for the "Yun Ji" project located near Minsheng West Road and Chongqing North Road and Ningxia Night Market is 668.83 ping (2,211 m²),

- with 5 general shops and 207 residential units planned. The project was launched in the third quarter of 2021 and the sales rate is expected to reach 100% by the end of 2024.
4. The base for the “Yun Di” project located at Guisui Street and Minle Street is 346.67 ping (1,146 m²), with 8 general shops and 104 residential units planned. The project was launched in the third quarter of 2022 and the sales rate at the end of 2023 already reached 100%.
 5. The base for the “Sunfon AIT” project located at Lane 175, Section 1, Kangning Road, Neihu District is 215.03 ping (711 m²), with 1 general shop and 36 residential units planned. The project was launched in the first quarter of 2023 and the sales rate is expected to reach 100% by the end of 2024.
 6. The base for the “Yun Cheng” project located at Section 3, Chengde Road, Datong District is 188.46 ping (623 m²), with 3 general shops and 40 residential units planned. The project is to be launched in the first quarter of 2024 and the sales rate is expected to reach 100% by the end of 2024.
 7. The base for the No. 81, Section 2, Huanshan Road Project, Datong District is 269.53 ping (891 m²), with 1 general shop planned on the ground floor and 40 residential units. The project is to be launched in the second half of 2024 and the sales rate expected to reach 80% by the end of 2024.
 8. The estimated sales volume for 2024 is based on the expectation that the construction industry will decline slightly in 2024.

III. Cash flows

Cash flow analysis table

Unit: NT\$ thousand

Opening cash balance	Expected net cash flow from operating activities for the entire year	Estimated cash outflows for the entire year	Remaining (insufficient) cash	Remedies for insufficient cash	
				Investment plans	Financial plans
454,551	800,000	(1,200,000)	54,551	-	-
<p>1. Analysis of changes in cash flows this year:</p> <p>(1) Operating activities: The cash outflow amount was decreased by NT\$277,585 thousand, and the change rate was 53.55% from last year.</p> <p>(2) Investment activities: The cash inflow amount was increased by NT\$71,309 thousand, and the change rate was 68.14% from last year.</p> <p>(3) Financing activities: The cash inflow amount was increased by NT\$86,934 thousand, and the change rate was 73.21% from last year.</p> <p>The change in operating activities was mainly due to the decrease in construction investment and the development cost of joint construction projects compared to the same period last year, and the decrease in trust for pre-sale housing prices compared to the previous year, resulting in the decrease in cash outflow from operating activities compared to the same period last year; the change in investing activities was mainly due to the increase in cash inflows from sales of equity investments compared to the same period last year; the change in the financing activities was mainly due to the increase of the bank borrowings in the current period, such that the cash inflow of financing activities increased from the same period of last year.</p> <p>2. Expected remedies for cash deficits and liquidity analysis: Not applicable.</p> <p>3. Cash liquidity analysis for the coming year:</p> <p>(1) We expect to buy more land and promote new projects.</p> <p>(2) Investment activities and financing activities: We expect to finance the acquisition of land and pay for construction projects.</p>					

IV. The effect upon financial operations of any major capital expenditures during the most recent fiscal year: None.

V. The company's reinvestment policy for the most recent fiscal year, the main reasons for the profits/losses generated thereby, the plan for improving re-investment profitability, and investment plans for the coming year: None.

VI. Risks and assessment during the most recent fiscal year and up to the date of publication of the annual report

- (I) The effect of interest and exchange rate fluctuations and changes in the inflation rate upon the company's profits or losses, and response measures to be taken in the future:

The Company's short-term borrowings are "benchmark interest rate" and "fixed markup" interest-bearing debt. The current benchmark interest rate of the financial institution does not change significantly as the Company is a customer that financial institutions strive for. Also, as the Company does not have foreign-currency assets, interest rate changes pose no impact on the Company's profit or loss. Domestic inflation is moderate so the Company's profit or loss is not significantly affected by inflation.

- (II) The company's policy regarding high-risk investments, highly leveraged investments, loans to other parties, endorsements, guarantees, and derivatives transactions, the main reasons for the profits or losses generated thereby, and response measures to be taken in the future:

We dedicate ourselves to the development of the industry and do not engage in high-risk investments, highly leveraged investments, loans to other parties, endorsements, guarantees, or derivatives transactions.

- (III) Research and development work to be carried out in the future, and further expenditures expected for research and development work:

The Company does not have a dedicated R&D department but has a Development Department responsible for collecting market information and planning and designing integrated building products. Based on the fact that the construction industry is not like general manufacturing industries or high-tech industries that require R&D and design for new products, the Company does not have related R&D expenditures.

- (IV) Effect of important policies adopted and changes in the legal environment at home and abroad on the company's financial operations, and measures to be taken in response:

We keep a close eye on domestic and international political and economic developments as well as statutory changes. Moreover, we are fully capable of responding to them in an appropriate fashion and have always complied with relevant government laws, while upholding the principle of stable operation to strive for sustainable development. Recent important policy and regulatory changes in both Taiwan and abroad did not pose any significant impact on the Company's financial operations.

- (V) Effect of developments in science and technology as well as industrial change on the company's financial operations, and measures to be taken in response:

To respond to changes in science and technology as well as industry, we grasp market changes at all times and proactively obtain industrial information through a variety of methods to expand our business. There is currently no effect on the Company's financial operations due to scientific, technological or industrial changes.

- (VI) Effect of changes in the company's corporate image on the company's crisis management, and measures to be taken in response:
 We became a public company in April 1990 and began trading on TPEx in December 1998. We adhere to the business motto of "integrity, quality, service" to shape an exceptional corporate image. There has been no change in the Company's corporate image.
- (VII) Expected benefits and possible risks associated with any mergers and acquisitions, and measures to be taken in response: None.
- (VIII) Expected benefits and possible risks associated with any plant expansion, and mitigation measures to be taken in response: None.
- (IX) Risks associated with any consolidation of sales or procurement operations, and measures to be taken in response:
 Due to the characteristics of the industry and to control the quality standards of new construction projects, our construction works are contracted to our affiliate, who has sound construction technology standards and financial position. Because of this, we are able to avoid the risk of consolidation of procurement by enhancing the company's construction quality control. Not only do we buy land from general landowners, we also acquire land for construction through joint construction and allocation of housing units. Therefore, land acquisition transactions are specific and different, minimizing any procurement risks. Furthermore, we mostly sell construction projects to the general public, so there is no issue of consolidation of sales.
- (X) Effect upon and risk to the company in the event a major quantity of shares belonging to a director, supervisor, or shareholder holding more than a 10 percent stake in the company is transferred or otherwise changes hands, and measures to be taken in response: None.
- (XI) Effect upon and risk to company due to changes in management rights, and measures to be taken in response: None.
- (XII) Litigious and non-litigious matters
1. List major litigious, non-litigious or administrative disputes that involve the company and have been concluded by means of a final and unappealable judgment, or which are still under litigation, where such a dispute could materially affect shareholders' equity or the prices of the company's securities: None.
 2. List major litigious, non-litigious or administrative disputes that involve the company and/or any company director, supervisor, the president, person with actual responsibility, major shareholder holding a stake of more than 10 percent, or any companies controlled by the company that have been concluded by means of a final and unappealable judgment, or which are still under litigation, where such a dispute could materially affect shareholders' equity or the prices of the company's securities: None.
- (XIII) Other significant risks and measures to be taken in response:
1. Risk management policy:
 The Company has set up risk control operations in all departments and regularly reports to the Board of Directors.

2. Organizational structure of risk management:

All levels and departments are responsible for risk. In the event of an irregular situation, the Audit Office or senior management must be quickly notified and seek early solutions to address the issue. Meanwhile, the decision-maker should take action within the shortest time.

The Company's organization structure of risk management is as follows:

Organization name	Responsibility scope
Board of Directors	Ensures the efficiency of the risk management mechanism and allocates resources
Senior management	Carries out risk management decisions of the Board of Directors Coordinates risk management affairs between departments
Audit Office	Performs daily risk control inspection Supervises risk management activities and reports to the Board of Directors and supervisors of the implementation situation.
Other departments	Carry out daily risk control management

3. For liquidity risk management and credit risk management, please refer to "the most recent financial statements."
4. Disclosure of the types, objectives, means, effectiveness and accounting treatment of hedging transactions of applicable financial products (including financial derivatives):
- Not applicable as the Company is not involved in derivative transactions and does not adopt hedge accounting.
5. Cyber security risk:
- (1) Cyber security framework and policy: Cyber security risk management is our priority and to ensure the cyber security of our operations and customers, we have formulated the Internal Control Operating Procedures for Computerized Information System Operations in 2007, which is evaluated on a regular basis.
 - (2) Concrete management plan: Our internal audit is performed once a year targeting cyber security, organization and authority, asset classification control, personnel management and education and training, computer system security management, and network security management to ensure the sustainable operation of the Company's business.

VII. Other important matters: None.

English Translation of Auditors' Report Originally Issued in Chinese

Report of Independent Auditors

To SUNFON CONSTRUCTION CO., LTD.

Opinion

We have audited the accompanying consolidated balance sheets of Sunfon Construction Co., Ltd. (the “Company”) and its subsidiaries (collectively the “Group”) as of December 31, 2023, and 2022, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2023, and 2022, and notes to the consolidated financial statements (including the summary of significant accounting policies).

In our opinion, based on our audits, the consolidated financial statements referred to above present fairly in all material respects, the financial position of the Group as of December 31, 2023 and 2022, and financial performance and its cash flows for the years ended December 31, 2023 and 2022, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for Opinions

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the “Norm”), and we have fulfilled our other ethical responsibilities in accordance with the Norm. Based on our audits, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recognition of income from sales of real estate

The Group recognized operating income of NTD 478,477 thousand for the year ended December 31, 2023. Its main operating income was income from the sales of real estate. Due to the large number of counterparties in real estate transactions, we consider that the correct timing of income recognition is material to consolidated financial statements. Therefore, it was determined to be one of the key audit matters for the year ended December 31, 2023.

Our audit procedures include (but are not limited to) understanding, evaluating and testing the effectiveness of internal controls related to the income from the sales of real estate, including testing the control points where the sales staff review the contract and relevant purchase and sale requirements, and when performing substantive procedures at the end of the period, checking the contract of the sale and purchase of real estate and reviewing the ownership transfer registration documents of land and houses, hand over bills of the house and checking the payment collection records to confirm the time when the performance obligations are met; in addition, we will review whether there are any restrictive clauses in the contract of the sale and purchase of real estate to confirm the correctness of the timing of revenue recognition.

The operating income of the Group for the year ended December 31, 2023 has been disclosed and presented in Notes 4 and 6 to the consolidated financial statements.

Valuation of Inventories

The primary business of the Group is the construction of residential and commercial buildings. The inventories of the Group consist principally of land held for construction site, construction in progress, and land and buildings held for sale. As of December 31, 2023, the net amount of the inventories was NTD 2,983,394 thousand, which accounted for 55% of the consolidated total assets and was considered material to the consolidated financial statements. In addition, the real estate development is subject to political influence, general economy, market prospect, and property tax system reforms, which added to the difficulties and risks in management's assessment over the value of the inventories. As the valuation of inventories had significant impact on the consolidated financial statements, we considered this a key audit matter.

For the valuation of inventories, we have conducted audit procedures including but not limited to obtaining the appraisal reports concerning net realizable value of inventories, projected profit-and-loss statement, and analysis of the land development, to evaluate and test the reasonableness of net realizable value estimated by management. In addition, we analyzed the report based on the industry development trends and the expected demands of the market, also inquired the most recent closing price and transaction price of similar construction projects in nearby areas (including public information from the Department of Land Administration, Ministry of Interior and real estate agents), in order to evaluate whether declines in inventory value did occur.

As of December 31, 2023, the inventory of Sunfon Construction Co., Ltd. and its subsidiaries has been disclosed and presented in Notes 4, 5 and 6 to the consolidated financial statements.

Non-current financial assets at fair value through other comprehensive income

As of December 31, 2023, the net amount of the non-current financial assets at fair value through other comprehensive income of the Group amounted to NTD 759,574 thousand, which accounted for 14% of the consolidated total assets and were domestic listed stocks and fund investments mainly. In addition, the net amount of the unrealized gains (losses) from investments in equity instruments measured at fair value through other comprehensive income amounted to NTD 131,376 thousand, and the net amount of the dividend revenue was NTD 11,928 thousands which were the major source of income for the year ended December 31, 2023. In conclusion, the transaction of the non-current financial assets at fair value through other comprehensive income had significant impact on the consolidated financial statements, we considered this a key audit matter.

For the ownership and existence of non-current financial assets at fair value through other comprehensive income, we have conducted audit procedures including but not limited to check the passbook of Taiwan Depository & Clearing Corporation and send confirmation letters to securities companies. We checked the bank statements and securities companies' statements to verify the authenticity of trading and the accuracy of gains or losses from selling financial assets measured at fair value through other comprehensive income. We verified the accuracy of valuation gains or losses of financial assets measured at fair value through other comprehensive income in the end of period by checking investment's market price at end of period and calculating its valuation gain or loss. We also checked the relevant information of dividend statements to verify the authenticity and accuracy of recognition of dividends revenue.

As of December 31, 2023, the non-current financial assets measured at fair value through other comprehensive income of Sunfon Construction Co., Ltd. and its subsidiaries have been disclosed and presented in Note 6 and Attachment 2 in the consolidated financial statements.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the ability to continue as a going concern of the Group, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Group.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Group. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the accompanying notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2023 the consolidated financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited and expressed unqualified opinions in the parent company only financial statements of the Company for the years ended December 31, 2023 and 2022.

CONSOLIDATED STATEMENTS OF CASH FLOWS
For the years ended December 31, 2023 and 2022
(Expressed in Thousands of New Taiwan Dollars)

Item	For the years ended	
	December 31, 2023	December 31, 2022
Cash flows from (used in) operating activities :		
Net profit (loss) before tax	\$50,843	\$(17,605)
Adjustments :		
Income and expenses		
Depreciation expense	2,117	2,097
Amortization expense	186	120
Interest expense	1,845	835
Interest revenue	(4,967)	(2,897)
Dividend revenue	(11,928)	(31,634)
Loss on disposal of property, plant and equipment	-	52
Changes in operating assets and liabilities :		
Increase in inventories	(527,201)	(586,599)
Increase in prepayments	(14,614)	(4,671)
Increase in other current assets	(61,185)	(151,579)
Increase in current assets recognised as incremental costs to obtain contract with customers	(6,605)	(19,742)
Increase in contract liabilities	210,066	289,960
Increase in notes payables	79,239	556
Increase in accounts payables	31,878	1,364
Increase (decrease) in other payables	5,076	(590)
Increase (decrease) in other current liabilities, others	2,344	(339)
Decrease in net defined benefit liabilities, non-current	(2,319)	(462)
Cash outflow generated from operations	(245,225)	(521,134)
Interest received	5,002	2,921
Income tax paid	(522)	(117)
Net cash flows used in operating activities	(240,745)	(518,330)
Cash flows from (used in) investing activities :		
Acquisition of financial assets at fair value through other comprehensive income	(1,579)	(10,624)
Disposal of financial assets at fair value through other comprehensive income	181,617	85,140
Acquisition of property, plant and equipment	(343)	-
Acquisition of intangible assets	(571)	-
Increase in other non-current assets	(15,095)	(1,502)
Dividend received	11,928	31,634
Net cash flows from investing activities	175,957	104,648
Cash flows from (used in) financing activities :		
Increase in short-term loans	381,230	415,600
Decrease in short-term loans	(224,300)	(114,000)
Increase in short-term notes and bills payable	70,000	680,000
Decrease in short-term notes and bills payable	-	(850,000)
Increase in other non-current liabilities, other	(151)	166
Interest paid (including capitalized interests)	(21,103)	(13,024)
Net cash flows from financing activities	205,676	118,742
Net increase (decrease) in cash and cash equivalents	140,888	(294,940)
Cash and cash equivalents at beginning of period	313,663	608,603
Cash and cash equivalents at end of period	\$454,551	\$313,663

SUNFON CONSTRUCTION CO., LTD.

AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the years ended December 31, 2023 and 2022

(Amounts are expressed in thousands of New Taiwan Dollars unless otherwise stated)

1. History and organization

Sunfon Construction Co., Ltd. (the “Company”) was established and commenced business in January 1988. The Company primarily engaged in the development of public housing, and lease/sale of commercial buildings. The Company’s common shares were listed on the Taipei Exchange (TPEX) in December 1998. The Company’s registered address and main operating site are located at 7F, No. 173, Section 2, Chang’an East Road, Taipei, Taiwan.

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries (“the Group”) for the years ended December 31, 2023 and 2022 were recommended and authorized for issue by the Company’s board of directors on March 5, 2024.

3. Newly issued or revised standards and interpretations

(1) Changes in accounting policies resulting from applying for the first-time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after January 1, 2023. The adoption of these new standards and amendments had no material impact on the Group.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Classification of Liabilities as Current or Non-current – Amendments to IAS 1	January 1, 2024
b	Lease Liability in a Sale and Leaseback – Amendments to IFRS 16	January 1, 2024
c	Non-current Liabilities with Covenants – Amendments to IAS 1	January 1, 2024
d	Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7	January 1, 2024

(a) Classification of Liabilities as Current or Non-current – Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

(b) Lease Liability in a Sale and Leaseback – Amendments to IFRS 16

The amendments add seller-lessees additional requirements for the sale and leaseback transactions in IFRS 16, thereby supporting the consistent application of the standard.

(c) Non-current Liabilities with Covenants – Amendments to IAS 1

The amendments improved the information companies provide about long-term debt with covenants. The amendments specify that covenants to be complied within twelve months after the reporting period do not affect the classification of debt as current or non-current at the end of the reporting period.

(d) Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7

The amendments introduced additional information of supplier finance arrangements and added disclosure requirements for such arrangements.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2024. The new or amended standards and interpretations have no material impact on the Group.

- (3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below:

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 “Insurance Contracts”	January 1, 2023
c	Lack of Exchangeability – Amendments to IAS 21	January 1, 2025

- (a) IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors’ interests in the associate or joint venture.

- (b) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017, and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

- (c) Lack of Exchangeability – Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide. The amendments apply for annual reporting periods beginning on or after January 1, 2025.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, the local effective dates are to be determined by FSC. The new or amended standards and interpretations have no material impact on the Group.

4. Summary of significant accounting policies

(1) Statement of compliance

The consolidated financial statements of the Group for the years ended December 31, 2023 and 2022 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations"), IFRSs, IASs, IFRIC and SIC, which and endorsed by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars ("NTD") unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statements

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- A. power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- B. exposure, or rights, to variable returns from its involvement with the investee, and
- C. the ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- A. the contractual arrangement with the other vote holders of the investee
- B. rights arising from other contractual arrangements
- C. the Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Company loses control of a subsidiary, it:

- A. derecognizes the assets (including goodwill) and liabilities of the subsidiary
- B. derecognizes the carrying amount of any non-controlling interest
- C. recognizes the fair value of the consideration received
- D. recognizes the fair value of any investment retained
- E. recognizes any surplus or deficit in profit or loss
- F. reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss

The consolidated entities are listed as follows:

Name of the investors	Name of subsidiaries	Nature of Business	Percentage of ownership (%)	
			December 31, 2023	December 31, 2022
The Company	Gin Yuang Construction CO., Ltd.	Undertaking Construction and Civil Engineering Projects, Operations and Investment	99.9716%	99.9645%

(4) Current and non-current classification standard for assets and liabilities

An asset is classified as current when:

- A. The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle.
- B. The Group holds the asset primarily for the purpose of trading.
- C. The Group expects to realize the asset within twelve months after the reporting period.
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- A. The Group expects to settle the liability in its normal operating cycle.
- B. The Group holds the liability primarily for the purpose of trading.
- C. The liability is due to be settled within twelve months after the reporting period.
- D. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Group engages in the development of public housings and commercial buildings, while the subsidiary is primarily engaged in the construction of civil engineering projects. The period from construction to completion is generally 3 to 4 years. Therefore, the classification of current and non-current assets and liabilities related to construction business is based on business cycle.

(5) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within 12 months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(6) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 “Financial Instruments” are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

A. Financial assets: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) The Group’s business model for managing the financial assets and
- (b) The contractual cash flow characteristics of the financial asset

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as notes receivable, accounts receivable, financial assets at amortized cost and other receivables etc., on balance sheet as of the reporting date:

- (a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as follows:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
 - (i) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
 - (ii) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Moreover, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represent a recovery of part of the cost of investment.

Financial assets at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Group recognizes a loss allowance for expected credit loss on debt instrument investments measured at fair value through other comprehensive income and financial assets measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the balance sheet.

The Group measures expected credit loss of a financial instrument in a way that reflects:

- (a) An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes
- (b) The time value of money
- (c) Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions

The loss allowance is measured as follows:

- (a) At an amount equal to 12-month expected credit loss: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance at an amount equal to lifetime expected credit loss in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- (b) At an amount equal to the lifetime expected credit loss: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c) For accounts receivable or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit loss.
- (d) For lease receivables arising from transactions within the scope of IFRS 16 the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired.
- (b) The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred.
- (c) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D. Financial liabilities and equity

Classification of liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of *IFRS 9 Financial Instruments* are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss.

A financial liability is classified as held for trading if:

- (a) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term
- (b) on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking
- (c) it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument)

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

- (a) it eliminates or significantly reduces a measurement or recognition inconsistency; or
- (b) a group of financial assets, financial liabilities or both is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the Group is provided internally on that basis to the key management personnel.

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(7) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants handle in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(8) Inventories

Inventories are stated at acquisition or construction costs. The allocation of construction cost to land and buildings sold and unsold is based on relative price. The interests paid prior to the completion of construction projects are capitalized as cost of inventories in accordance with IFRS 23, *Borrowing Cost*.

Inventories are valued at lower of cost and net realizable value. Inventory write-downs are made item by item, except where it may be appropriate to group similar or related items. Abnormal spoilage of inventories, losses on inventory valuation and obsolescence, and gains from price recovery should be recognized in the period incurred. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(9) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	5-55 years
Transportation equipment	5 years
Other equipment	5-8 years

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(10) Investment property

The Group's owned investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with IFRS 5 Noncurrent Assets Held for Sale and Discontinued Operations, investment properties are measured using the cost model in accordance with the requirements of IAS 16 Property, plant and equipment for that model. If investment properties are held by a lessee as right-of-use assets and is not held for sale in accordance with IFRS 5, investment properties are measured in accordance with the requirements of IFRS 16.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	50-55 years
-----------	-------------

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

The Group transfers properties to or from investment properties according to the actual use of the properties.

Properties are transferred to or from investment properties when the properties meet, or cease to meet, the definition of investment property and there is evidence of the change in use.

(11) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset;
and
- B. the right to direct the use of an identified asset.

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximizing the use of observable information.

Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use asset and lease liability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date
- C. amounts expected to be payable by the lessee under residual value guarantees
- D. the exercise price of a purchase option if the Group is reasonably certain to exercise that option
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease

After the commencement date, the Group measures the lease liability on an amortized cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A. The amount of the initial measurement of the lease liability
- B. any lease payments made at or before the commencement date, less any lease incentives received
- C. any initial direct costs incurred by the lessee
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease

For subsequent measurement of the right-of-use asset, the Group measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Group applies IAS 36 “Impairment of Assets” to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Group accounted for as short-term leases or leases of low value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

For the rent concession arising as a direct consequence of the Covid-19 pandemic, the Group elected not to assess whether it is a lease modification but accounted it as a variable lease payment. The Group has applied the practical expedient to all rent concessions that meet the conditions for it.

Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Group recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index, or a rate are recognized as rental income when incurred.

(12) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

Computer software

The cost of computer software is amortized on a straight-line basis over the estimated useful life (5 years).

A summary of the policies applied to the Group’s intangible assets is as follows:

	<u>Computer software</u>
Useful lives	Finite
Amortization method used	Amortized on a straight-line basis over the estimated useful life
Internally generated or acquired	Externally acquired

(13) Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of *IAS 36 Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(14) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(15) Post-employment benefit

All regular employees of the Group are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Group. Therefore, fund assets are not included in the Group's parent company only financial statements.

For the defined contribution plan, the Group will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Group recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Remeasurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

- A. the date of the plan amendment or curtailment; and
- B. the date that the Group recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

(16) Treasury stock

The Group's own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. Any difference between the carrying amount and the consideration is recognized in equity.

(17) Revenue recognition

Recognition of gain or loss on sale of land and buildings

The Group constructs and sells residential and commercial buildings by presales. Sales are recognized when control of the assets is transferred to the customers. The assets, subject to the restrictions prescribed in the presale contracts, are not under control of the Group. However, the Group has the legally enforceable right to payment only after the transfer of the ownerships to the customers. Therefore, the Group recognizes revenue when the transfer of the ownerships is completed and receive payments from customers based on the contract terms specified in the abovementioned presales contracts. Consideration received from customers prior to the Group having satisfied its performance obligations are accounted for as contract liabilities which are transferred to revenue after the performance obligations are satisfied.

Where the contract explicitly or implicitly contains a financing component which provided a significant financial benefit to the Group, the Group adjusts the transaction price to reflect the time value of money. For contracts where the period between the payment and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component.

Commissioned construction income

The Group is engaged in the contracting business of residential real estate and commercial buildings. As the assets are controlled by the customers at the time of construction, revenue is recognized gradually over a period of time based on the percentage of contracted project costs incurred to date to the estimated total contract costs. The contracts include both fixed and variable consideration. The customer pays a fixed amount according to the agreed schedule. Certain variable consideration (e.g., penalties based on the number of days past due, price adjustment subsidy) is estimated using expected values based on past experience. Other changes in consideration (e.g., early completion incentive payments) are estimated at the most likely amount. The Group's rights to the consideration received for goods or services transferred to customers are recognized as contract assets. When an unconditional right is represented to the consideration, the contract assets are transferred to accounts receivable.

When the degree of the completion to performance obligation of construction contract cannot be reasonably estimated, the contract revenue is recognized only to the extent of expected recoverable contract costs incurred.

If circumstances change, revenues, costs and completion will be revised and the changes will be reflected in gains and losses in the period of the change in which the management is informed of.

The Group expects that the time interval between the transfer of a good or service from all customer contracts to customers and when customers pay for the goods or services will not exceed one year. Therefore, the transaction price is not adjusted for the effects of a significant financing component.

(18) Income tax

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current Income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination, affects neither the accounting profit nor taxable profit or loss at the time of the transaction, and does not result in equivalent taxable and deductible temporary differences at the time of the transaction.
- B. In respect of taxable temporary differences associated with investment in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination, affects neither the accounting profit nor taxable profit or loss at the time of the transaction, and does not result in equivalent taxable and deductible temporary differences at the time of the transaction.
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

According to the temporary exception in the “International Tax Reform – Pillar Two Model Rules (Amendments to IAS 12)”, deferred tax assets and liabilities related to Pillar Two income tax will not be recognized nor disclosed.

5. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements require management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(1) Judgment

In the process of applying the Group's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements:

A. Investment properties

Certain properties of the Group comprise a portion that is held to earn rentals or for capital appreciation and another portion that is owner-occupied. If these portions could be sold separately, the Group accounts for the portions separately as investment properties and property, plant and equipment. If the portions could not be sold separately, the property is classified as investment property in its entirety only if the portion that is owner-occupied is under 5% of the total property.

B. Operating lease commitments – Group as the lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

(2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

A. Post-employment benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases.

B. Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies. Please refer to Note 6 for disclosure on unrecognized deferred tax asset of the Group as of December 31, 2023.

C. Inventories

Estimates of net realizable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Note 6 for more details.

6. Contents of significant accounts

(1) Cash and cash equivalents

	As of December 31,	
	2023	2022
Cash on hand	\$120	\$90
Demand and check deposits	91,431	101,873
Time deposits	18,000	175,700
Cash equivalents –Reverse repurchase agreements	345,000	36,000
Total	<u>\$454,551</u>	<u>\$313,663</u>

Reverse repurchase agreements are short-term investments whose maturities are within twelve months and are highly liquid.

Cash and cash equivalents were not pledged.

(2) Financial assets at fair value through other comprehensive income

	As of December 31,	
	2023	2022
Equity instrument investments measured at fair value through other comprehensive income–non-current:		
Listed stocks	\$744,560	\$794,013
Unlisted stocks	15,014	14,223
Total	<u>\$759,574</u>	<u>\$808,236</u>

The Group classifies part of its financial assets as financial assets at fair value through other comprehensive income. For provisions of guarantees, please refer to Note 8 for more details.

The Group's dividend income related to equity instrument investments measured at fair value through other comprehensive income for the years ended December 31, 2023 and 2022 are as follows:

	For the years ended December 31,	
	2023	2022
Related to investments held at the end of the reporting period		
Dividends recognized during the period	<u>\$11,928</u>	<u>\$31,634</u>

In consideration of the Group's investment strategy, the Group disposed of and derecognized partial equity instrument investments measured at fair value through other comprehensive income. Details on derecognition of such investments for the years ended December 31, 2023 and 2022 are as follows:

	For the years ended December 31,	
	2023	2022
The fair value of the investments at the date of derecognition	<u>\$181,617</u>	<u>\$85,140</u>
The cumulative gain or loss on disposal reclassified from other equity to retained earnings	<u>\$76,951</u>	<u>\$35,700</u>

(3) Inventories

	As of December 31,	
	2023	2022
Land and Buildings held for sale	\$32,575	\$32,575
Land held for construction site	347,284	359,845
Construction in progress	2,599,833	2,030,267
Prepayment for land purchases	3,702	13,901
Total	<u>\$2,983,394</u>	<u>\$2,436,588</u>

A. Details of land and buildings held for sale were as follows:

Item	As of December 31,					
	2023			2022		
	Land held for sale	Buildings held for sale	Total	Land held for sale	Buildings held for sale	Total
He Ti	\$15,359	\$10,440	\$25,799	\$15,359	\$10,440	\$25,799
Sunfon Jin Cheng	4,066	2,010	6,076	4,066	2,010	6,076
Zhong Zheng Xue Fu	73	627	700	73	627	700
Total	\$19,498	\$13,077	\$32,575	\$19,498	\$13,077	\$32,575

B. Details of land held for construction site were as follows:

Construction project	Land location	As of December,31	
		2023	2022
Luzhu Township	Kengzi Section, Luzhu Township, Taoyuan County	\$7,385	\$7,385
Bao'an Project	Yanping Section, Datong District, Taipei City	6,144	6,144
Changji Project	Qiaobei Section, Datong District, Taipei City	116,801	116,800
Yanping Chang'an Project	Yuquan Section, Datong District, Taipei City	18,746	18,746
Yuanhuan Section, Taiyuan Road	Yuanhuan Section, Datong District, Taipei City	22,061	22,061
Heping West Road Project	Nanhai Section, Zhongzheng District, Taipei City	809	809
Tianmu-Tianyu Street Project	Tianmu Section, Tianmu District, Taipei City	33	33
No. 128, Sec. 3, Chengde Road	Datong Section, Datong District, Taipei City	-	7,722
No.101, Chang'an West Road	Shifu Section, Datong District, Taipei City	175,305	175,305
Sec. 2, Huanshan Road	Bihu Section, Neihu District, Taipei City	-	4,840
Total		\$347,284	\$359,845

C. Details of construction in progress were as follows:

Item	Detail	As of December 31,		Construction Method
		2023	2022	
City Meeting Point	Cost of Land	\$-	\$23,136	Joint construction and allocation of housing units
	Cost of Construction	-	189,950	
Yundu Project	Cost of Land	664,105	651,757	Joint construction and allocation of housing units
	Cost of Construction	239,957	70,477	
Yunji Project	Cost of Land	318,713	303,461	Joint construction and allocation of housing units
	Cost of Construction	301,102	98,231	
Baosheng Emperor Memorial Hall	Cost of Land	264,863	264,863	Joint construction and allocation of housing units
	Cost of Construction	145,170	67,199	
Yundi Project	Cost of Land	68,398	57,540	Joint construction and allocation of housing units
	Cost of Construction	219,219	80,786	
Sunfon AIT	Cost of Land	142,085	137,441	Joint construction and allocation of housing units
	Cost of Construction	73,710	14,128	
Section 1, Nanchang Road	Cost of Land	55,496	37,995	Joint construction and allocation of housing units
	Cost of Construction	34,775	8,414	
Yuncheng Project	Cost of Land	19,231	-	Joint construction and allocation of housing units
	Cost of Construction	15,220	3,229	
Sec. 2, Huanshan Road	Cost of Land	8,080	-	Joint construction and allocation of housing units
	Cost of Construction	3,872	177	
Others	Cost of Construction	25,837	21,483	-
Total		<u>\$2,599,833</u>	<u>\$2,030,267</u>	

D. Capitalized interests of construction in progress were as follows:

	As of December 31,	
	2023	2022
Capitalized interests	\$19,605	\$12,530
Capitalized interest rate	1.55%-2.85%	1.06%-2.69%

E. Additional disclosures of important construction projects were as follows:

Item	Total price for construction contract (budgeted cost, excluding land payment)	Percentage of completion	Scheduled completion year
Baosheng Emperor Memorial Hall	170,000	53%	2024
Yundi Project	890,000	27%	2025
Yunji Project	1,900,000	10%	2026
Sunfon AIT	219,000	22%	2025
Yundu Project	2,120,000	7%	2028

F. Details of Prepayment for land purchases were as follows:

Item	As of December 31,	
	2023	2022
City Meeting Point	\$-	\$10,255
Chang'an West I Project	3,702	3,646
Total	\$3,702	\$13,901

G. Cost incurred on inventories for the years ended December 31, 2023 and 2022 were as follows:

	For the years ended December 31,	
	2023	2022
Cost of Construction	\$379,700	\$447
Cost of Rent	1,278	1,278
Total	\$380,978	\$1,725

H. Please refer to Note 8 for more details on inventories pledged as loan guaranteee.

(4) Property, plant and equipment

Changes in property, plant and equipment were as follows:

	Land	Buildings	Transportation equipment	Miscellaneous equipment	Total
<u>Cost:</u>					
As of January 1, 2022	\$35,855	\$16,214	\$1,610	\$852	\$54,531
Additions	-	-	-	-	-
Disposals	-	-	-	(128)	(128)

B. For the years ended 2023 and 2022, the rental income generated from investment properties held by the Group amounted to \$7,893 thousand and \$7,871 thousand, respectively. No significant direct operating expenses incurred for investment properties which generated rental income during the period.

C. The investment property held by the Group was not measured at fair value, but only disclosed information on its fair value, and the fair value measurement is categorized within Level 3 of the fair value hierarchy. The fair value of the investment property held by the Group amounted to \$373,657 thousand and \$371,855 thousand on December 31, 2023 and December 31, 2022, respectively. The Group evaluates the market price of similar real estate in the vicinity of the relevant assets (including the Real Estate Actual Transaction Price Inquiry Website and websites of real estate agents). The recent real estate market was also used as the fair value of the investment property at each reporting date.

D. Please refer to Note 8 for more details on investment property under pledge.

Total		<u>\$951,521</u>	<u>\$794,591</u>

A. The Group's unused short-term lines of credits amount were \$5,237,815 thousand and \$4,727,745 thousand, as of December 31, 2023 and December 31, 2022, respectively.

B. Please refer to Note 8 for more details on land and buildings pledged as security for short-term loans.

(8) Post-employment benefits

Defined contribution plan

The Group adopts a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Group will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Group has made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

For the years ended December 31, 2023 and 2022, the expenses related to defined contribution plan amounted to \$1,837 thousand and \$1,418 thousand, respectively.

Defined benefits plan

The Group adopts a defined benefit plan in accordance with the Labor Standards Act of the R.O.C. The pension benefits are disbursed based on the units of service years and the average salaries in the last month of the service year. Two units per year are awarded for the first 15 years of services while one unit per year is awarded after the completion of the 15th year. The total units shall not exceed 45 units. Under the Labor Standards Act, the Group contributes an amount equivalent to 2% of the employees' total salaries and wages on a monthly basis to the pension fund deposited at the Bank of Taiwan in the name of the administered pension fund committee. Before the end of each year, the Group assesses the balance in the designated labor pension fund. If the amount is inadequate to pay pensions calculated for workers retiring in the same year, the Group will make up the difference in one appropriation before the end of March the following year.

The Ministry of Labor is in charge of establishing and implementing the fund utilization plan in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. The pension fund is invested in-house or under a mandate, based on a passive-aggressive investment strategy for long-term profitability. The Ministry of Labor establishes checks and risk management mechanism based on the assessment of risk factors including market risk, credit risk and liquidity risk, in order to maintain adequate manager flexibility to achieve targeted return without over-exposure of risk. With regard to utilization of the pension fund, the minimum earnings in the annual distributions on the final financial statement shall not be less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. Treasury Funds can be used to cover the deficits after the approval of the competent authority. As the Group does not participate in the operation and management of the pension fund, no disclosure on the fair value of the plan assets categorized in different classes could be made in accordance with paragraph 142 of IAS 19. The Group expects to contribute \$386 thousand to its defined benefit plan during the 12 months beginning after December 31, 2023.

The defined benefits plan obligation is expected to mature both in 5 years as of December 31, 2023 and 2022.

Pension costs recognized in profit or loss for the years ended December 31, 2023 and 2022 were as follows:

	For the years ended	
	December 31,	
	2023	2022
Current period service cost	\$208	\$212
Net interest on the net defined benefit liabilities (assets)	57	46
Total	\$265	\$258

Changes in the defined benefit obligation and fair value of plan assets were as follows:

	As of		
	December 31,	December 31,	January 1,
	2023	2022	2022
Defined benefit obligation	\$26,259	\$27,356	\$30,740
Plan assets at fair value	(23,148)	(22,324)	(21,078)
Others	62	62	62
Net defined benefit liabilities, non-current	\$3,173	\$5,094	\$9,724

Reconciliations of liabilities (assets) of the defined benefit plan were as follows:

	Defined benefit obligation	Plan assets at fair value	Benefit Liabilities (assets)
As of January 1, 2022	\$30,740	\$(21,016)	\$9,724
Current period service cost	212	-	212
Interest expense (income)	154	(108)	46
Subtotal	31,106	(21,124)	9,982
Remeasurements of the defined benefit liabilities/assets:			
Actuarial gains and losses arising from changes in demographics assumptions	-	-	-
Actuarial gains and losses arising from changes in financial assumptions	(2,484)	-	(2,484)
Experience adjustments	(85)	(1,599)	(1,684)
Subtotal	28,537	(22,723)	5,814
Payments from the plan	(1,181)	1,181	-
Contributions by employer	-	(720)	(720)
As of December 31, 2022	27,356	(22,262)	5,094
Current period service cost	208	-	208
Interest expense (income)	314	(257)	57
Subtotal	27,878	(22,519)	5,359
Remeasurements of the defined benefit liabilities/assets:			
Actuarial gains and losses arising from changes in demographics assumptions	-	-	-
Actuarial gains and losses arising from changes in financial assumptions	993	-	993
Experience adjustments	(470)	(125)	(595)
Subtotal	28,401	(22,644)	5,757
Payments from the plan	(2,142)	2,142	-
Contribution by employer	-	(2,584)	(2,584)
As of December 31, 2023	\$26,259	\$(23,086)	\$3,173

The following significant actuarial assumptions were used to determine the present value of the defined benefit obligation:

	As of December 31,	
	2023	2022
Discount rate	1.11%~1.18%	1.13%~1.15%
Expected rate of salary increases	2.00%~3.00%	2.00%~2.20%

A sensitivity analysis for significant assumption was shown below:

	For the years ended December 31,			
	2023		2022	
	Defined benefit obligation increase	Defined benefit obligation decrease	Defined benefit obligation increase	Defined benefit obligation decrease
Discount rate increased by 0.5%	\$-	\$(611)	\$-	\$(644)
Discount rate decreased by 0.5%	652	-	723	-
Future salary increased by 0.5%	637	-	712	-
Future salary decreased by 0.5%	-	(604)	-	(641)

The sensitivity analyses above are based on a change in a significant assumption (for example: change in discount rate or future salary), keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation of one another.

There was no change in the methods and assumptions used in preparing the sensitivity analyses compared to the previous period.

(9) Equity

A. Ordinary share

As of December 31, 2023 and 2022, the Company's authorized capital was both \$3,000,000 thousand; the paid-in capital was both \$2,162,255 thousand, each at a par value of NT\$10, both issued 216,226 thousand shares. Each share has one voting right and right to receive dividends.

On May 26, 2022, the Company's general meeting of shareholders passed a resolution to distribute shareholders' dividend bonus from retained earnings of 2021 and capital surplus to issue new shares for capital increase of 5,406 thousand shares and 2,911 thousand shares, respectively, both with a par value of \$10 per share. As of the date of this report, the case was approved and deemed effective by the Securities and Futures Bureau, Financial Supervisory Commission, on July 8, 2022, and September 2, 2022 was set as the ex-dividend date. The relevant statutory procedures for changes have been completed.

B. Capital surplus

	As of December 31,	
	2023	2022
Treasury share transactions – other	\$1,332	\$1,332
Gains on disposal of assets	14	14
Total	\$1,346	\$1,346

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the Company. When a company incurs no loss, it may distribute the capital reserve related to the income derived from the issuance of new shares at a premium or income from endowments received by the Company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

On May 26, 2022, the Company's general meeting of shareholders passed a resolution to distribute stock dividend from capital surplus in the amount of \$29,108 thousand, at \$0.14 per share.

C. Treasury stock

The Company's shares held by the Company's subsidiary, Gin Yuang Construction Co., Ltd., amounted to \$23,395 thousand and \$23,393 thousand for the years ended December 31, 2023 and 2022, respectively. The purpose for the subsidiary to hold the Company's shares was due to financial operations. For the years ended December 31, 2023 and 2022, the number of shares held by the subsidiary were both 8,679 thousand shares.

Treasury stock held by the Company may not be pledged as required by the Securities and Exchange Act, and is not entitled to dividend distribution or voting rights. However, if a subsidiary hold shares of the parent company, they are treated as treasury stock, which is entitled to shareholders' equity. According to the Company Act amended in June 2005, treasury stock of the parent company held by a subsidiary is not entitled to voting rights.

D. Retained earnings and dividend policies

According to the Company Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- a. Payment of all taxes and dues
- b. Offset prior years' operation losses
- c. Set aside 10% of the remaining amount after deducting items A and B as legal reserve
- d. Set aside or reverse special reserve in accordance with law and regulations
- e. The distribution of the remaining portion, if any, will be recommended by the board of directors and resolved in the shareholders' meeting.

The policy of dividend distribution should reflect factors such as the current and future investment environment, fund requirements, domestic and international competition and capital budgets; as well as the interest of the shareholders, share bonus equilibrium and long-term financial planning etc. The Company's board of directors shall make the distribution proposal annually and present it at the shareholders' meeting. The Group's Articles of Incorporation further provide the percentage of the dividends range from 0% to 90% to shareholders, if any, could be paid in the form of share dividends. Accordingly, the percentage of the dividends range from 10% to 100% must be paid in the form of cash.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total authorized capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

According to Jin-Guan-Zheng-Fa-Zi Order No. 1090150022 issued by the Financial Supervisory Commission on March 31, 2021, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the Company elects to transfer to retained earnings are recorded as a special reserve in the same amount as the proportion of retained earnings by application of the exemption under IFRS 1 "First-time Adoption of International Financial Reporting Standards". After adopting the IFRSs, when allocating distributable earnings, a special reserve shall be set aside for the difference between the balance of the special reserve provided when the IFRSs were first adopted and the net decrease in other equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

Details of the 2023 and 2022 earnings distribution and dividends per share as approved and resolved by the board of directors' meeting and shareholders' meeting on March 5, 2024 and May 25, 2023, respectively, are as follows:

	Appropriation of earnings		Dividends per share (NTD\$)	
	2023	2022	2023	2022
Legal reserve	\$10,548	\$2,594	\$-	\$-
Common stock – cash dividend	-	-	-	-
Common stock – stock dividend	108,113	-	0.5	-

As of the date of report, the Company's 2023 earnings distribution and dividends were not proposed to be disclosed by shareholders' meeting. Information on the board of directors' and shareholders' resolution regarding the earnings distribution can be obtained from the "Market Observation Post System".

Please refer to Note 6(12) for details on employees' compensation and remuneration to directors and supervisors.

E. Non-controlling interests

	For the years ended December 31,	
	2023	2022
Beginning balance	\$39	\$17
Loss attributed to non-controlling interests	(19)	(6)
Subscription of investees' newly issued shares un-proportional to shareholding percentage	7	28
Ending balance	\$27	\$39

(10) Operating revenue

	For the years ended December 31,	
	2023	2022
Revenue from contracts with customers		
Sales of land and buildings	\$472,096	\$571
Rental revenue	6,381	6,365
Total	\$478,477	\$6,936

Analysis of revenue from contracts with customers for the years ended December 31, 2023 and 2022 are as follows:

A. Disaggregation of revenue

	For the years ended December 31,	
	2023	2022
	Construction Sector	Construction Sector
Sales of land and buildings	\$472,096	\$571
Timing of revenue recognition: At a point in time	\$472,096	\$571

B. Contract balances

	As of December 31,	
	2023	2022
Current contract liabilities Sales of land and buildings	\$1,257,139	\$1,047,073

C. Contract cost

	As of December 31,	
	2023	2022
Assts recognized as incremental costs to obtain contract with customers	\$199,180	\$164,701
Less: Accumulated amortization	(27,874)	-
Accumulated impairment	-	-
Total	\$171,306	\$164,701

(11) Leases

Group as a lessor

Please refer to Note 6(5) for details on the Group's owned investment properties. Leases of owned investment properties are classified as operating leases as they do not transfer substantially all the risks and rewards incidental to ownership of underlying assets.

	For the years ended December 31,	
	2023	2022
Lease income for material operating leases Income relating to fixed lease payments and variable lease payments that depend on an index or a rate	\$6,381	\$6,365

Please refer to Note 6(5) for relevant disclosure of property, plant and equipment for operating leases. For operating leases entered into by the Group, the undiscounted lease payments to be received and a total of the amounts (tax included) for the remaining years as of December 31, 2023 and 2022 are as follows:

	As of December 31,	
	2023	2022
Not later than one year	\$5,998	\$6,586
Later than one year but not later than five years	12,656	18,146
Total	<u>\$18,654</u>	<u>\$24,732</u>

(12) Summary statement of employee benefits, depreciation and amortization expenses by function was as follows:

By feature	By function		For the years ended December 31,			
	2023			2022		
	Operating costs	Operating expenses	Total	Operating costs	Operating expenses	Total
Employee benefits expense						
Wages and salaries	\$12,910	\$32,556	\$45,466	\$3,878	\$29,522	\$33,400
Labor and health insurance	1,160	2,278	3,438	345	2,426	2,771
Pension	665	1,437	2,102	207	1,469	1,676
Others	418	708	1,126	152	780	932
Depreciation	1,278	839	2,117	1,278	819	2,097
Amortization	-	186	186	-	120	120

According to the Articles of Incorporation, 1% of profit of the current year is distributable as employees' compensation and no higher than 1% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Group's accumulated losses shall have been covered. The Group may, by a resolution adopted by a majority vote at a board meeting attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the board of directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on the Company's profit for the year ended December 31, 2023, employees' compensation and remuneration to directors and supervisors for the year ended December 31, 2023 were both estimated at 1% of profit to be distributed and both amounted to \$519 thousand recognized in wages and salaries. A resolution was passed in the board meeting held on March 5, 2024 to pay employees' compensation and remuneration to directors and supervisors in cash both in the amount of \$519 thousand, which were recognized in wages and salaries.

There were no estimated amounts of the employees' compensation and director and supervisor remuneration for the years ended December 31, 2022, because of net losses before tax.

(13) Non-operating income and expenses

A. Interest income

	For the years ended	
	December 31,	
	2023	2022
Interest income		
Financial assets measured at amortized cost	\$3,961	\$2,894
Other interest income	1,006	3
Total	<u>\$4,967</u>	<u>\$2,897</u>

B. Other income

	For the years ended	
	December 31,	
	2023	2022
Dividend income	\$11,928	\$31,634
Rental income	1,511	1,506
Other income – others	1,219	771
Total	<u>\$14,658</u>	<u>\$33,911</u>

C. Other gains and losses

	For the years ended	
	December 31,	
	2023	2022
Miscellaneous Disbursements	\$(586)	\$(966)
Loss on disposal of property, plant and equipment	-	(52)
Total	<u>\$(586)</u>	<u>\$(1,018)</u>

D. Finance costs

	For the years ended	
	December 31,	
	2023	2022
Interest on borrowings from bank		
(balance after deducting capitalization of interest)	\$1,845	\$835

(14) Components of other comprehensive income

	For the years ended December 31, 2023				
	Arising during the period	Reclassification adjustments during the period	Other comprehensive income, before tax	Income tax relating to components of other comprehensive income	Other comprehensive income, net of tax
Not be reclassified to profit or loss in subsequent periods:					
Remeasurement of defined benefit plans	\$(398)	\$-	\$(398)	\$-	\$(398)
Unrealized gains (losses) from equity instruments investments measured at fair value through other comprehensive income	131,376	-	131,376	-	131,376
Total	<u>\$130,978</u>	<u>\$-</u>	<u>\$130,978</u>	<u>\$-</u>	<u>\$130,978</u>

	For the years ended December 31, 2022				
	Arising during the period	Reclassification adjustments during the period	Other comprehensive income, before tax	Income tax relating to components of other comprehensive income	Other comprehensive income, net of tax
Not be reclassified to profit or loss in subsequent periods:					
Remeasurement of defined benefit plans	\$4,168	\$-	\$4,168	\$-	\$4,168
Unrealized gains (losses) from equity instruments investments measured at fair value through other comprehensive income	(119,985)	-	(119,985)	-	(119,985)
Total	<u>\$(115,817)</u>	<u>\$-</u>	<u>\$(115,817)</u>	<u>\$-</u>	<u>\$(115,817)</u>

(15) Income tax

A. The major components of income tax expense (income) were as follows:

Income tax expense (income) recognized in profit or loss

	For the years ended December 31,	
	2023	2022
Current income tax expense (income):		
Current income tax charge	\$21,813	\$-
Adjustments in respect of current income tax of prior periods	(9)	(3,697)
Land value increment tax	123	6
Total income tax expense (income)	<u>\$21,927</u>	<u>\$(3,691)</u>

B. A reconciliation of income before income tax and income tax expense recognized in profit or loss was as follows:

	For the years ended December 31,	
	2023	2022
Accounting profit or loss before tax from continuing operations	\$50,843	\$(17,605)
Tax at the domestic rates applicable to profits in the country concerned	\$10,169	\$(3,521)
Adjustments in respect of effects on income tax of construction benefits	-	2
Tax effect of expenses not deductible for tax purposes	13,144	2,853
Tax effect of revenues exempt from taxation	(2,548)	(5,999)
Income tax on undistributed earnings	1,167	-
Adjustments in respect of current income tax of prior periods	(9)	(3,697)
Land value increment tax	123	6
Others	(119)	6,665
Total income tax expense (income) recognized in profit or loss	\$21,927	\$(3,691)

C. As part of the Group's primary operating activities are tax-exempt (e.g., land transactions and investments in shares of domestic listed companies), no deferred income tax asset (liability) benefit was recognized for temporary differences that are not deductible for tax purposes.

D. The following table contains information of the unused tax losses of the Group:

Year	Tax losses for the period	Unused tax losses as at		Expiration year
		As of December 31,		
		2023	2022	
2016	28,302	\$27,448	\$27,448	2026
2017	6,008	6,008	6,008	2027
2019	21,991	21,991	21,991	2029
2020	23,554	23,554	23,554	2030
2023	32,770	32,770	-	2033
Total		\$111,771	\$79,001	

E. Unrecognized deferred tax assets

As of December 31, 2023 and 2022, deferred tax assets have not been recognized in respect of unused tax losses, unused tax credits and deductible temporary differences amounting \$22,354 thousand and \$15,800 thousand, respectively, as the future taxable profit may not be available.

F. The assessment of income tax returns

As of December 31, 2023, the assessment of the income tax returns of the Company and its subsidiaries is as follows:

	<u>The assessment of income tax returns</u>	<u>Remark</u>
The Company	Assessed and approved up to 2021	-
Subsidiary-Gin Yuang Construction Co., Ltd.	Assessed and approved up to 2021	-

(16) Earnings per share

Basic earnings per share is calculated by dividing net profit for the year attributable to ordinary equity owners of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share is calculated by dividing the net profit attributable to ordinary equity owners of the Company by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	<u>For the years ended</u>	
	<u>December 31,</u>	
	<u>2023</u>	<u>2022</u>
(1) Basic earnings per share		
Profit (loss) attributable to ordinary equity owners of the Company (in thousand NT\$)	<u>\$28,935</u>	<u>\$(13,908)</u>

Pro forma information on earnings per share assuming that the Company's shares invested by Gin Yang Construction Co., Ltd. are not treated as treasury stock:

	For the years ended	
	December 31,	
	2023	2022
Basic earnings per share		
Profit (loss) attributable to ordinary equity holders of the Company (in thousand NT\$)	\$28,935	\$(13,908)
Weighted average number of ordinary shares outstanding for pro forma earnings per share (in thousands)	216,226	216,226
Pro forma earnings per share (NT\$)	\$0.13	\$(0.06)

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of the financial statements.

7. Related party transactions

Compensation of key management personnel

	For the years ended	
	December 31,	
	2023	2022
Short-term employee benefits	\$10,289	\$9,452
Post-employment benefits	3,430	404
Total	\$13,719	\$9,856

8. Assets pledged as security

The following table lists assets of the Group pledged as security:

Assets pledged for security	Carrying amount as of		Secured liabilities
	December 31,		
	2023	2022	
Property, plant and equipment – Land	\$17,482	\$17,482	Short-term loans
Property, plant and equipment – Buildings	5,681	5,933	Short-term loans
Investment property	262,800	264,231	Short-term loans
Inventories	1,031,849	916,936	Short-term loans
Non-current financial assets at fair value through other comprehensive income	540,045	658,615	Short-term loans, Short-term notes and bills payable
Total	\$1,857,857	\$1,863,197	

9. Commitments and contingencies

(1) As of December 31, 2023, the Group's commitments and contingencies are as follows:

Name	Margin payable			Proportion of distributable property by landowners
	by the Company	Paid amount (Note)	Unpaid amount	
Chang'an West I Project	\$36,745	\$6,954	\$29,791	60%
Yundu Project	27,943	27,943	-	60%
Yongji-Songxin Project	14,653	4,625	10,028	65%
Yunji Project	7,987	7,987	-	60%
Section 1, Nanchang Road	13,492	11,749	1,743	65%
Nanshan Road, Zhonghe	1,800	1,800	-	46%
Bao'an Project	4,232	640	3,592	60%
Yuanhuan Section, Taiyuan Road	200	200	-	65%
Ganzhou Street Project	800	800	-	62%
Yuncheng Project	2,000	2,000	-	62%
No. 101, Chang'an West	17,500	14,500	3,000	62%
Total	<u>\$127,352</u>	<u>\$79,198</u>	<u>\$48,154</u>	

Note: Guarantee deposits paid were disclosed as other current assets.

(2) A summary of the outstanding balance related to the construction in progress signed by the Group was as follows:

Name of the construction project	Contract		
	amount	Paid amount	Unpaid amount
Yunji Project	\$1,079,136	\$247,825	\$831,311
Yundu Project	354,682	67,904	286,778
Yundi Project	448,054	156,266	291,788
Baosheng Emperor Memorial Hall	204,471	109,437	95,034
Sunfon AIT	125,944	60,631	65,313
Section 1, Nanchang Road	111,492	19,119	92,373
Total	<u>\$2,323,779</u>	<u>\$661,182</u>	<u>\$1,622,597</u>

- (3) The Group had signed the joint construction contracts with landowners for Yundu Project, Yunji Project, Yundi Project, Section 1, Nanchang Road, Sunfon AIT, Yuncheng Project, and Sec. 2, Huanshan Road. From the approval of the construction licenses to the date of completion and handover, the Group expects to pay \$410,373 thousand to landowners for rent subsidies. As of December 31, 2023, the Group paid landowners \$226,165 thousand as rent subsidies, which were necessary direct costs for acquiring the land; therefore, these subsidies are recorded as “Land held for construction site” and “Construction in progress”.
- (4) The Group’s cash equivalents in the amount of \$345,000 thousand was reverse repurchase agreement, with a term of agreeing to sell back with \$345,575 thousand before February 26, 2024.

10. Losses due to major disasters

None.

11. Significant subsequent events

None.

12. Others

(1) Financial instruments

Financial assets

	As of December 31,	
	2023	2022
Financial assets at fair value through other comprehensive income	\$759,574	\$808,236

Total	<u>\$1,214,005</u>	<u>\$1,121,809</u>

Financial liabilities

	As of December 31,	
	2023	2022
Financial liabilities at amortized cost:		
Short-term borrowings	\$951,521	\$794,591
Short-term notes and bills payable	100,000	30,000
Accounts payable (including other payables)	169,298	52,758
Total	<u>1,220,819</u>	<u>\$877,349</u>

(2) Financial risk management objectives

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Group always complies with its financial risk management policies at all time.

(3) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk and interest rate risk.

In practice, it is rarely the case that a single risk variable will change independently from other risk variables; there are usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investments at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as of the end of the reporting period, including investments with variable interest rates. At the reporting date, an increase or a decrease of 10 basis points of interest rate could cause the profit for the years ended December 31, 2023 and 2022 to decrease/increase by \$894 thousand and \$825 thousand, respectively.

Equity price risk

The fair value of the Group's listed and unlisted equity securities is susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed and unlisted equity securities are classified under financial assets at fair value through other comprehensive income. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

For the year ended December 31, 2023 and 2022, a rise/fall of 1% in the price of listed equity securities, classified as equity instruments investment measured at fair value through other comprehensive income could have an impact of \$7,446 thousand increased and \$7,940 thousand decreased on the equity attributable to the Group, respectively.

(4) Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for accounts receivable) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain counterparties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment.

The Group's main business is selling properties and the Group has a large customer base without having any significant concentration of transactions with a single customer. The subsidiaries' main business is the construction of real estate and the construction cases in progress were all undertaken from the parent company - SUNFON CONSTRUCTION CO., LTD., therefore there is no concern of significant concentration of credit risk or risk of accounts receivable that cannot be recovered.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counterparties.

(5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents and bank borrowings.

The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

Non-derivative financial liabilities

	Less than 1				Total
	year	2 to 3 years	4 to 5 years	> 5 years	
As of December 31, 2023					
Short-term loans (including interest payable)	\$234,891	\$589,175	\$188,324	\$-	\$1,012,390
Short-term notes and bills payable	100,000	-	-	-	100,000
Accounts payables (including other payables)	169,298	-	-	-	169,298
As of December 31, 2022					
Short-term loans (including interest payable)	\$453,611	\$16,284	\$370,408	\$-	\$840,303
Short-term notes and bills payable	30,000	-	-	-	30,000
Accounts payables (including other payables)	52,758	-	-	-	52,758

(6) Reconciliation of liabilities arising from financing activities

For the year ended December 31, 2023:

	Short-term loans	Short-term notes and bills payable	Total liabilities from financing activities
As of January 1, 2023	\$794,591	\$30,000	\$824,591
Cash flows	156,930	70,000	226,930
As of December 31, 2023	<u>\$951,521</u>	<u>\$100,000</u>	<u>\$1,051,521</u>

For the year ended December 31, 2022:

	Short-term loans	Short-term notes and bills payable	Total liabilities from financing activities
As of January 1, 2022	\$492,991	\$200,000	\$692,991
Cash flows	301,600	(170,000)	131,600
As of December 31, 2022	<u>\$794,591</u>	<u>\$30,000</u>	<u>\$824,591</u>

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

- a. The carrying amount of cash and cash equivalents, accounts receivable (including due from related parties), accounts payable (including payables to related parties), and other current liabilities approximate their fair value due to their short maturities.
- b. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates and bonds etc.).
- c. Fair value of debt instruments without market quotations, bank loans and other noncurrent liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the Taipei Exchange, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.).

B. Fair value measurement hierarchy for financial instruments

Please refer to Note 12(9) for fair value measurement hierarchy for financial instruments of the Group.

(8) Capital management

The Group's primary objective for capital management is to ensure the maintenance of robust credit ratings and sound capital ratio to support operations and maximize shareholders' equity. The Group manages and adjusts its capital framework depending on economic conditions. The purpose of the maintenance and adjustment of the capital framework may be achieved by adjusting dividend payments, returning capital or issuing new shares.

(9) Fair value measurement hierarchy

A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B. Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group assets and liabilities measured at fair value on a recurring basis was as follows:

As of December 31, 2023

	Level 1	Level 2	Level 3	Total
Financial assets:				
Equity instrument measured at fair value through other comprehensive income				
Stocks	\$744,560	\$15,014	\$-	\$759,574

As of December 31, 2022

	Level 1	Level 2	Level 3	Total
Financial assets:				
Equity instrument measured at fair value through other comprehensive income				
Stocks	\$794,013	\$14,223	\$-	\$808,236

Transfers between Level 1 and Level 2 during the period

During the years ended December 31, 2023 and 2022, there were no transfers between Level 1 and Level 2 fair value measurements.

C. Fair value measurement hierarchy of the Group's assets and liabilities not measured at fair value but for which the fair value was disclosed.

As of December 31, 2023

	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value but for which the fair value is disclosed:				
Investment property (Please refer to Note 6(5))	\$-	\$-	\$373,657	\$373,657

As of December 31, 2022

	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value but for which the fair value is disclosed:				
Investment property (Please refer to Note 6(5))	\$-	\$-	\$371,855	\$371,855

13. Other disclosure

(1) Information at significant transactions

A. Financing provided to others: None.

B. Endorsement/Guarantee provided to others: Please refer to Attachment 1.

C. Securities held at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to Attachment 2.

D. Individual securities acquired or disposed of with accumulated amount exceeding \$300 million or 20 percent of the capital stock or more: None.

E. Acquisition of real estate with amount exceeding \$300 million or 20 percent of the capital stock or more: None.

F. Disposal of real estate with amount exceeding \$300 million or 20 percent of the capital stock or more: None.

G. Related party transactions for purchases and sales amounts exceeding \$100 million or 20 percent of the capital stock or more: Please refer to Attachment 3.

H. Receivables from related parties with amounts exceeding \$100 million or 20 percent of capital stock or more: None.

I. Financial instruments and derivative transactions: None.

J. Others: Business relationship between the parent and the subsidiaries and between each subsidiary, and the circumstances and accounts of any significant transactions between term: Please refer to Attachment 4.

(2) Information on investees: Please refer to Attachment 5.

(3) Information on investments in mainland China: None.

(4) Information on major shareholders: Please refer to Attachment 6.

14. Segment Information

The Group is divided into operating units for management purposes based on different products and services. The following are two reportable operating departments:

- (1) Construction and Operation Segment: This department oversees the construction of public housing and rents out and sells commercial buildings.
- (2) Building and Operation Segment: This department oversees the contracting, operating and investing in civil construction projects.

These two reportable operating segments are not aggregated into more than one operating segment.

Management supervises the operating results of its business units to make decisions on resource allocation and performance assessment. Segments' performances are assessed based on operating profit or loss. The accounting policies for reportable segments are the same as those described in the Group's significant accounting policies. Nevertheless, non-operating income and expenditures and income taxes in the consolidated financial statements are managed on the basis of the Group, and they are not apportioned to the operating segments.

Transfer pricing between operating segments is based on similar regular transactions with external third parties.

Please refer to the MOPS for information on the reporting of insider shares.

English Translation of Auditors' Report Originally Issued in Chinese

Report of Independent Auditors

To SUNFON CONSTRUCTION CO., LTD.

Opinion

We have audited the accompanying parent only balance sheets of Sunfon Construction Co., Ltd. (the “company”) as of December 31, 2023, and 2022, and the related parent only statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2023, and 2022, and notes to the parent company only financial statements (including the summary of significant accounting policies).

In our opinion, based on our audits, the parent company only financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and financial performance and its cash flows for the years ended December 31, 2023 and 2022, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinions

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the “Norm”), and we have fulfilled our other ethical responsibilities in accordance with the Norm. Based on our audits, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2023 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recognition of income from sales of real estate

The Company recognized operating income of NTD 478,597 thousand for the year ended December 31, 2023. Its main operating income was income from the sales of real estate. Due to the large number of counterparties in real estate transactions, we consider that the correct timing of income recognition is material to parent company only financial statements. Therefore, it was determined to be one of the key audit matters for the year ended December 31, 2023.

Our audit procedures include (but are not limited to) understanding, evaluating and testing the effectiveness of internal controls related to the income from the sales of real estate, including testing the control points where the sales staff review the contract and relevant purchase and sale requirements, and when performing substantive procedures at the end of the period, checking the contract of the sale and purchase of real estate and reviewing the ownership transfer registration documents of land and houses, hand over bills of the house and checking the payment collection records to confirm the time when the performance obligations are met; in addition, we will review whether there are any restrictive clauses in the contract of the sale and purchase of real estate to confirm the correctness of the timing of revenue recognition.

The operating income of the Company for the year ended December 31, 2023 has been disclosed and presented in Notes 4 and 6 to the parent company only financial statements.

Valuation of Inventories

The primary business of the Company is the construction of residential and commercial buildings. The inventories of Company consist principally of land held for construction site, construction in progress, and land and buildings held for sale. As of December 31, 2023, the net amount of the inventories was NTD 2,892,387 thousand, which accounted for 55% of the parent company only total assets and was considered material to the parent company only financial statements. In addition, the real estate development is subject to political influence, general economy, market prospect, and property tax system reforms, which added to the difficulties and risks in management's assessment over the value of the inventories. As the valuation of inventories had significant impact on the parent company only financial statements, we considered this a key audit matter.

For the valuation of inventories, we have conducted audit procedures including but not limited to obtaining the appraisal reports concerning net realizable value of inventories, projected profit-and-loss statement, and analysis of the land development, to evaluate and test the reasonableness of net realizable value estimated by management. In addition, we analyzed the report based on the industry development trends and the expected demands of the market, also inquired the most recent closing price and transaction price of similar construction projects in nearby areas (including public information from the Department of Land Administration, Ministry of Interior and real estate agents), in order to evaluate whether declines in inventory value did occur.

As of December 31, 2023, the inventory of the Company has been disclosed and presented in Notes 4, 5 and 6 to the parent company only financial statements.

Non-current financial assets at fair value through other comprehensive income

As of December 31, 2023, the net amount of the non-current financial assets at fair value through other comprehensive income of the Company amounted to NTD 759,574 thousand, which accounted for 14% of the parent company only total assets and were the investment of domestic listed stocks and funds mainly. In addition, the net amount of the unrealized income from financial assets measured at fair value through other comprehensive income amounted to NTD 131,376 thousand, and the net amount of the dividend revenue was NTD 11,928 thousand, which were the major source of income for the year ended December 31, 2023. In conclusion, the transaction of the non-current financial assets at fair value through other comprehensive income had significant impact on the parent company only financial statements, we considered this a key audit matter.

For the ownership and existence of non-current financial assets at fair value through other comprehensive income, we have conducted audit procedures including but not limited to check the passbook of Taiwan Depository & Clearing Corporation and send confirmation letters to securities companies. We checked the bank statements and securities companies' statements to verify the authenticity of trading and the accuracy of gains or losses from selling financial assets measured at fair value through other comprehensive income. We verified the accuracy of valuation gains or losses of financial assets measured at fair value through other comprehensive income in the end of period by checking investment's market price at end of period and calculating its valuation gain or loss. We also checked the relevant information of dividend statements to verify the authenticity and accuracy of recognition of dividends revenue.

As of December 31, 2023, the non-current financial assets measured at fair value through other comprehensive income of Sunfon Construction Co., Ltd. has been disclosed and presented in Note 6 and Attachment 2 in the Parent Company only Financial Statements.

Responsibilities of Management and Those Charged with Governance for the Parent Company only Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the ability to continue as a going concern of the Company, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Parent Company only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the accompanying notes, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2023 the parent company only financial statements and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Item	For the years ended	
	December 31, 2023	December 31, 2022
Cash flows from (used in) operating activities :		
Net profit (loss) before tax	\$50,862	\$(17,599)
Adjustments:		
Income and expense		
Depreciation expense	1,777	1,797
Amortization expense	120	120
Interest expense	7	130
Interest revenue	(4,754)	(2,719)
Dividend revenue	(11,928)	(31,634)
Share of profit or loss of associates and joint ventures	65,898	14,025
Loss on disposal of property, plant and equipment	-	52
Changes in operating assets and liabilities :		
Increase in inventories	(409,835)	(599,803)
Increase in prepayments	(3,952)	(3,192)
Increase in other current assets	(61,348)	(151,415)
Increase in other current assets recognised as incremental costs to obtain contract with customers	(6,605)	(19,742)
Increase in net defined benefit assets	(1,402)	-
Increase in contract liabilities	210,066	289,961
Increase (decrease) in notes payables	3,594	(8,254)
(Decrease) increase in accounts payables	(2,655)	1,455
Increase in accounts payables - related parties	66,324	56,838
Increase (decrease) in other payables	4,162	(1,913)
Decrease in net defined benefit liabilities, non-current	(917)	(434)
Increase (decrease) in other current liabilities, others	2,425	(392)
Cash outflow generated from operations	<u>(98,161)</u>	<u>(472,719)</u>
Interest received	4,784	2,748
Income tax paid	<u>(507)</u>	<u>(106)</u>
Net cash flows used in operating activities	<u>(93,884)</u>	<u>(470,077)</u>
Cash flows from investing activities :		
Acquisition of financial assets at fair value through other comprehensive income	(1,579)	(10,624)
Disposal of financial assets at fair value through other comprehensive income	181,617	85,140
Acquisition of investments accounted for using equity method	(50,000)	(100,000)
Increase in other non-current assets	(15,064)	(1,439)
Dividend Received	11,928	31,634
Net cash flows from investing activities	<u>126,902</u>	<u>4,711</u>
Cash flows from financing activities :		
Increase in short-term loans	351,230	415,600
Decrease in short-term loans	(224,300)	(114,000)
Increase in short-term notes and bills payable	85,000	-
Decrease in short-term notes and bills payable	(45,000)	(200,000)
Decrease (increase) in other non-current liabilities, others	(150)	153
Interest paid (Including capitalized interests)	<u>(19,277)</u>	<u>(12,320)</u>
Net cash flows from financing activities	<u>147,503</u>	<u>89,433</u>
Net increase (decrease) in cash and cash equivalents	180,521	(375,933)
Cash and cash equivalents at beginning of period	<u>228,244</u>	<u>604,177</u>
Cash and cash equivalents at end of period	<u>\$408,765</u>	<u>\$228,244</u>

English translation of parent company only financial statements originally issued in Chinese

SUNFON CONSTRUCTION CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS

For the years ended December 31, 2023 and 2022

(Amounts are expressed in thousands of New Taiwan Dollars unless otherwise stated)

1. History and organization

Sunfon Construction Co., Ltd. (the “Company”) was established and commenced business in January 1988. The Company primarily engaged in the development of public housing, and lease/sale of commercial buildings. The Company’s common shares were listed on the Taipei Exchange (TPEX) in December 1998. The Company’s registered address and main operating site are located at 7F., No. 173, Section 2, Chang’an East Road, Taipei, Taiwan.

2. Date and procedures of authorization of financial statements for issue

The parent company only financial statements of the Company for the years ended December 31, 2023 and 2022 were recommended and authorized for issue by the Company’s board of directors on March 5, 2024.

3. Newly issued or revised standards and interpretations

- (1) Changes in accounting policies resulting from applying for the first-time certain standards and amendments

The Company applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after January 1, 2023. The adoption of these new standards and amendments had no material impact on the Company.

- (2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by FSC, and not yet adopted by the Company as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Classification of Liabilities as Current or Non-current – Amendments to IAS 1	January 1, 2024
b	Lease Liability in a Sale and Leaseback – Amendments to IFRS 16	January 1, 2024
c	Non-current Liabilities with Covenants – Amendments to IAS 1	January 1, 2024
d	Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7	January 1, 2024

(a) Classification of Liabilities as Current or Non-current – Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

(b) Lease Liability in a Sale and Leaseback – Amendments to IFRS 16

The amendments add seller-lessees additional requirements for the sale and leaseback transactions in IFRS 16, thereby supporting the consistent application of the standard.

(c) Non-current Liabilities with Covenants – Amendments to IAS 1

The amendments improved the information companies provide about long-term debt with covenants. The amendments specify that covenants to be complied within twelve months after the reporting period do not affect the classification of debt as current or non-current at the end of the reporting period.

(d) Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7

The amendments introduced additional information of supplier finance arrangements and added disclosure requirements for such arrangements.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2024. The standards and interpretations have no material impact on the Company.

- (3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Company as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 “Insurance Contracts”	January 1, 2023
c	Lack of Exchangeability – Amendments to IAS 21	January 1, 2025

- (a) IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors’ interests in the associate or joint venture.

- (b) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

(c) Lack of Exchangeability – Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide. The amendments apply for annual reporting periods beginning on or after January 1, 2025.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Company's financial statements were authorized for issue, the local effective dates are to be determined by FSC. The new or amended standards and interpretations have no material impact on the Company.

4. Summary of significant accounting policies

(1) Statement of compliance

The parent company only financial statements of the Company for the years ended December 31, 2023 and 2022 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (“the Regulations”).

(2) Basis of preparation

The Company prepared parent company only financial statements in accordance with Article 21 of the Regulations, which provided that the profit or loss and other comprehensive income for the period presented in the parent company only financial statements shall be the same as the profit or loss and other comprehensive income attributable to stockholders of the parent presented in the consolidated financial statements for the period, and the total equity presented in the parent company only financial statements shall be the same as the equity attributable to the parent company presented in the consolidated financial statements. Therefore, the Company accounted for its investments in subsidiaries using equity method and, accordingly, made necessary adjustments.

The parent company only financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The financial statements are expressed in thousands of New Taiwan Dollars (“NTD”) unless otherwise stated.

(3) Current and non-current classification standard for assets and liabilities

An asset is classified as current when:

- A. The Company expects to realize the asset, or intends to sell or consume it, in its normal operating cycle.
- B. The Company holds the asset primarily for the purpose of trading.
- C. The Company expects to realize the asset within twelve months after the reporting period.
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- A. The Company expects to settle the liability in its normal operating cycle.
- B. The Company holds the liability primarily for the purpose of trading.
- C. The liability is due to be settled within twelve months after the reporting period.
- D. The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Company engages in the development of public housings and commercial buildings, while the subsidiary is primarily engaged in the construction of civil engineering projects. The period from construction to completion is generally 3 to 4 years. Therefore, the classification of current and non-current assets and liabilities related to construction business is based on business cycle.

(4) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within 12 months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(5) Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 “Financial Instruments“ are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

A. Financial assets: Recognition and Measurement

The Company accounts for regular way purchase or sales of financial assets on the trade date.

The Company classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) The Company’s business model for managing the financial assets and
- (b) The contractual cash flow characteristics of the financial asset

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as notes receivable, accounts receivable, financial assets at amortized cost and other receivables etc., on balance sheet as of the reporting date:

- (a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) Purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as follows:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
 - (i) Purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
 - (ii) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Moreover, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Company made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represent a recovery of part of the cost of investment.

Financial assets at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Company recognizes a loss allowance for expected credit loss on debt instrument investments measured at fair value through other comprehensive income and financial assets measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the balance sheet.

The Company measures expected credit loss of a financial instrument in a way that reflects:

- (a) An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes
- (b) The time value of money
- (c) Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions

The loss allowance is measured as follows:

- (a) At an amount equal to 12-month expected credit loss: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Company measures the loss allowance at an amount equal to lifetime expected credit loss in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- (b) At an amount equal to the lifetime expected credit loss: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c) For accounts receivable or contract assets arising from transactions within the scope of IFRS 15, the Company measures the loss allowance at an amount equal to lifetime expected credit loss.
- (d) For lease receivables arising from transactions within the scope of IFRS 16 the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Company needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired.
- (b) The Company has transferred the asset and substantially all the risks and rewards of the asset have been transferred.
- (c) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D. Financial liabilities and equity

Classification of liabilities or equity

The Company classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of *IFRS 9 Financial Instruments* are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss.

A financial liability is classified as held for trading if:

- (a) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term
- (b) on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking
- (c) it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument)

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

- (a) it eliminates or significantly reduces a measurement or recognition inconsistency; or
- (b) a group of financial, financial liabilities or both is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the Company is provided internally on that basis to the key management personnel.

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(6) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants handle in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(7) Inventories

Inventories are stated at acquisition or construction costs. The allocation of construction cost to land and buildings sold and unsold is based on relative price. The interests paid prior to the completion of construction projects are capitalized as cost of inventories in accordance with IFRS 23, *Borrowing Cost*.

Inventories are valued at lower of cost and net realizable value. Inventory write-downs are made item by item, except where it may be appropriate to group similar or related items. Abnormal spoilage of inventories, losses on inventory valuation and obsolescence, and gains from price recovery should be recognized in the period incurred. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(8) Investments accounted for using the equity method

The Company accounted for its investments in subsidiaries using equity method and made necessary adjustments in accordance with Article 21 of the Regulations, which provided that the profit or loss and other comprehensive income for the period presented in the parent company only financial statements shall be the same as the profit or loss and other comprehensive income attributable to stockholders of the parent presented in the financial statements for the period, and the total equity presented in the parent company only financial statements shall be the same as the equity attributable to the parent company presented in the consolidated financial statements. The Company made such adjustments by debiting or crediting accounts such as investments accounted for using equity method, share of profit (loss) of associates and joint ventures accounted for using equity method, or share of other comprehensive income of associates and joint ventures accounted for using equity method, unrealized gains (losses), considering the accounting method used for the investments in subsidiaries in the consolidated financial statements in accordance with IFRS 10 Consolidated Financial Statements and the differences of application of IFRS between different consolidated entities.

(9) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Company recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 Property, plant and equipment. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	5-55 years
Transportation equipment	5 years
Other equipment	5-8 years

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(10) Investment property

The Company's owned investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with IFRS 5 Noncurrent Assets Held for Sale and Discontinued Operations, investment properties are measured using the cost model in accordance with the requirements of IAS 16 Property, plant and equipment for that model. If investment properties are held by a lessee as right-of-use assets and is not held for sale in accordance with IFRS 5, investment properties are measured in accordance with the requirements of IFRS 16.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	50-55 years
-----------	-------------

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

The Company transfers properties to or from investment properties according to the actual use of the properties.

Properties are transferred to or from investment properties when the properties meet, or cease to meet, the definition of investment property and there is evidence of the change in use.

(11) Leases

The Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Company assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset;
and
- B. the right to direct the use of an identified asset.

For a contract that is, or contains, a lease, the Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Company for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Company estimates the stand-alone price, maximizing the use of observable information.

Company as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Company recognizes right-of-use asset and lease liability for all leases which the Company is the lessee of those lease contracts.

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date
- C. amounts expected to be payable by the lessee under residual value guarantees
- D. the exercise price of a purchase option if the Company is reasonably certain to
- E. exercise that option
- F. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease

After the commencement date, the Company measures the lease liability on an amortized cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Company measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A. The amount of the initial measurement of the lease liability
- B. any lease payments made at or before the commencement date, less any lease incentives received
- C. any initial direct costs incurred by the lessee
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease

For subsequent measurement of the right-of-use asset, the Company measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Company measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Company by the end of the lease term or if the cost of the right-of-use asset reflects that the Company will exercise a purchase option, the Company depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Company depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Company applies IAS 36 “Impairment of Assets” to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Company accounted for as short-term leases or leases of low value assets, the Company presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statement of comprehensive income.

For short-term leases or leases of low-value assets, the Company elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

For the rent concession arising as a direct consequence of the Covid-19 pandemic, the Company elected not to assess whether it is a lease modification but accounted it as a variable lease payment. The Company has applied the practical expedient to all rent concessions that meet the conditions for it.

Company as a lessor

At inception of a contract, the Company classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Company recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Company allocates the consideration in the contract applying IFRS 15.

The Company recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index, or a rate are recognized as rental income when incurred.

(12) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

Computer software

The cost of computer software is amortized on a straight-line basis over the estimated useful life (5 years).

A summary of the policies applied to the Company's intangible assets is as follows:

	<u>Computer software</u>
Useful lives	Finite
Amortization method used	Amortized on a straight-line basis over the estimated useful life
Internally generated or acquired	Externally acquired

(13) Impairment of non-financial assets

The Company assesses at the end of each reporting period whether there is any indication that an asset in the scope of *IAS 36 Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(14) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(15) Post-employment benefit

All regular employees of the Company are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company. Therefore, fund assets are not included in the Company's parent company only financial statements.

For the defined contribution plan, the Company will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Remeasurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

- A. the date of the plan amendment or curtailment; and
- B. the date that the Company recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

(16) Treasury stock

The Company's own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. Any difference between the carrying amount and the consideration is recognized in equity.

(17) Revenue recognition

Recognition of gain or loss on sale of land and buildings

The Company constructs and sells residential and commercial buildings by presales. Sales are recognized when control of the assets is transferred to the customers. The assets, subject to the restrictions prescribed in the presale contracts, are not under control of the Company. However, the Company has the legally enforceable right to payment only after the transfer of the ownerships to the customers. Therefore, the Company recognizes revenue when the transfer of the ownerships is completed and receive payments from customers based on the contract terms specified in the abovementioned presales contracts. Consideration received from customers prior to the Company having satisfied its performance obligations are accounted for as contract liabilities which are transferred to revenue after the performance obligations are satisfied.

Where the contract explicitly or implicitly contains a financing component which provided a significant financial benefit to the Company, the Company adjusts the transaction price to reflect the time value of money. For contracts where the period between the payment and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component.

Commissioned construction income

The Company is engaged in the contracting business of residential real estate and commercial buildings. As the assets are controlled by the customers at the time of construction, revenue is recognized gradually over a period of time based on the percentage of contracted project costs incurred to date to the estimated total contract costs. The contracts include both fixed and variable consideration. The customer pays a fixed amount according to the agreed schedule. Certain variable consideration (e.g., penalties based on the number of days past due, price adjustment subsidy) is estimated using expected values based on past experience. Other changes in consideration (e.g., early completion incentive payments) are estimated at the most likely amount. The Company's rights to the consideration received for goods or services transferred to customers are recognized as contract assets. When an unconditional right is represented to the consideration, the contract assets are transferred to accounts receivable.

When the degree of the completion to performance obligation of construction contract cannot be reasonably estimated, the contract revenue is recognized only to the extent of expected recoverable contract costs incurred.

If circumstances change, revenues, costs and completion will be revised and the changes will be reflected in gains and losses in the period of the change in which the management is informed of.

The Company expects that the time interval between the transfer of a good or service from all customer contracts to customers and when customers pay for the goods or services will not exceed one year. Therefore, the transaction price is not adjusted for the effects of a significant financing component.

(18) Income tax

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current Income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for on undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination, affects neither the accounting profit nor taxable profit or loss at the time of the transaction, and does not result in equivalent taxable and deductible temporary differences at the time of the transaction.
- B. In respect of taxable temporary differences associated with investment in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination, affects neither the accounting profit nor taxable profit or loss at the time of the transaction, and does not result in equivalent taxable and deductible temporary differences at the time of the transaction.
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

According to the temporary exception in the “International Tax Reform – Pillar Two Model Rules (Amendments to IAS 12)”, deferred tax assets and liabilities related to Pillar Two income tax will not be recognized nor disclosed.

5. Significant accounting judgements, estimates and assumptions

The preparation of the Company’s parent company only financial statements require management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(1) Judgment

In the process of applying the Company’s accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements:

A. Investment properties

Certain properties of the Company comprise a portion that is held to earn rentals or for capital appreciation and another portion that is owner-occupied. If these portions could be sold separately, the Company accounts for the portions separately as investment properties and property, plant and equipment. If the portions could not be sold separately, the property is classified as investment property in its entirety only if the portion that is owner-occupied is under 5% of the total property.

B. Operating lease commitments – Company as the lessor

The Company has entered into commercial property leases on its investment property portfolio. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

(2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

A. Post-employment benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Please refer to Note 6 for more details.

B. Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

C. Inventories

Estimates of net realizable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Note 6 for more details.

6. Contents of significant accounts

(1) Cash and cash equivalents

	As of December 31,	
	2023	2022
Cash on hand	\$30	\$30
Demand and check deposits	60,735	49,914
Time deposits	18,000	158,300
Cash equivalents –Reverse repurchase agreements	330,000	20,000
Total	408,765	\$228,244

Reverse repurchase agreements are short-term investments whose maturities are within twelve months and are highly liquid.

Cash and cash equivalents were not pledged.

(2) Financial assets at fair value through other comprehensive income

	As of December 31,	
	2023	2022
Equity instrument investments measured at fair value through other comprehensive income–non-current:		
Listed stocks	\$744,560	\$794,013
Unlisted stocks	15,014	14,223
Total	\$759,574	\$808,236

The Company classifies part of its financial assets as financial assets at fair value through other comprehensive income. For provisions of guarantees, please refer to Note 8 for more details.

The Company's dividend income related to equity instrument investments measured at fair value through other comprehensive income for the years ended December 31, 2023 and 2022 are as follows:

	For the years ended December 31,	
	2023	2022
Related to investments held at the end of the reporting period		
Dividends recognized during the period	\$11,928	\$31,634

In consideration of the Company's investment strategy, the Company disposed of and derecognized partial equity instrument investments measured at fair value through other comprehensive income. Details on derecognition of such investments for the year ended December 31, 2023 is as follows:

	For the years ended December 31,	
	2023	2022
The fair value of the investments at the date of derecognition	\$181,617	\$85,140
The cumulative gain or loss on disposal reclassified from other equity to retained earnings	\$76,951	\$35,700

(3) Inventories

	As of December 31,	
	2023	2022
Land and Buildings held for sale	\$32,575	\$32,575
Land held for construction site	347,284	359,845
Construction in progress	2,508,826	2,056,626
Prepayment for land purchases	3,702	13,901
Total	<u>\$2,892,387</u>	<u>\$2,462,947</u>

A. Details of land buildings held for sale were as follows:

Item	As of December 31,					
	2023			2022		
	Land held for sale	Buildings held for sale	Total	Land held for sale	Buildings held for sale	Total
He Ti	\$15,359	\$10,440	\$25,799	\$15,359	\$10,440	\$25,799
Sunfon Jin Cheng	4,066	2,010	6,076	4,066	2,010	6,076
Zhong Zheng Xue Fu	73	627	700	73	627	700
Total	<u>\$19,498</u>	<u>\$13,077</u>	<u>\$32,575</u>	<u>\$19,498</u>	<u>\$13,077</u>	<u>\$32,575</u>

B. Details of land held for construction site were as follows:

Construction project	Land location	As of December 31,	
		2023	2022
Luzhu Township	Kengzi Section, Luzhu Township, Taoyuan County	\$7,385	\$7,385
Bao'an Project	Yanping Section, Datong District, Taipei City	6,144	6,144
Changji Project	Qiaobei Section, Datong District, Taipei City	116,801	116,800
Yanping Chang'an Project	Yuquan Section, Datong District, Taipei City	18,746	18,746
Yuanhuan Section, Taiyuan Road	Yuanhuan Section, Datong District, Taipei City	22,061	22,061
Heping West Road Project	Nanghai Section, Zhongzheng District, Taipei City	809	809
Tianmu Tianyu Street Project	Tianmu Section, Tianmu District, Taipei City	33	33
No. 128, Sec. 3, Chengde Road	Datong Section, Datong District, Taipei City	-	7,722
No.101, Chang'an West Road	Shifu Section, Datong District, Taipei City	175,305	175,305
Sec. 2, Huanshan Road	Bihu Section, Neihu District, Taipei City	-	4,840
Total		<u>\$347,284</u>	<u>\$359,845</u>

C. Details of Construction in progress were as follows:

Item	Detail	As of December 31,		Construction Method
		2023	2022	
City Meeting Point	Cost of Land	\$-	\$23,136	Joint construction and allocation of housing units
	Cost of Construction	-	165,951	
Yundu Project	Cost of Land	664,105	651,758	Joint construction and allocation of housing units
	Cost of Construction	230,867	69,813	
Yunji Project	Cost of Land	318,713	303,460	Joint construction and allocation of housing units
	Cost of Construction	244,996	167,174	
Baosheng Emperor Memorial Hall	Cost of Land	264,863	264,864	Joint construction and allocation of housing units
	Cost of Construction	102,419	55,517	
Yundi Project	Cost of Land	68,398	57,540	Joint construction and allocation of housing units
	Cost of Construction	271,163	79,045	
Sunfon AIT	Cost of Land	142,085	137,441	Joint construction and allocation of housing units
	Cost of Construction	59,287	11,199	
Sec. 1, Nanchang Road	Cost of Land	55,495	37,995	Joint construction and allocation of housing units
	Cost of Construction	21,086	8,304	
Yuncheng Project	Cost of Land	19,231	-	Joint construction and allocation of housing units
	Cost of Construction	8,449	1,770	
Sec. 2, Huanshan Road	Cost of Land	8,080	-	Joint construction and allocation of housing units
	Cost of Construction	3,752	177	
Others	Cost of Land	25,837	21,482	-
	Cost of Construction			
Total		<u>\$2,508,826</u>	<u>\$2,056,626</u>	

D. Capitalized interests of Construction in progress were as follows:

	For the years ended December 31,	
	2023	2022
Capitalized interests	\$19,605	\$12,530
Capitalized interest rate	1.55%~2.85%	1.06%~2.69%

E. Additional disclosures of important construction projects were as follows:

Item	Total price for construction contract (budgeted cost, excluding land payment)	Percentage of completion	Scheduled completion year
Baosheng Emperor Memorial Hall	170,000	53%	2024
Yundi Project	890,000	27%	2025
Yunji Project	1,900,000	10%	2026
Sunfon AIT	219,000	22%	2025
Yundu Project	2,120,000	7%	2028

F. Details of Prepayment for land purchases were as follows:

Item	As of December 31,	
	2023	2022
City Meeting Point	\$-	\$10,255
Chang'an West I Project	3,702	3,646
Total	\$3,702	\$13,901

G. Cost incurred on inventories for the years ended December 31, 2023 and 2022 were as follows:

	For the years ended December 31,	
	2023	2022
Cost of Construction	\$326,505	\$447
Cost of Rent	1,278	1,278
Total	\$327,783	\$1,725

H. Please refer to Note 8 for more details on inventories pledged as loan guarantee.

(4) Investment accounted for using equity method

Investee companies	As of December 31,			
	2023		2022	
	Carrying amount	Percentage of (%)	Carrying amount	Percentage of (%)
Subsidiaries:				
Gin Yuang Construction CO., Ltd.	\$82,107	99.9716%	\$97,920	99.9645%

Investments in subsidiaries is represented as “Investments accounted for using equity method” and adjusted for the valuation if necessary.

Gin Yuan Construction Co., Ltd. issued common stocks in a total of 50 thousand shares with a par value of \$1,000 each in cash in 2023. The Company's non-proportional investment resulted in increased shareholdings in Gin Yuan Construction Co., Ltd. to 99.9716%. The Company subscribed to additional shares in the investee at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differed from the amount of the Company's proportionate interest in the net assets of the investee. The 5 thousand differences between the fair value of the acquiring subsidiaries and the carrying amounts of the subsidiaries were charged to retained earnings under IAS 27.

Gin Yuan Construction Co., Ltd. issued common stocks in a total of 100 thousand shares with a par value of \$1,000 each in cash in 2022. The Company's non-proportional investment resulted in increased shareholdings in Gin Yuan Construction Co., Ltd. to 99.9645%. The Company subscribed to additional shares in the investee at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differed from the amount of the Company's proportionate interest in the net assets of the investee. The 20 thousand differences between the fair value of the acquiring subsidiaries and the carrying amounts of the subsidiaries were charged to retained earnings under IAS 27.

(5) Property, plant and equipment

Changes in property, plant and equipment were as follows:

	Land	Buildings	Transportation equipment	Miscellaneous equipment	Total
<u>Cost:</u>					
As of January 1,2022	\$35,855	\$16,214	\$1,610	\$852	\$54,531
Additions	-	-	-	-	-
Disposals	-	-	-	(128)	(128)

Net carrying amount as of:			
December 31, 2023	<u>\$199,081</u>	<u>\$33,571</u>	<u>\$232,652</u>
December 31, 2022	<u>\$199,081</u>	<u>\$34,849</u>	<u>\$233,930</u>

B. For the years ended 2023 and 2022, the rental income generated from investment properties held by the Company amounted to \$6,501 thousand and \$6,485 thousand, respectively. No significant direct operating expenses were incurred for investment properties which generated rental income during the period.

C. The investment property held by the Company was not measured at fair value, but only disclosed information on its fair value, and the fair value measurement is categorized within Level 3 of the fair value hierarchy. The fair value of the investment property held by the Company both amounted to \$250,404 thousand on December 31, 2023 and December 31, 2022. The Company evaluates the market price of similar real estate in the vicinity of the relevant assets (including the Real Estate Actual Transaction Price Inquiry Website and websites of real estate agents). The recent real estate market was also used as the fair value of the investment property at each reporting date.

D. Please refer to Note 8 for more details on investment property under pledge.

Total		<u>\$893,521</u>	<u>\$766,591</u>

The Company's unused short-term lines of credits amount were \$5,240,815 thousand and \$4,605,745 thousand, as of December 31, 2023 and 2022, respectively.

Please refer to Note 8 for more details on land and buildings pledged as security for short-term loans.

(9) Post-employment benefits

Defined contribution plan

The Company adopts a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Company will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Company has made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

For the years ended December 31, 2023 and 2022, the expenses related to defined contribution plan amounted to \$659 thousand and \$617 thousand, respectively.

Defined benefits plan

The Company adopts a defined benefit plan in accordance with the Labor Standards Act of the R.O.C. The pension benefits are disbursed based on the units of service years and the average salaries in the last month of the service year. Two units per year are awarded for the first 15 years of services while one unit per year is awarded after the completion of the 15th year. The total units shall not exceed 45 units. Under the Labor Standards Act, the Company contributes an amount equivalent to 15% of the employees' total salaries and wages on a monthly basis to the pension fund deposited at the Bank of Taiwan in the name of the administered pension fund committee. Before the end of each year, the Company assesses the balance in the designated labor pension fund. If the amount is inadequate to pay pensions calculated for workers retiring in the same year, the Company will make up the difference in one appropriation before the end of March the following year.

The Ministry of Labor is in charge of establishing and implementing the fund utilization plan in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. The pension fund is invested in-house or under a mandate, based on a passive-aggressive investment strategy for long-term profitability. The Ministry of Labor establishes checks and risk management mechanism based on the assessment of risk factors including market risk, credit risk and liquidity risk, in order to maintain adequate manager flexibility to achieve targeted return without over-exposure of risk. With regard to utilization of the pension fund, the minimum earnings in the annual distributions on the final financial statement shall not be less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. Treasury Funds can be used to cover the deficits after the approval of the competent authority. As the Company does not participate in the operation and management of the pension fund, no disclosure on the fair value of the plan assets categorized in different classes could be made in accordance with paragraph 142 of IAS 19. The Company expects to contribute \$340 thousand to its defined benefit plan during the 12 months beginning after December 31, 2023.

The defined benefits plan obligation is expected to mature both in 5 years as of December 31, 2023 and 2022.

Pension costs recognized in profit or loss for the years ended December 31, 2023 and 2022 were as follows:

	For the years ended	
	December 31,	
	2023	2022
Current period service cost	\$208	\$213
Net interest on the net defined benefit liabilities (assets)	11	27
Total	<u>\$219</u>	<u>\$240</u>

Changes in the defined benefit obligation and fair value of plan assets were as follows:

	As of		
	December 31, 2023	December 31, 2022	January 1, 2022
Defined benefit obligation	\$21,364	\$22,429	\$25,601
Plan assets at fair value	(22,276)	(21,512)	(20,368)
Net defined benefit liabilities, non-current	<u>(\$912)</u>	<u>\$917</u>	<u>\$5,233</u>

Reconciliations of liabilities (assets) of the defined benefit plan were as follows:

	Defined benefit obligation	Plan assets at fair value	Benefit Liabilities (assets)
As of January 1, 2022	\$25,601	\$(20,368)	\$5,233
Current period service cost	213	-	213
Interest expense (income)	133	(106)	27
Subtotal	25,947	(20,474)	5,473
Remeasurements of the defined benefit liabilities/assets:			
Actuarial gains and losses arising from changes in financial assumptions	(2,224)	-	(2,224)
Experience adjustments	(113)	(1,546)	(1,659)
Subtotal	23,610	(22,020)	1,590
Payments from the plan	(1,181)	1,181	-
Contributions by employer	-	(673)	(673)
As of December 31, 2022	22,429	(21,512)	917
Current period service cost	208	-	208
Interest expense (income)	258	(247)	11
Subtotal	22,895	(21,759)	1,136
Remeasurements of the defined benefit liabilities/assets:			
Actuarial gains and losses arising from changes in financial assumptions	1,018	-	1,018
Experience adjustments	(407)	(121)	(528)
Subtotal	23,506	(21,880)	1,626
Payments from the plan	(2,142)	2,142	-
Contribution by employer	-	(2,538)	(2,538)
As of December 31, 2023	<u>\$21,364</u>	<u>\$(22,276)</u>	<u>(\$912)</u>

The following significant actuarial assumptions were used to determine the present value of the defined benefit obligation:

	As of December 31,	
	2023	2022
Discount rate	1.18%	1.15%
Expected rate of salary increases	3.00%	2.00%

A sensitivity analysis for significant assumption was shown below:

	For the years ended December 31,			
	2023		2022	
	Defined benefit obligation increase	Defined benefit obligation decrease	Defined benefit obligation increase	Defined benefit obligation decrease
Discount rate increased by 0.5%	\$-	\$(545)	\$-	\$(572)
Discount rate decreased by 0.5%	581	-	644	-
Future salary increased by 0.5%	567	-	635	-
Future salary decreased by 0.5%	-	(538)	-	(570)

The sensitivity analyses above are based on a change in a significant assumption (for example: change in discount rate or future salary), keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation of one another.

There was no change in the methods and assumptions used in preparing the sensitivity analyses compared to the previous period.

(10) Equity

A. Ordinary share

As of December 31, 2023 and 2022, the Company's authorized capital were both \$3,000,000 thousand. The Company's paid-in capital were both \$2,162,255 thousand as of December 31, 2023 and 2022, each at par value of \$10, and both issued 216,226 thousand shares. Each share has one voting right and right to receive dividends.

On May 26, 2022, the Company's general meeting of shareholders passed a resolution to distribute shareholders' dividend bonus from retained earnings of 2021 and capital surplus to issue new shares for capital increase of 5,406 thousand shares and 2,911 thousand shares, respectively, both with a par value of \$10 per share. As of the date of this report, the case was approved and deemed effective by the Securities and Futures Bureau, Financial Supervisory Commission, on July 8, 2022, and September 2, 2022 was set as the ex-dividend date. The relevant statutory procedures for changes have been completed.

B. Capital surplus

	As of December 31,	
	2023	2022
Treasury share transactions – other	1,332	1,332
Gains on disposal of assets	14	14
Total	\$1,346	\$1,346

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the Company. When a company incurs no loss, it may distribute the capital reserve related to the income derived from the issuance of new shares at a premium or income from endowments received by the Company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

On May 26, 2022, the Company's general meeting of shareholders passed a resolution to distribute stock dividend from capital surplus in the amount of \$29,108 thousand, at \$0.14 per share.

C. Treasury stock

As of December 31, 2023, and 2022, the Company's shares held by the subsidiary, Gin Yuang Construction CO., Ltd., were \$23,395 thousand and \$23,393 thousand, respectively. These shares held by Gin Yuang Construction CO., Ltd. were acquired for the purpose of financing. And as of December 31, 2023 and 2022, the number of the Company's shares held by Gin Yuang Construction CO., Ltd. was both 8,679 thousand shares.

Under the Securities and Exchange Act, the Company shall neither pledge treasury nor exercise shareholders' rights on these shares, such as the rights to dividends and vote. However, the subsidiary's holdings of treasury shares are still entitled to shareholders' equity. In addition, according to the Company Act amended in June 2005, the Company's treasury shares held by the subsidiary is not entitled to voting rights.

D. Retained earnings and dividend policies

According to the Company Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- a. Payment of all taxes and dues
- b. Offset prior years' operation losses
- c. Set aside 10% of the remaining amount after deducting items A and B as legal reserve
- d. Set aside or reverse special reserve in accordance with law and regulations
- e. The distribution of the remaining portion, if any, will be recommended by the board of directors and resolved in the shareholders' meeting

The policy of dividend distribution should reflect factors such as the current and future investment environment, fund requirements, domestic and international competition and capital budgets; as well as the interest of the shareholders, share bonus equilibrium and long-term financial planning etc. The Company's board of directors shall make the distribution proposal annually and present it at the shareholders' meeting. The Company's Articles of Incorporation further provide the percentage of the dividends range from 0% to 90% to shareholders, if any, could be paid in the form of share dividends. Accordingly, the percentage of the dividends range from 10% to 100% must be paid in the form of cash.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

The FSC on March 31, 2021 issued Order No. Jin-Guan-Cheng-Fa-Zi-1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside special reserve. For any subsequent use, disposal or reclassification of related assets, the Company can reverse the special reserve by the proportion of the special reserve first appropriated and distribute it.

Details of the 2023 and 2022 earnings distribution and dividends per share as approved and resolved by the board of directors' meeting and shareholders' meeting on March 5, 2024 and May 25, 2023, respectively, are as follows:

	<u>Appropriation of earnings</u>		<u>Dividends per share (NTD\$)</u>	
	<u>2023</u>	<u>2022</u>	<u>2023</u>	<u>2022</u>
Legal reserve	\$10,548	\$2,594	\$-	\$-
Common stock–cash dividend	-	-	-	-
Common stock–stock dividend	108,113	-	0.5	-

As of the date of report, the Company's 2023 earnings distribution and dividends were not proposed to be disclosed by shareholders' meeting. Information on the board of directors' and shareholders' resolution regarding the earnings distribution can be obtained from the "Market Observation Post System".

Please refer to Note 6(13) for details on employees' compensation and remuneration to directors and supervisors.

(11) Operating revenue

	For the years ended	
	December 31,	
	<u>2023</u>	<u>2022</u>
Revenue from contracts with customers		
Sale of land and buildings	\$472,096	\$571
Rental revenue	6,501	6,485
Total	<u>\$478,597</u>	<u>\$7,056</u>

Analysis of revenue from contracts with customers for the years ended December 31, 2023 and 2022 are as follows:

A. Disaggregation of revenue

	For the years ended	
	December 31,	
	<u>2023</u>	<u>2022</u>
	Construction	Construction
	Sector	Sector
Sale of land and buildings	<u>\$472,096</u>	<u>\$571</u>
Timing of revenue recognition:		
At a point in time	<u>472,096</u>	<u>\$571</u>

B. Contract balances

	As of December 31,	
	2023	2022
Contract liabilities–Current		
Sales contracts of land and buildings	\$1,257,139	\$1,047,073

C. Contract cost

	As of December 31,	
	2023	2022
Assts recognized as incremental costs to obtain contract with customers	\$199,180	\$164,701
Less: Accumulated amortization	(27,874)	-
Accumulated impairment	-	-
Total	\$171,306	\$164,701

(12) Leases

Company as a lessor

Please refer to Note 6(6) for details on the Company’s owned investment properties. Leases of owned investment properties are classified as operating leases as they do not transfer substantially all the risks and rewards incidental to ownership of underlying assets.

	For the years ended December 31,	
	2023	2022
Lease income for material operating leases		
Income relating to fixed lease payments and variable lease payments that depend on an index or a rate	\$6,501	\$6,485

Please refer to Note 6(6) for relevant disclosure of property, plant and equipment for operating leases. For operating leases entered into by the Company, the undiscounted lease payments to be received and a total of the amounts (tax included) for the remaining years as of December 31, 2023 and 2022 are as follows:

	As of December 31,	
	2023	2022
Not later than one year	\$6,124	\$6,712
Later than one year but not later than five years	13,119	18,146
Total	\$19,243	\$24,858

(13) Summary statement of employee benefits, depreciation and amortization expenses by function was as follows:

By function By feature	For the years ended December 31,					
	2023			2022		
	Operating costs	Operating expenses	Total	Operating costs	Operating expenses	Total
Employee benefits expense						
Wages and salaries	\$-	\$23,009	\$23,009	\$-	\$18,209	\$18,209
Labor and health insurance	-	1,495	1,495	-	1,500	1,500
Pension	-	878	878	-	857	857
Remuneration to directors	-	1,030	1,030	-	360	360
Other employee benefits expense	-	463	463	-	464	464
Depreciation	1,278	499	1,777	1,278	519	1,797
Amortization	-	120	120	-	120	120

A. Both of the current year and the prior year, there were 25 and 24 employees working for the Company, of which 9 and 8 were non-employee directors.

B. For the current year and prior year, the average employee benefits expenses were \$1,615 thousand and \$1,314 thousand, respectively, and the average employee salaries expenses were \$1,438 thousand and \$1,138 thousand, respectively. The adjustment and movement of average employee salaries expenses was 26.36 %.

C. The Company's remuneration policy for directors, supervisors and managerial officers is handled in accordance with "Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Taiwan Stock Exchange or the Taipei Exchange" and is subject to review by the Salary and Remuneration Committee. The remuneration policy for managerial officers is determined by taking into account the employee's personal experience, performance, contributions to the Company, the future potential, as well as the Company's operating performance. The remuneration policy for employees, directors and supervisors is handled in accordance with the Company's Articles of Incorporation during the Company's profit-earning year. The employee's salary includes basic salary, various subsidies, duty allowance, overtime and bonuses. The basic salary is determined based on the employee's academic background, work experience, professional skills, and the value of the position served, while taking the salary standard of the industry into consideration; bonuses are given depending on the Company's annual operating surplus, as well as the achievement of the goals set by the department and the employee.

According to the Articles of Incorporation, 1% of profit of the current year is distributable as employees' compensation and no higher than 1% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a board meeting attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the board of directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on the Company's profit for the year ended December 31, 2023, employees' compensation and remuneration to directors and supervisors were both estimated at 1% of profit to be distributed and both amounted to \$519 thousand recognized in wages and salaries. A resolution was passed in the board meeting held on March 5, 2024 to pay employees' compensation and remuneration to directors and supervisors in cash both in the amount of \$519 thousand, which were recognized in wages and salaries.

There were no estimated amounts of the employees' compensation and director and supervisor remuneration for the year ended December 31, 2022, because of net losses before tax.

(14) Non-operating income and expenses

A. Interest income

	For the years ended December 31,	
	2023	2022
Interest income		
Financial assets measured at amortized cost	\$3,857	\$2,716
Other interest income	897	3
Total	<u>\$4,754</u>	<u>\$2,719</u>

Total	\$(115,817)	\$-	\$(115,817)	\$-	\$(115,817)

(16) Income tax

A. The major components of income tax expense (income) were as follows:

Income tax expense (income) recognized in profit or loss

	For the years ended	
	December 31,	
	2023	2022
Current income tax expense (income):		
Current income tax payable	\$21,813	\$-
Adjustments in respect of current income tax of prior periods	(9)	(3,697)
Land value increment tax	123	6
Total income tax expense (income)	<u>\$21,927</u>	<u>\$(3,691)</u>

B. A reconciliation of income before income tax and income tax expense recognized in profit or loss was as follows:

	For the years ended	
	December 31,	
	2023	2022
Accounting profit (loss) before tax from continuing operations	<u>\$50,862</u>	<u>\$(17,599)</u>
Tax at the domestic rates applicable to profits in the country concerned	\$10,172	\$(3,520)
Adjustments in respect of effects on income tax of construction benefits	-	2
Tax effect of expenses not deductible for tax purposes	13,144	2,858
Tax effect of revenues exempt from taxation	(2,547)	(5,999)
Income tax on undistributed earnings	1,167	-
Adjustments in respect of current income tax of prior periods	(9)	(3,697)
Land value increment tax	123	6
Others	(123)	6,659
Total income tax expense (income) recognized in profit or loss	<u>\$21,927</u>	<u>\$(3,691)</u>

C. Some of the Company's primary operating activities are tax-exempt (e.g., land transactions and investments in domestic listed companies' stocks), so regarding the tax related to non-deductible temporary difference, no deferred income tax asset (liability) benefit incurred.

D. The assessment of income tax returns

As of December 31, 2023, the assessment of the income tax returns of the Company is as follows:

	<u>The assessment of income tax returns</u>	<u>Remark</u>
The Company	Assessed and approved up to 2021	-

(17) Earnings per share

Basic earnings per share amounts are calculated by dividing net profit for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	<u>For the years ended</u> <u>December 31,</u>	
	<u>2023</u>	<u>2022</u>
A. Basic earnings per share		
Profit (losses) attributable to ordinary equity owners of the Company (in thousand NT\$)	<u>\$28,935</u>	<u>\$(13,908)</u>
Weighted average number of ordinary shares outstanding for basic earnings per share (in thousands)	<u>207,547</u>	<u>207,547</u>
Basic earnings per share (NT\$)	<u>\$0.14</u>	<u>\$(0.07)</u>
B. Diluted earnings per share		
Profit (losses) attributable to ordinary equity holders of the Company (in thousand NT\$)	<u>\$28,905</u>	<u>\$(13,908)</u>
Profit attributable to ordinary equity holders of the Company after dilution (in thousand NT\$)	<u>\$28,905</u>	<u>\$(13,908)</u>
Weighted average number of ordinary shares outstanding for basic earnings per share (in thousands)	207,547	207,547
Effect of dilution:

Pro forma information on earnings per share assuming that the Company's shares invested by Gin Yuang Construction Co., Ltd. are not treated as treasury stock:

	For the years ended December 31,	
	2023	2022
Basic earnings per share		
Profit (losses) attributable to ordinary equity holders of the Company (in thousand NT\$)	\$28,935	\$(13,908)
Weighted average number of ordinary shares outstanding for pro forma earnings per share (in thousands)	216,226	216,226
Pro forma earnings per share (NT\$)	\$0.13	\$(0.06)

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of the financial statements.

7. Related party transactions

Information of the related party – Gin Yuang Construction Co., Ltd. that had transactions with the Company during the financial reporting period is as follows:

(1) Rental income

Related party	Leasing premises	For the years ended December 31,			
		2023		2022	
		Terms of the lease	Amount	Terms of the lease	Amount
Subsidiary	7F., No. 173, Section 2, Chang'an East Road	2023.1.1-2023.12.31	\$120	2022.1.1-2022.12.31	\$120

(2) Construction contract projects and payables to related parties

A. As of December 31, 2023 and 2022, regarding the construction contract already signed by the Company and Gin Yuang Construction Co., Ltd. were as follows:

Item	Total contract price	As of December 31, 2023		
		Accumulated amount paid for construction	Construction project status	Estimated completion year
Baosheng Emperor Memorial Hall	170,000	\$89,250	Unfinished	2024
Yundi Project	890,000	195,800	Unfinished	2025
Yunji Project	1,900,000	171,000	Unfinished	2026
Sunfon AIT	219,000	8,760	Unfinished	2025
Yundu Project	2,120,000	106,000	Unfinished	2028

Item	As of December 31, 2022			
	Total contract price	Accumulated amount paid for construction	Construction project status	Estimated completion year
City Meeting Point	\$200,000	\$140,000	Unfinished	2023
Baosheng Emperor Memorial Hall	170,000	38,250	Unfinished	2024
Yundi Project	890,000	-	Unfinished	2025
Yunji Project	1,900,000	114,000	Unfinished	2025
Sunfon AIT	219,000	-	Unfinished	2024

B. For the construction contracts mentioned above, the subsidiary requested payments from the Company for the years ended December 31, 2023 and 2022 as follows:

Related party	Nature	Account	For the years ended December 31,	
			2023	2022
Subsidiary	Construction project	Construction in progress – contracted work in progress	\$535,735	\$247,552

C. As of December 31, 2023 and 2022, regarding the construction contracts mentioned above, the payables due to related parties were as follows:

Related party	Nature	Account	As of December 31,	
			2023	2022
Subsidiary	Outsourcing project	Notes and Accounts Payable	\$138,400	\$72,076

D. There is no significant difference between the transaction price and collection terms of the construction contracts mentioned above and the general manufacturers.

(3) The Company entered into a lease contract with the Taipei Branch of Chunghwa Post Co., Ltd. of which the terms of the lease commence on August 1, 2022 and ends on July 31, 2027, with Gin Yuang Construction Co., Ltd. as the Company's joint guarantor.

(4) Key management personnel compensation

	For the years ended December 31,	
	2023	2022
Short-term employee benefits	\$6,684	\$6,570

Short-term borrowings	\$893,521	\$766,591
Short-term notes and bills payable	40,000	-
Accounts payable (including other payables)	165,395	93,635
Total	<u>\$1,098,916</u>	<u>\$860,226</u>

(2) Financial risk management objectives and policies

The Company's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Company identifies measures and manages the aforementioned risks based on the Company's policy and risk appetite.

The Company has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Company always complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variables, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt instrument investments at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including borrowings with variable interest rates and interest rate swaps. At the reporting date, a change of 10 basis points of interest rate in a reporting period could cause the profit for the years ended December 31, 2023 and 2022 to decrease/increase by \$894 thousand and \$767 thousand, respectively.

Equity price risk

The fair value of the Company's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company's listed and unlisted equity securities are classified under financial assets measured at fair value through profit or loss and financial assets measured at fair value through other comprehensive income. The Company manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's board of directors reviews and approves all equity investment decisions.

For the year ended December 31, 2023 and 2022, a rise/fall of 1% in the price of listed equity securities, classified as equity instruments investment measured at fair value through other comprehensive income have an impact of \$7,446 thousand and \$7,940 thousand on the equity attributable to the Company, respectively.

(4) Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a contract, leading to a financial loss. The Company is exposed to credit risk from operating activities (primarily for trade and notes receivable) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Company's internal rating criteria etc. Certain counterparties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment.

The Company's main business is the sale of real estate. There is a large customer base and no significant concentration of transactions with a single customer. Therefore, the credit risk of accounts receivable is not significantly concentrated and there is no concern that the accounts receivable cannot be recovered.

Credit risk from balances with banks is managed by the Company's treasury in accordance with the Company's policy. The Company only transacts with counterparties approved by the internal control procedures, which are banks with good credit rating. Consequently, there is no significant credit risk for these counterparties.

(5) Liquidity risk management

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents and bank borrowings.

The table below summarizes the maturity profile of the Company's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

Non-derivative financial liabilities

	Less than 1 year	2 to 3 years	4 to 5 years	> 5 years	Total
As of December 31, 2023					
Short-term loans					
(including interest to be paid)	\$175,442	\$589,092	\$188,313	\$-	\$952,847
Short-term notes and bills payable	40,000	-	-	-	40,000
Accounts payables					
(including other payables)	165,395	-	-	-	165,395
As of December 31, 2022					
Short-term loans					
(including interest to be paid)	\$425,038	\$16,342	\$369,187	\$-	\$810,567
Accounts payables					
(including other payables)	93,635	-	-	-	93,635

(6) Reconciliation of liabilities arising from financing activities

For the year ended December 31, 2023:

	Short-term loans	Short-term notes and bills payable	Total liabilities from financing activities
As of January 1, 2023	\$766,591	\$-	\$766,591
Cash flows	126,930	40,000	166,930
As of December 31, 2023	<u>\$893,521</u>	<u>\$40,000</u>	<u>\$933,521</u>

For the year ended December 31, 2022:

	Short-term loans	Short-term notes and bills payable	Total liabilities from financing activities
As of January 1, 2022	\$464,991	\$200,000	\$664,991
Cash flows	301,600	(200,000)	101,600
As of December 31, 2022	<u>\$766,591</u>	<u>\$-</u>	<u>\$766,591</u>

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Company to measure or disclose the fair values of financial assets and financial liabilities:

- (a) The carrying amount of cash and cash equivalents, accounts receivable (including due from related parties), accounts payable (including payables to related parties), and other current liabilities approximate their fair value due to their short maturities.
- (b) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates and bonds etc.).
- (c) Fair value of bank loans is determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the Taipei Exchange, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)

B. Fair value measurement hierarchy for financial instruments

Please refer to Note 12(9) for fair value measurement hierarchy for financial instruments of the Company.

(8) Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholders' value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

(9) Fair value measurement hierarchy

A. Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – Unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B. Fair value measurement hierarchy of the Company's assets and liabilities

The Company does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Company assets and liabilities measured at fair value on a recurring basis was as follows:

As of December 31, 2023

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets measured at fair value:				
Equity instrument measured at fair value through other comprehensive income				
Stocks	\$744,560	\$15,014	\$-	\$759,574

As of December 31, 2022

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets measured at fair value:				
Equity instrument measured at fair value through other comprehensive income				
Stocks	\$794,013	\$14,223	-	\$808,236

Transfers between Level 1 and Level 2 during the period

During the years ended December 31, 2023 and 2022, there were no transfers between Level 1 and Level 2 fair value measurements.

C. Fair value measurement hierarchy of the Company's assets and liabilities not measured at fair value but for which the fair value was disclosed.

As of December 31, 2023

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets not measured at fair value but for which the fair value is disclosed:				
Investment property				
(Please refer to Note 6(6))	\$-	\$-	\$250,404	\$250,404

As of December 31, 2022

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets not measured at fair value but for which the fair value is disclosed:				
Investment property				
(Please refer to Note 6(6))	\$-	\$-	\$250,404	\$250,404
